Yes. Long night with this issue. Original event was for a town hall in the chamber of Sunday. Met on site with attorneys, grew into USSS and Fox News. Called Sgt [REDACTED] from the site and [REDACTED] showed up to talk with USSS.

As of now, we're looking at an event at base of Lincoln from 6-8 or so on Sunday night. No event in Chamber. I will see if that holds once POTUS is briefed later today.

Will brief out after 11:00am call with District.

There is unofficial chatter of a possible visit by POTUS to the Lincoln Memorial this Sunday (May 3). The nature of the visit is initially being called a "virtual town hall". The USSS is getting more information from staff if this is actually planned and what it would entail. Hodge said that a police meeting has not been scheduled yet to discuss details but we will share any info if this becomes a reality.
