Looks like some of the older material from past versions still here which is good but it mandates oil and gas leasing. Quick and dirty -

Subtitle B on p624 is Natural Resources.
\$250m for nps and blm conservation projects w no cost share
\$250m for nps and blm habitat projects
Think those are the old climate corps provisions.
\$500m for nps employees
\$550m for BOR domestic supply projects for disadvantaged communities that do not have reliable access to domestic water supplies
\$25m for BOR solar canal pilot projects
\$15m for insular climate tech assistance
Mid Atlantic ocs wind leasing fix and leasing for the territories (sec 50251)
Part 6 on 632 is fossil fuels
Ocsla royalties between 16 and 2/3 and 18.75 for 20 years and a 16.66 floor thereafter (sec 50262)
Onshore royalty set at 16 2/3 for 10 years and 16 2/3 floor thereafter (sec 50262)
\$10 per acre minimum bid during 10 year period and raising rental rates and expression of interest fee
Eliminating non competitive leases
Bonding requirements minimum \$150k for lease or \$500k all leases per state and \$2m nationwide
Royalties on all extracted methane (sec 50263)
NOTE - sec 50264
Reinstates 257 and requires 258 and 259 by end of year and 261 by sept 23.
NOTE - sec 50265
Requires onshore and offshore oil and gas leasing in order to issue rights of way for wind and solar
\$23.5m for usgs 3d elevation data
\$10m for DOI oig

\$150 for DOI enviro review permitting work

Sorry for the spam. Summary and text posted here:

<https://www.democrats.senate.gov/inflation-reduction-act-of-2022>

Will do a quick scan for anything DOI related and send only one more email tonight

Whola hosting a large call on the deal tomorrow at 930am for agency ocl types. Morgan and I will be on. No text yet but folks including Pelosi dear colleague saying the text supposed to go

to parliamentarian for the Byrd bath tonight (which means public tonight) with senate floor next week (house preparing to come back in august to consider). A methane fee is reportedly in but we've not been expecting that much proactive in DOI space in this process in 2022 but will be looking for what other items are included. The deal statements also indicate a separate (non reconciliation) permitting reform bill to come by end of the FY.

Subject: Re: [EXTERNAL] FW: MANCHIN SUPPORTS INFLATION REDUCTION ACT OF 2022

Potus statement

FOR IMMEDIATE RELEASE

July 27, 2022

Statement from President Biden on Inflation Reduction Act of 2022

This afternoon, I spoke with Senators Schumer and Manchin and offered my support for the agreement they have reached on a bill to fight inflation and lower costs for American families.

With this agreement, we have a chance to make prescription drugs cheaper by allowing Medicare to negotiate lower prices and we can lower health insurance costs for 13 million Americans, by an average of \$800 a year, for families covered under the Affordable Care Act.

We will improve our energy security and tackle the climate crisis – by providing tax credits and investments for energy projects. This will create thousands of new jobs and help lower energy costs in the future.

This bill will reduce the deficit beyond the record setting \$1.7 trillion in deficit reduction we have already achieved this year, which will help fight inflation as well.

And we will pay for all of this by requiring big corporations to pay their fair share of taxes, with no tax increases at all for families making under \$400,000 a year.

This is the action the American people have been waiting for. This addresses the problems of today – high health care costs and overall inflation – as well as investments in our energy security for the future.

I will have more to say on this later. For now, I want to thank Senator Schumer and Senator Manchin for the extraordinary effort that it took to reach this result.

If enacted, this legislation will be historic, and I urge the Senate to move on this bill as soon as possible, and for the House to follow as well.
