

Following Secretary Haaland's message on employee participation in special emphasis programs, the NPS issued further guidance to regional directors, clarifying how the NPS will officially participate in these observances, including Pride. Regional Directors will determine the level and nature of NPS participation, considering operational and budgetary factors.

As we do every June, parks will be hosting and participating in Pride events and sharing stories that recognize the joy and perseverance of the lesbian, gay, bisexual, transgender, and queer community. We share these stories in parks from coast to coast and celebrate the contributions of LGBTQ+ Americans past and present, including our team of employees, partners, and volunteers.
