RE: Mountain Valley Pipeline, LLC
Docket Nos. CP16-10-000, CP19-477-000, and CP21-57-000
Notice of Mechanical Completion and Request for In-Service Authorization

Dear Acting Secretary Reese:

On April 22, 2024, Mountain Valley Pipeline, LLC filed a request for authorization to place the Mountain Valley Pipeline Project facilities in service. Mountain Valley supplemented its request on May 21, 2024.

Mountain Valley confirms that the Project facilities are mechanically complete. Hydrotesting is complete on all Project facilities. The final segments of the Project are currently being purged and packed with natural gas. All welding, testing, cleaning, drying, and tie-ins are complete.

Mountain Valley has satisfied all aspects of the Pipeline and Hazardous Materials Safety Administration's October 3, 2023 Consent Order that are necessary to commence service. Mountain Valley notified PHMSA of its full compliance prior to introducing natural gas to the final segments.

Mountain Valley requests that Commission Staff issue its authorization by June 11, 2024. Consistent with established Commission precedent, Mountain Valley has satisfied the restoration standard in Environmental Condition No. 10 of the Certificate Order to be granted authorization to place the Project facilities into service. Multiple shippers have executed agreements to commence transporting volumes using the Project facilities beginning the day after the Project declares in-service, which further heightens the need for prompt authorization to meet market demands.

Ms. Debbie-Anne A. Reese
