**Cohen vs. Donald J. Trump, Case No. 3:13-cv-02519**

To Whom It May Concern:

I am writing this letter because I do not agree with the settlement amount that was reached or the refund amount that's going to be distributed to the participants of the suit. Prior to the settlement, I was told that I would be given at least three times the amount that I was cheated out of, and that senior citizens would be given six times the amount they were cheated out of. I feel that I should be given a full refund plus punitive damages just as I was initially promised, because I suffered immensely as a direct result of Trump and Trump University. My credit was destroyed because of Trump University. I was homeless with my family because of Trump and Trump University. My family and myself went hungry for days at a time, suffering and struggling just to survive because of Trump and Trump University. So, these are just a few reasons why I feel that my compensation should be at least three times the amount that I spent, now I submitted my claim for only the amount that I spent because I was told that the amount I spent was all that I could make a claim for. Even though I wanted to put in a claim for almost one hundred twenty thousand dollars. Which would be three times the amount I spent, but was told by a representative on the phone that I couldn't do that. The representative stated to me that I could write a letter expressing my disappointment and disagreement with the settlement, so that's what I'm doing. So, I'm informing the court or whomever decides how much of a refund that everyone receives; that although I'm submitting a claim for thirty-five thousand dollars I spent on that so-called class I would appreciate being awarded the three times that amount, for the suffering that my family and I had to endure, as a direct result of Trump and Trump University. Also, because it's the decent and right thing to do, being that my family's and my life was derailed for years because of Trump and Trump University.

Sincerely,

Harold Doe
