

SENATOR CORY GARDNER PUT OIL & GAS COMPANIES AHEAD OF COLORADO'S COMMUNITIES

The land, air and water are part of our cherished outdoor heritage. It's our moral obligation to protect it.

But, Senator Cory Gardner voted to OVERTURN a federal rule and allow oil companies to pollute our air and waste hundreds of millions of dollars of taxpayer-owned natural gas.

83 percent of Coloradans polled supported the rule, but Senator Cory Gardner put the interests of oil companies before our communities.

WE NEED SENATOR GARDNER TO BE A LEADER IN PROTECTING COLORADO'S OUTDOOR HERITAGE.

*On May 10th, Senator Gardner voted yes on the motion to proceed on H.J. Res. 36, an attempt to overrule an important BLM natural gas waste rule
