The Budget requests \$62.3 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$24.3 million is for the Fair Housing Assistance Program (FHAP); \$36.2 million is for the Fair Housing Initiatives Program (FHIP); \$1.5 million is for the National Fair Housing Training Academy (NFHTA); and \$300 thousand is for the Limited English Proficiency Initiative (LEPI). These resources address the national and ongoing problem of discrimination against minority homebuyers and renters, as identified in the 2012 Housing Discrimination Against Racial and Ethnic Minorities Study, and directly supports HUD's mission to create strong, inclusive communities free from discrimination.

The FHAP provides funding to State and local agencies to assure prompt and effective processing of complaints under substantially equivalent State and local fair housing laws. To be eligible for assistance through FHAP, an agency must administer a fair housing law that HUD has certified as substantially equivalent to the Federal Fair Housing Act. It is estimated that there will be a total of 85 FHAP jurisdictions in 2019. The funding requested for FHAP supports intergovernmental partnerships by funding State and local agencies to perform local fair housing enforcement.

FHIP provides funding to States and local governments, and to public and private non-profit organizations that administer programs to prevent or eliminate discriminatory housing practices through enforcement, education, and outreach. HUD's grants will support approximately 155 national and local fair housing organizations working to confront violations of the nation's landmark Fair Housing Act. These grants allow the organizations to provide fair housing enforcement through testing in the rental and sales markets, to file fair housing complaints to HUD, and to conduct investigations. Further, the education and outreach activities these organizations conduct also help to educate the public, housing providers, and local gov-

ernments about their rights and responsibilities under the Fair Housing Act.

The NFHTA provides comprehensive fair housing and civil rights training for investigators, local agencies, educators, attorneys, industry representatives, and other housing industry professionals.

LEPI provides funds for oral interpretation and written translation services, which help make fair housing programs and activities accessible to people who are not proficient in English.

The primary purpose of the Lead-Based Paint Hazard Control Grant Program is to reduce the exposure of young children to lead-based paint and other environmental hazards in their homes, including protecting them from permanent developmental problems and asthma, and exposure to pesticides and carbon monoxide.

The program plays a critical role in addressing the number one environmental disease impacting children: lead poisoning. The Budget requests \$145 million, including \$115 million for HUD's Lead Hazard Control Program; \$25 million for the Healthy Homes Program; and \$5 million for lead-based paint technical studies and support. The Budget includes an appropriations provision that would allow the transfer of unobligated balances and recaptured funds from undersubscribed competitive programs to other competitive programs experiencing oversubscription. The Budget also includes two general provisions: the first would grant the Secretary authority to carry out investigations, administer oaths, and subpoena documents related to violations of the Lead Disclosure provision of Title X; the second would increase the threshold for requiring lead abatement to reflect inflation, providing grantees more flexibility in how they address lead-based paint in a residence.

The Lead Hazard Control Grant Program provides grants of \$1 million to \$3 million to State and local governments and Indian Tribes for control of lead-based paint hazards in pre-1978 private low-income rental and owner-occupied housing. The grants are also designed to facilitate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation.

The Healthy Homes program enables the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. With funding from this program, grantees implement and evaluate methods for controlling two or more housing-related diseases through a single intervention. In addition, Healthy Homes funding is used to provide technical support and training; assist in completion of national surveys; and conduct education and outreach to help State, local and non-governmental agencies, housing industry stakeholders, and the public understand the health and housing relationship and identify and address housing-related health and safety hazards.

The Office of Lead Hazard Control and Healthy Homes will continue its lead-based paint technical studies and support activities, which include public education; support for State and local agencies, private property owners, HUD programs and field offices, and professional organizations;

technical studies to improve program policy and implementation; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations, and improved testing and hazard control methods.

The Transformation Initiative (TI) was initiated in 2010 to increase the effectiveness of HUD's program and service delivery, improve program outcomes, and enable innovative approaches to address the Nation's housing and urban development problems. A central concept of TI was to make the Department's investments increasingly coordinated, efficient, and effective though focused investments in three complementary purposes: 1) research and evaluation; 2) program demonstrations; and 3) technical assistance for HUD's customers and partners. The Budget does not request funding or transfer authority for the Transformation Initiative. Instead, funding for these activities is requested in the Research and Technology Account.

## GENERAL PROVISIONS—DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

(INCLUDING CANCELLATIONS)

SEC. 201. SECTION 8 SAVINGS.—Section 1012(b) of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 1437f note) is amended to read as follows:

"Fifty percent of the amounts of budget authority, or in lieu thereof 50 percent of the cash amounts associated with such budget authority, that are recaptured from projects described in section 1012(a) of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 1437 note) shall be cancelled or in the case of cash, shall be remitted to the Treasury, and such amounts of budget authority or cash recaptured and not cancelled or remitted to the Treasury shall be used by State housing finance agencies or local governments or local housing agencies with projects approved by the Secretary of Housing and Urban Development for which settlement occurred after January 1, 1992, in accordance with such section. Notwithstanding the previous sentence, the Secretary may award up to 15 percent of the budget authority or cash recaptured and not cancelled or remitted to the Treasury to provide project owners with incentives to refinance their project at a lower interest rate."

SEC. 202. None of the amounts made available under this Act may be used during fiscal year 2019 to investigate or prosecute under the Fair Housing Act any otherwise lawful activity engaged in by one or more persons, including the filing or maintaining of a nonfrivolous legal action, that is engaged in solely for the purpose of achieving or preventing action by a Government official or entity, or a court of competent jurisdiction.

SEC. 203. Except as explicitly provided in law, any grant, cooperative agreement or other assistance made pursuant to title II of this Act shall be made on a competitive basis and in accordance with section 102 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545).

SEC. 204. GNMA AMENDMENT.—Section 7 of the Department of Housing and Urban Development Act (42 U.S.C. 3535) is amended by adding at the end the following new subsection:

"(u) Funds of the Department of Housing and Urban Development subject to the Government Corporation Control Act or section 402 of the Housing Act of 1950 shall be available, without regard to the limitations on administrative expenses, for legal services on a contract or fee basis, and for utilizing and making payment for services and facilities of the Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Financing Bank, Federal Reserve banks or any member thereof, Federal Home Loan banks, and any insured bank within the meaning of the Federal Deposit Insurance Corporation Act, as amended (12 U.S.C. 1811–1)."

SEC. 205. Corporations and agencies of the Department of Housing and Urban Development which are subject to the Government Corporation Control Act are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of such Act as may be necessary in carrying out the programs set forth in the budget for 2019 for such corporation or agency except as hereinafter provided: Provided, That collections of these corporations and agencies may be used for new loan or mortgage purchase commitments only to the extent expressly provided for in this Act (unless such loans are in support of other forms of assistance provided for in this or prior appropriations Acts), except that this proviso shall not apply to the mortgage insurance or guaranty operations of these corporations, or where loans or mortgage purchases are necessary to protect the financial interest of the United States Government.

SEC. 206. TRANSFERS OF ASSISTANCE, DEBT, AND USE RESTRICTIONS.

(a) AUTHORITY.—Notwithstanding any other provision of law, subject to the conditions listed under this section, for fiscal years 2019 and 2020, the Secretary of Housing and Urban Development may authorize the transfer of some or all project-based assistance, debt held or insured by the Secretary and statutorily required low-income and very low-income use restrictions if any, associated with one or more multifamily housing project or projects to another multifamily housing project or projects.

(b) PHASED TRANSFERS.—Transfers of project-based assistance under this section may be done in phases to accommodate the financing and other requirements related to rehabilitating or constructing the project or projects to which the assistance is transferred, to ensure that such project or projects meet the standards under subsection (c).

(c) CONDITIONS.—The transfer authorized in subsection (a) is subject to the following conditions:

(1) NUMBER AND BEDROOM SIZE OF UNITS.—

(A) For occupied units in the transferring project: The number of low-income and very low-income units and the configuration (i.e., bedroom size) provided by the transferring project shall be no less than when transferred to the receiving project or projects and the net dollar amount of Federal assistance provided to the transferring project shall remain the same in the receiving project or projects.

(B) For unoccupied units in the transferring project: The Secretary may authorize a reduction in the number of dwelling units in the receiving project or projects to allow for a reconfiguration of bedroom sizes to meet current market demands, as determined by the Secretary and provided there is no increase in the project-based assistance budget authority.

(2) The transferring project shall, as determined by the Secretary, be either physically obsolete or economically nonviable.

(3) The receiving project or projects shall meet or exceed applicable physical standards established by the Secretary.

(4) The owner or mortgagor of the transferring project shall notify and consult with the tenants residing in the transferring project and provide a certification of approval by all appropriate local governmental officials.

(5) The tenants of the transferring project who remain eligible for assistance to be provided by the receiving project or projects shall not be required to vacate their units in the transferring project or projects until new units in the receiving project are available for occupancy.

(6) The Secretary determines that this transfer is in the best interest of the tenants.

(7) If either the transferring project or the receiving project or projects meets the condition specified in subsection (d)(2)(A), any lien on the receiving project resulting from additional financing obtained by the owner shall be subordinate to any FHA-insured mortgage lien transferred to, or placed on, such project by the Secretary, except that the Secretary may waive this requirement upon determination that such a waiver is necessary to facilitate the financing of acquisition, construction, and/or rehabilitation of the receiving project or projects.

(8) If the transferring project meets the requirements of subsection (d)(2), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) The transfer does not increase the cost (as defined in section 502 of the Congressional Budget Act of 1974, as amended) of any FHA-insured mortgage, except to the extent that appropriations are provided in advance for the amount of any such increased cost.

SEC. 208. **CAP ON NUMBER OF HECM LOANS.**—Section 255(g) of the National Housing Act (12 U.S.C. 1715z–20(g)) is amended by striking "AUTHORITY—" and all that follows through "275,000." and inserting "AMOUNT.—".

SEC. 209. Notwithstanding any other provision of law, in fiscal year 2019, in managing and disposing of any multifamily property that is owned or has a mortgage held by the Secretary of Housing and Urban Development, and during the process of foreclosure on any property with a contract for rental assistance payments under section 8 of the United States Housing Act of 1937 or other Federal programs, the Secretary shall maintain any rental assistance payments under section 8 of the United States Housing Act of 1937 and other programs that are attached to any dwelling units in the property. To the extent the Secretary determines, in consultation with the tenants and the local government, that such a multifamily property owned or held by the Secretary is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of (1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 ("MAHRAA") and (2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may, in consultation with the tenants of that property, contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance. The Secretary shall also take appropriate steps to ensure that project-based contracts remain in effect prior to foreclosure, subject to the exercise of contractual abatement remedies to assist relocation of tenants for imminent major threats to health and safety after written notice to and informed consent of the affected tenants and use of other available remedies, such as partial abatements or receivership. After disposition of any multifamily property described under this section, the contract and allowable rent levels on such properties shall be subject to the requirements under section 524 of MAHRAA.

SEC. 210. No official or employee of the Department of Housing and Urban Development shall be designated as an allotment holder unless the Office of the Chief Financial Officer has determined that such allotment holder has implemented an adequate system of funds control and has received training in funds control proced-

ures and directives. The Chief Financial Officer shall ensure that there is a trained allotment holder for each HUD appropriation under the accounts "Executive Offices" and "Administrative Support Offices," as well as each account receiving appropriations under the general heading "Program Office Salaries and Expenses", and "Government National Mortgage Association—Guarantees of Mortgage-Backed Securities Loan Guarantee Program Account" within the Department of Housing and Urban Development.

SEC. 211. The Secretary of the Department of Housing and Urban Development shall, for fiscal year 2019, notify the public through the Federal Register and other means, as determined appropriate, of the issuance of a notice of the availability of assistance or notice of funding availability (NOFA) for any program or discretionary fund administered by the Secretary that is to be competitively awarded. Notwithstanding any other provision of law, for fiscal year 2019, the Secretary may make the NOFA available only on the Internet at the appropriate Government web site or through other electronic media, as determined by the Secretary.

SEC. 212. The Secretary is authorized to transfer up to 20 percent or \$6,000,000, whichever is less, of funds appropriated for any office under the heading "Administrative Support Offices" or for any account under the general heading "Program Office Salaries and Expenses" to any other such office or account: Provided, That no appropriation for any such office or account shall be increased or decreased by more than 20 percent or \$6,000,000, whichever is less, without prior notification to the House and Senate Committees on Appropriations.

SEC. 213. (a)(1) Any entity receiving housing assistance payments shall maintain decent, safe, and sanitary conditions in good repair, as determined by the Secretary of Housing and Urban Development (in this section referred to as the "Secretary"), and comply with any standards under applicable State or local laws, rules, ordinances, or regulations relating to the physical condition of any property covered under a housing assistance payment contract.

(2) The requirements in this section shall apply to insured and noninsured projects with assistance attached to the units under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f), but do not apply to such units assisted under section 8(o)(13) (42 U.S.C. 1437f(o)(13)) of such Act or to public housing units assisted with capital or operating funds under section 9 (42 U.S.C. 1437g) of such Act.

(b) The Secretary may take action under subsection (c) when a multifamily housing project with a section 8 contract or contract for similar project-based assistance:

(1) receives a Uniform Physical Condition Standards (UPCS) score of 59 or less;

(2) fails to certify in writing to the Secretary within 3 business days that all Exigent Health and Safety deficiencies identified by the inspector at the project have been corrected; or

(3) fails to meet UPCS or local code requirements that establish standards for decent, safe, and sanitary housing.

(c) (1) If the Secretary decides to take action based on a deficiency listed in subsection (b), the Secretary must provide the owner with a Notice of Default with a specified timetable, determined by the Secretary, for correcting all deficiencies. The Secretary must also provide a copy of the Notice of Default to the local government, any mortgagees, and any contract administrator. If the owner's appeal results in a UPCS score of 60 or above, the Secretary may withdraw the Notice of Default.

(2) At the end of the time period for correcting all deficiencies specified in the Notice of Default, if the owner has failed to fully correct such deficiencies, the Secretary may—

(A) require immediate replacement of project management with a management agent approved by the Secretary;

(B) impose civil money penalties;

(C) abate or suspend payment on the section 8 contract, including partial abatement or suspension, as determined by the Secretary;

(D) pursue transfer of the project to an owner, approved by the Secretary under established procedures, which will be obligated to promptly make all required repairs and to accept renewal of the assistance contract as long as such renewal is offered;

(E) transfer the existing section 8 contract to another project or projects and owner or owners, as determined by the Secretary under established procedures, which will be obligated to promptly make all required repairs and to accept renewal of the assistance contract as long as such renewal is offered;

(F) pursue exclusionary sanctions, including suspensions or debarments from Federal programs;

(G) seek judicial appointment of a receiver to manage the property and cure all project deficiencies or seek a judicial order of specific performance requiring the owner to cure all project deficiencies;

(H) work with the owner, lender, or other related party to stabilize the property in an attempt to preserve the property through compliance, transfer of ownership, or an infusion of capital provided by a third-party that requires time to effectuate; or

(1) take any other regulatory or contractual remedies available, including abatement, suspension, or termination of the section 8 contract, as deemed necessary and appropriate by the Secretary.

(d)(1) Any Notice of Default issued pursuant to subsection (c)(1) shall include a requirement that the owner provide a copy of the Notice of Default to each tenant.

(2) The Secretary shall ensure that the owner or its agents provide tenants an opportunity to comment on the physical condition and management of the property, and any needed repairs. The Secretary may provide the substance of these communications to the project owner to assist in its corrective opportunity.

(3) If the Secretary terminates the section 8 contract pursuant to subsection (c)(2), the Secretary shall provide tenants with a copy of any notice to the owner to that effect.

(e) The Secretary shall report quarterly on all properties covered by this section that are assessed through the Real Estate Assessment Center and have UPCS physical inspection scores of less than 60 or have received an unsatisfactory management and occupancy review within the past 36 months. The report shall include—

(1) the enforcement actions being taken to address such conditions, including imposition of civil money penalties and termination of subsidies, and identify properties that have such conditions multiple times; and

(2) actions that the Secretary is taking to protect tenants of such identified properties.

SEC. 214. None of the funds made available by this Act, or any other Act, for purposes authorized under section 8 (only with respect to the tenant-based rental assistance program) and section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.), may be used by any public housing agency for any amount of salary, including bonuses, for the chief executive officer of which, or any other official or employee of which, that exceeds the annual rate of basic pay payable for a position at level IV of the Executive Schedule at any time during any public housing agency fiscal year 2019.

SEC. 215. The Secretary may elect, through notice, not to require or enforce the Physical Needs Assessment (PNA) for public housing units.

SEC. 216. None of the funds made available in this Act shall be used by the Federal Housing Administration, the Government National Mortgage Administration, or the Department of Housing and Urban Development to insure, securitize, or establish a Federal guarantee of any mortgage or mortgage backed security that refinances or otherwise replaces a mortgage that has been subject to eminent domain condemnation or seizure, by a State, municipality, or any other political subdivision of a State.

SEC. 217. Amounts made available under this Act which are either appropriated, allocated, advanced on a reimbursable basis, or transferred to the Office of Policy Development and Research in the Department of Housing and Urban Development and functions thereof, for research, evaluation, or statistical purposes, and which are unexpended at the time of completion of a contract, grant, or cooperative agreement, may be deobligated and shall immediately become available and may be reobligated in that fiscal year or the subsequent fiscal year for the research, evaluation, or statistical purposes for which the amounts are made available to that Office.

SEC. 218. Employees of the Department of Housing and Urban Development who are subject to administrative discipline in fiscal year 2019, including suspension from work, shall not receive awards (including performance, special act, or spot) for the remainder of fiscal year 2019 after the effective date of the disciplinary action.

SEC. 219. RAD AMENDMENTS.—The language under the heading "Rental Assistance Demonstration" in the Department of Housing and Urban Development Appropriations Act, 2012 (Public Law 112–55), as amended by Public Law 113–76, Public Law 113–235, and Public Law 114–113, is amended—

(1) in the matter preceding the first proviso, by inserting the following before the colon: "(herein the "First Component")";

## LAND AND MINERALS MANAGEMENT

### BUREAU OF LAND MANAGEMENT

The Bureau of Land Management (BLM) is charged with the multiple use management of natural resources on more than 250 million acres of surface estate of public land, about one-eighth of the land in the United States. The BLM also administers approximately 700 million acres of on-shore Federal mineral estate underlying the BLM and other surface ownerships. In addition, the BLM has trust responsibilities on 56 million acres of Indian trust lands for mineral operations and cadastral (land) surveys. The lands managed by the BLM provide important natural resources, recreational and scenic values to the American people, as well as resource commodities and revenue to the Federal Government, States, and counties. It is the mission of the BLM to sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations. In 2019, the BLM proposes to change its budget structure to better focus the organization on meeting its responsibilities and executing its multiple use mission under the Federal Land Policy and Management Act.

**Land resources.**—Provides for management of rangeland and forest resources; riparian areas; soil, water, and air activities; wild horses and burros; and cultural resources.

**Wildlife and fisheries management.**—Provides for the maintenance, improvement, or enhancement of fish and wildlife habitats, as part of the management of public lands and ecosystems.

**Threatened and endangered species management.**—Provides for protection, conservation, consultation, recovery, and evaluation of populations and habitats of threatened, endangered and special status animal and plant species.

MANAGEMENT OF LANDS AND RESOURCES—Continued

**Recreation management.**—Provides for management and protection of recreational resource values, designated and potential wilderness areas, and collection and expenditure of recreation user fees. The Administration proposes to permanently reauthorize the Departments of the Interior and Agriculture recreation fee program under the Federal Lands Recreation Enhancement Act, which is set to expire on September 30, 2018.

**Energy and minerals management.**—Provides for management of onshore oil and gas; coal; renewable energy resources such as wind, solar, and geothermal energy; other leasable minerals and mineral materials activities; and the administration of encumbrances on the mineral estate on Federal and Indian lands. The 2019 Budget funds oil and gas management activities through a combination of direct appropriations and permanent appropriations authorized by the National Defense Authorization Act of 2015.

**Return on mineral development on Federal lands.**—Mineral development on Federal lands contributes to the national economy. However, a long-standing challenge is to provide a fair return to taxpayers for the use of their natural resources, without discouraging development. To meet this challenge and prepare for the FY 2020 Budget, DOI is finalizing a study that evaluates the production and development of hardrock minerals from Federal lands. As part of this effort, DOI is analyzing revenue recovered by other entities, including other countries, which permit mining on their land. DOI will continue to consult with other appropriate agencies, such as the Department of Agriculture, and the findings will be consolidated with ongoing efforts to improve agency management and streamline permitting, as part of a broader package on natural resources produced from Federal lands.

**Realty and ownership management.**—Provides for management and non-reimbursable processing of authorizations and compliance for realty actions and rights-of-way (including Alaska), administration of land title records and completion of cadastral surveys on public lands. Provides for the processing of communication site use authorization requests.

**Resource protection.**—Provides for management of the land use planning and National Environmental Policy Act processes, including assessment and monitoring activities. Also ensures the health and safety of users of the public lands through remediation of abandoned mine lands and protection from criminal and other unlawful activities; the effects of hazardous material and/or waste; and physical safety hazards.

**Transportation and facilities management.**—Provides for construction and maintenance of administrative and recreation sites, roads, trails, bridges and dams, including compliance with building codes and standards and environmental protection requirements. These funds allow for the systematic management of facilities with critical health and safety concerns, and ensure the protection of natural and cultural resources and the environment. The BLM funds all construction and deferred maintenance projects from this activity, including those on the Oregon and California grant lands.

**National Conservation Lands.**—Provides for the management of National Monuments, National Conservation Areas, and other Congressional conservation designations in the National Conservation Lands. The program provides for the recurring operational (base) budgets of these units.

**Workforce and organizational support.**—Provides for the management of bureau business practices, such as human resources, Equal Employment Opportunity, financial resources, procurement, property, information technology, and fixed costs.

**Mining law administration.**—Provides for exploration and development of minerals on public lands pursuant to the General Mining Law of 1872, including validity examinations, patent application reviews, enforcement of environmental and bonding requirements, and recordation of mining claims. Program costs are expected to be fully offset by claim maintenance and other fees in 2019.

In 2019, the BLM proposes to change its budget structure to better focus the organization on meeting its responsibilities and executing its multiple use mission under the Federal Land Policy and Management Act. These proposed changes affect the Land Resources, Wildlife and Fisheries Man-

agement, Threatened and Endangered Species Management, and Resource Protection and Maintenance programs, and are explained in detail in the Department's FY19 Congressional Justification, which is available on DOI's website.

**Western Oregon resources management.**—Provides for the management of approximately 2.2 million acres of lands that are primarily forested ecosystems in western Oregon. These lands support a number of resource activities including timber management, grazing management, and recreation management. In support of these activities, the BLM is involved in improving critical watersheds, restoring wildlife and fish habitat, providing safe recreation opportunities, and preserving cultural resources.

**Western Oregon information and resource data systems.**—Provides for the acquisition, operation, and maintenance of the automated data support systems required for the management of the Oregon and California programs.

**Western Oregon transportation and facilities maintenance.**—Provides for the maintenance of office buildings, warehouse and storage structures, shops, greenhouses, recreation sites, and the transportation system necessary to assure public safety and effective management of the lands in western Oregon. The BLM funds deferred maintenance projects on Oregon and California Grant Lands from the Management of Lands and Resources appropriation.

**Western Oregon acquisition.**—Provides for the acquisition of road easements and road use agreements for timber site access and for other resource management activities, including recreation use. This activity also provides for transportation planning, survey, and design of access and other resource management roads.

**National Conservation Lands.**—Provides for the management of National Monuments, National Conservation Areas, and other Congressional conservation designations on the National Conservation Lands. The program provides for the recurring operational (base) budgets of these National Conservation Lands units.

The 2019 budget proposes to create a new budget activity to better ensure sustainable management and conservation of BLM-managed natural resources while supporting local communities. These proposed changes are explained in detail in the Department's FY19 Congressional Justification, which is available on DOI's website.

This appropriation is derived from a percentage of receipts from grazing of livestock on the public lands and from grazing and mineral leasing receipts on Bankhead-Jones Farm Tenant Act lands transferred from the Department of Agriculture by various Executive Orders. These funds are

used for the planning, construction, development, and monitoring of range improvements.

This appropriation is derived from: 1) revenues received to offset administrative and other costs incurred to process applications for rights-of-way, and the monitoring of construction, operation, and termination of rights-of-ways; 2) recovery of costs associated with the adopt-a-horse program; 3) revenues received for rehabilitation of damages to lands, resources, and facilities; 4) fees for processing specified categories of realty actions under the Federal Land Policy Management Act; 5) deposits received from contractors in lieu of completing contract requirements such as slash burning and timber extension expenses; 6) fees for costs of reproduction and administrative services involved in providing requested copies of materials; 7) fixed fees for energy and minerals lease applications, assignments, and transfers; 8) costs of processing applications and administering permits, including environmental analysis and monitoring of special recreation permits; and 9) rents received for permits to do commercial filming and photography on public lands. The BLM will continue to seek new opportunities to recover costs of services provided to benefiting public land users to reduce the need for direct appropriations from the Treasury.

**Permanent operating funds accounts include:**

*Operations and maintenance of quarters.*—Funds in this account are used to maintain and repair the BLM employee-occupied quarters from which rental charges are collected. Agencies are required to collect rental charges from employees who occupy Government-owned housing and quarters. This housing is provided only in isolated areas or where an employee is required to live on-site at a Federally owned facility or reservation.

*Forest ecosystems health and recovery.*—Funds in this account are derived from revenue generated from the Federal share of receipts from the sale of salvage timber from the Oregon and California grant lands, public domain lands, and Coos Bay Wagon Road lands. Pursuant to P.L. 102–381, as amended, this account was established to allow the BLM to

more efficiently and effectively address forest health issues. Funds can be used for other forest health purposes, including release from competing vegetation and density control treatments. This account will expire on September 30, 2020 under current law.

*Timber sale pipeline restoration fund.*—This Fund provides for the deposit and use of fees collected by the BLM for sales of timber authorized by section 2001(k) of P.L. 104–19. Of the total deposited into this account, 75 percent is to be used for the preparation of timber sales to fill the timber pipeline on lands administered by the BLM, and 25 percent is to be used to address recreation projects on the BLM lands.

*Stewardship contract product sales.*— Stewardship contracting improves, maintains, or restores forest and rangeland health; restores or maintains water quality; improves fish and wildlife habitat; reestablishes native plant species and increases their resilience to insects and disease; and reduces hazardous fuels that pose risks to communities and ecosystem values. With stewardship contracting, the BLM may apply the value of timber or other forest products removed as an offset against the cost of services received, and monies from a contract may be retained by the BLM. These monies are available for expenditure without further appropriation at project sites.

*Expenses, road maintenance deposits.*—Users of certain roads under the BLM's jurisdiction make deposits for maintenance purposes. Moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1762(c), 43 U.S.C. 1735(b)).

*Federal Lands Recreation Enhancement Act, BLM.*—The Federal Lands Recreation Enhancement Act (FLREA) was enacted on December 8, 2004, as part of the Consolidated Appropriations Act for 2005. All recreation fee receipts collected under this authority at BLM sites are deposited to the Recreation Fee account. The BLM returns 100 percent of these receipts back to the site where the fees were generated. The Administration proposes a two-year extension of FLREA in appropriations language and legislation to permanently reauthorize this authority currently set to expire on September 30, 2018.

*Operations and acquisitions in Nevada from land sale receipts.*—Pursuant to P.L. 105–263, 85 percent of receipts from sales of public domain lands in southern Nevada are used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by the National Park Service, the U.S. Fish and Wildlife Service and BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails and natural areas and implement other conservation initiatives in Clark County, Nevada; and reimburse the BLM for costs incurred arranging sales and exchanges under the Act.

*Lincoln County Land Sales Act.*—P.L. 106–298 authorizes the Secretary to dispose of certain lands in Lincoln County, Nevada, and distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the County; and 85 percent to an interest bearing account available for expenditure without further appropriation to be used by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the County, and for other specified administrative purposes.

*White Pine County Land Sales Act.*—P.L. 109–432 authorizes the Secretary to dispose of certain lands in White Pine County, Nevada, and to distribute the proceeds as follows: five percent to the State of Nevada; 10 percent to the County; and 85 percent to an account available for expenditure without further appropriation for the management of archaeological resources, wilderness protection, recreation activities, preparation of a management plan, reimbursement for sale costs, and other purposes.

*Leases from Naval Petroleum Reserve No 2.*—The 2005 Energy Policy Act established this Fund for environmental investigation and restoration on that site located in Kern County, California. A portion of revenue from new leases on the site is authorized to be deposited to this account. In 2008, it was certified that sufficient funds had been collected to cover

PERMANENT OPERATING FUNDS—Continued

the cost of the cleanup and other expenses and no more deposits were to be made to the Fund. New revenue from site operations is distributed under the Mineral Leasing Act.

**BLM Permit Processing Improvement Fund.**—The 2005 Energy Policy Act, as amended by the National Defense Authorization Act, 2015, established pilot offices to improve interagency coordination in processing onshore Federal oil and gas permits. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited in this Fund and used to facilitate the BLM oil and gas permit processing in these pilot offices. In addition, in 2016 through 2026, fees collected for processing applications for permits to drill will be deposited to this Fund.

**Federal land disposal.**—The Federal Land Transaction Facilitation Act, P.L. 106–248 (114 Stat. 613), provided authority for the BLM to sell public lands classified as suitable for disposal under resource management plans in effect at the time of enactment. This law provided that receipts from such sales could be used to acquire non-Federal lands with significant resource values that fall within the boundaries of areas now managed by the Department of the Interior. This authority expired on July 25, 2010, and was later reauthorized through July 25, 2011. All funds not obligated by both expiration dates were transferred to the Land and Water Conservation Fund. The Administration proposes legislation to reauthorize the Federal Land Transaction Facilitation Act.

**Owyhee Land Acquisition Account.**—The 2009 Omnibus Public Land Management Act, P.L. 111–11 (123 STAT. 1039), provides that the Secretary may sell public land located within the Boise District of the BLM that, as of July 25, 2000, was identified for disposal in appropriate resource management plans. Amounts in the account shall be available to the Secretary, without further appropriation, to purchase land or interests in land in, or adjacent to certain wilderness areas.

**Washington County, Utah Land Acquisition Account.**—The 2009 Omnibus Public Land Management Act, P.L. 111–11 (123 STAT. 1091), authorizes the sale of public land located within Washington County, Utah, that, as of July 25, 2000, was identified for disposal in appropriate resource management plans. Amounts in the account shall be available to the Secretary, without further appropriation, to purchase land or interests in land, in or adjacent to certain wilderness areas.

**Silver Saddle Endowment Account.**—The 2009 Omnibus Public Land Management Act, P.L. 111–11 (123 STAT. 1114), requires Carson City to deposit twenty-five percent of the difference between what the Secretary of the Interior and the City paid for the 62-acre Bernhard parcel before the Secretary conveys the land to the City. Amounts deposited in the account shall be available to the Secretary, without further appropriation, for the oversight and enforcement of a certain conservation easement.

**Carson City Special Account.**—The 2009 Omnibus Public Land Management Act, P.L. 111–11 (123 STAT. 1113), authorizes the sale of 158 acres of public land described in the statute. Five percent of the proceeds are paid to the State of Nevada for use for public education. The remainder is deposited to this account and used to acquire environmentally sensitive land or an interest in environmentally sensitive land in Carson City; to cover the cost of surveys and appraisals; and to reimburse the BLM for administrative expenses.

**Ojito Land Acquisition.**—The Ojito Wilderness Act authorized the sale of land to the Pueblo Indian Tribe and the purchase of land from willing sellers within the State of New Mexico.

**Cancel Southern Nevada Public Land Management Act Account Balances.** The budget assumes cancellation of \$230 million in unobligated balances in the SNPLMA special account, which was enacted in 1998 to authorize BLM to sell specified public lands around Las Vegas and retain the proceeds for capital improvements and various conservation, restoration, and recreational purposes.

**Reauthorize the Federal Land Transaction Facilitation Act.** The budget assumes permanent reauthorization of FLTFA's land sale authority, allowing Interior to dispose of lands with low conservation value. Interior would have authority to use the sales proceeds to fund the acquisition of land with high conservation values and cover the BLM administrative costs associated with conducting the sales, consistent with the original FLTFA mandate.

Miscellaneous permanent payments include:

*Payments for Oregon and California and Coos Bay Wagon Road grant lands, receipts.*—The Secure Rural Schools and Community Self-Determination Act of 2000, which expired at the end of September 2015, authorized revenue sharing payments to the O&C counties. In the absence of this authority, eligible counties will receive funds authorized under 1937 and 1939 statutes. Payments to the Oregon counties under the 1937 statute will be 50 percent of revenues from O&C grant lands. Payments under the 1939 statute are for lost tax revenue in two Oregon counties and are estimated to be 75 percent of all revenues from Coos Bay Wagon Road grant lands.

*Payments to States (proceeds of sales).*—States are paid five percent of the net proceeds from the sale of public land and public land products (31 U.S.C. 1305).

*Payments to States from grazing receipts, etc, public lands outside grazing districts.*—States are paid 50 percent of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

*Payments to States from grazing receipts, etc, public lands within districts.*—States are paid 12.5 percent of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

*Payments to States from grazing receipts, etc, public lands within grazing districts, miscellaneous.*—States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

*Payments to counties, National Grasslands.*—Of the revenues received from the use of Bankhead-Jones Act lands administered by the BLM, 25 percent is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

*Payments to Nevada from receipts on land sales.*—(A) P.L. 96–586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, the proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (five percent) and the county in which the land is located (10 percent). (B) P.L. 105–263, as amended by P.L. 107–282, authorizes the disposal through sale of approximately 49,000 acres in Clark County Nevada, the proceeds of which are to be distributed as follows: a) five percent for use in the general education program of the State of Nevada; b) 10 percent for use by the Southern Nevada Water Authority for water treatment and transmission facility infrastructure in Clark County, Nevada; and c) the remaining 85 percent to a special fund administered by the Secretary of the Interior to be used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by the National Park Service, Fish and Wildlife Service, and the BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails, and natural areas and implement other conservation initiatives in Clark

County, Nevada; and reimburse the BLM for costs incurred arranging sales and exchanges under the Act. (C) P.L. 106–298 authorizes the sale of certain lands in Lincoln County, Nevada. The proceeds of these sales are to be distributed as follows: a) five percent to the State of Nevada for general education purposes; b) 10 percent to Lincoln County for general purposes with emphasis on supporting schools; and c) the remaining 85 percent to a special fund administered by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the county, and for other specified administrative purposes.

*Cook Inlet Region, Incorporated Account.*—This account received funding appropriated by section 9102 of the fiscal year 1990 Department of Defense Appropriations Act for the acquisition of Federal real properties, improvements on such lands or rights to their use or exploitation, and any personal property related to the land purchased by the Cook Inlet Region, Incorporated as authorized by the provisions of section 12(b) of P.L. 94–204 (43 U.S.C. 1611). The BLM maintains an accounting of the funds used by the Cook Inlet Region, Incorporated to purchase properties.

*State 5 Percent Share, Carson City Land Sales.*—The 2009 Omnibus Public Land Management Act, Public Law 111–11 (123 STAT. 1113), requires that five percent of proceeds from the sale of 158 acres described in the statute shall be paid to the State of Nevada for general public education purposes.

The Helium Act Amendments of 1960, P.L. 86–777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities. The Helium Privatization Act of 1996 (HPA), P.L. 104–273, provided for the eventual privatization of the program and its functions, specifying that once the helium debt is retired, the Helium Production Fund would be dissolved. The debt was repaid at the beginning of fiscal year 2014. The Helium Stewardship Act of 2013 (HSA), P.L. 113–40, provided for continued operation of the Helium program while facilitating a gradual exit from the helium market. The Helium program consists of: (a) continued storage and transmission of crude helium; (b) oversight of the production of helium on Federal lands; and (c) administration of in-kind and open market crude helium gas sale programs. To minimize impacts to the helium market, the HSA provides a "glide path" from the sales mandated under HPA, increasing the sales price of helium through an auction mechanism and reducing the total volume of helium sold each year until the amount in storage reaches 3.0 billion cubic feet. At that point, the remaining helium will be reserved for Federal users. Additionally, HSA provides a hard deadline to sunset the program and sell off the program assets by 2021.

The Bureau of Ocean Energy Management (BOEM) manages the exploration and development of the nation's offshore energy and marine mineral resources on the U.S. Outer Continental Shelf (OCS). These marine resources include vast deposits of oil and natural gas, non-energy minerals, as well as renewable resources such as offshore wind, wave and ocean currents. BOEM's goal is to balance economic development, energy security, and environmental protection through responsible and transparent management of offshore resources based on the best available science. In carrying out this mission, the Bureau manages a range of OCS activities. For offshore oil and gas, this includes conducting resource assessments; planning for the timing and location of OCS areas that will be offered for leasing; conducting lease sales; permitting geological and geophysical activities; reviewing and approving exploration and development plans; ensuring lease holders have sufficient resources to fulfill lease obligations, including decommissioning facilities at the end of their productive lives; and conducting environmental reviews at multiple steps in the process. In

addition, BOEM supports planning, leasing, and permitting for OCS renewable energy development, as well as managing OCS marine mineral resources.

The Ocean Energy Management account includes the following budget activities: Renewable Energy, Conventional Energy, Environmental Programs, and Executive Direction.

**Renewable Energy.**—Oversees renewable energy program development and implementation, including: identification of wind energy areas; environmental and compliance work; competitive and noncompetitive leasing actions; review of site assessment, construction, and operation plans; and consultation with state and local governments, Federal agencies, and other stakeholders.

**Conventional Energy.**—Supports OCS oil and gas leasing, including development of the National OCS Oil and Gas Leasing Program; implementing the lease sale process; administering leases; protecting the Federal government from financial risks related to natural resource development; reviewing exploration and development plans and geological and geophysical permit applications; developing and maintaining the OCS cadastre; conducting technical and economic resource evaluation and fair market determination; and engaging in planning activities involving minerals other than oil and gas, including a role in providing coastal resource protection and sustainable management through the conveyance of sand and gravel resources.

**Environmental Programs.**—Develops the environmental impact statements and environmental assessments needed to consider the potential environmental impacts of proposed actions in accordance with the National Environmental Protection Act, the OCS Lands Act, and numerous other environmental statutes, regulations, and executive orders. Also conducts specific studies that address information needs associated with both conventional and renewable energy leasing activities on the Outer Continental Shelf.

**Executive Direction.**—Funds bureau-wide leadership, direction, management, coordination, communication strategies, and outreach. This includes budget management, administrative services management, bureau-wide information technology management and governance, congressional and public affairs, program policy and analysis, international affairs, and Freedom of Information Act requests.

The Bureau of Safety and Environmental Enforcement (BSEE) was established on October 1, 2011, to ensure the safe and environmentally responsible exploration, development, and production of the Nation's offshore energy resources. The Bureau is responsible for the oversight of exploration, development, and production operations for oil and natural gas on the U.S. Outer Continental Shelf (OCS). In working toward the President's and Interior Secretary's goal of energy dominance, BSEE is steadfast in its commitment to an effective and efficient approach that promotes robust OCS production developed safely and in an environmentally sustainable manner. The Offshore Safety and Environmental Enforcement (OSEE) account is BSEE's primary operating account and funds the following activities: Operations, Safety, and Regulation; Environmental Enforcement; Administrative Operations; and Executive Direction.

**Operations, Safety, and Regulation.** Funds OCS permit application reviews; inspections of OCS facilities, including critical high-risk activities; offshore operator oil spill planning and preparedness compliance; investigations; enforcement; audit programs; annual operator performance reviews; verification of oil and gas production levels to help ensure the public receives a fair return from the sale of these public resources; research supporting the analysis of emerging technologies, standards and regulatory review activities; and technical training.

**Environmental Enforcement.** Funds compliance staff supporting permit reviewers by evaluating and identifying environmental mitigation provisions that can be incorporated into permits; specialized inspections of air, water, and mitigation measures; and staff with subject matter expertise to assist safety inspectors in identifying environmental violations.

**Administrative Operations.** Funds general administration and ethics programs, equal employment opportunity services, emergency management, finance, human resources, procurement, and information management. This activity also provides a full range of administrative and information management services to the Bureau of Ocean Energy Management (BOEM), and other entities within the Department on a reimbursable basis.

**Executive Direction.** Funds bureau-wide leadership, direction, management, coordination, communications strategies, and outreach. This includes

functions such as budget, congressional and public affairs, and policy analysis.

*Environmental protection.*—This activity funds functions that directly contribute to ensuring the environment is protected during surface coal mining operations. It also addresses activities to ensure coal operators adequately reclaim the land after mining is completed.

Under this activity, the Office of Surface Mining Reclamation and Enforcement provides grants and support to States to operate enforcement programs on State and private lands under the terms of the Surface Mining Control and Reclamation Act of 1977. This activity also provides for the operation of enforcement programs on Federal and Indian lands, as well as Federal oversight of these regulatory programs.

*Technology development and transfer.*—This activity provides funding to enhance the technical skills that States and Indian Tribes need to operate their regulatory programs. It provides technical tools, such as Electronic Permitting, to States and Indian Tribes to solve problems related to the environmental effects of coal mining and technical assistance to address specific coal mining issues.

*Financial management.*—This activity provides resources for managing, accounting, processing collections, and pursuing delinquent civil penalties. This includes developing and maintaining information management systems that support these functions and enhance the agency's ability to deny new mining permits to applicants with unabated State or Federal violations.

*Executive direction and administration.*—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services, such as rent, telephones, and postage.

**Environmental restoration.**—This activity funds those functions that contribute to reclaiming lands affected by past coal mining practices. This activity provides discretionary funding for the Federal reclamation program for watershed restoration projects and for the evaluation of State and tribal reclamation programs that now receive mandatory funding for reclamation activities. This activity also provides for the operation of Federal reclamation programs for activities in those states without their own reclamation programs.

**Technology development and transfer.**—This activity provides funding to enhance the technical skills States and Indian Tribes need to operate their reclamation programs. The Office of Surface Mining Reclamation and Enforcement (OSMRE) provides technical assistance on mining and reclamation-related problems.

**Financial management.**—This activity provides funds to identify, notify, collect, and audit fees from coal operators for the Abandoned Mine Reclamation Fund. The OSMRE seeks to maximize voluntary compliance with the Surface Mining Control and Reclamation Act's reclamation fee provisions.

**Executive direction and administration.**— This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services such as rent, telephones, and postage.

P.L. 109-432 authorizes mandatory Treasury payments to three United Mine Workers of America retiree health benefit plans (the Combined Benefit Fund, the 1992 Plan, and the 1993 Plan), to the extent that other Federal funding sources do not meet the plans' expenditure needs, subject to certain limitations. Interest earned on Abandoned Mine Land trust fund balances is available for transfer to cover funding shortfalls in the plans; unobligated balances in the Fund are used to generate interest for this purpose.

WATER AND SCIENCE

BUREAU OF RECLAMATION

Appropriations to Reclamation are made from the general fund and from certain special funds. Projects funded from the General Fund include the

Colorado River Basin Project and the Colorado River Storage Project, among others. Special funds include the Reclamation Fund, the Central Valley Project Restoration Fund, the Colorado River Dam Fund, and the Recreation, Entrance, and User Fee account. Non-Federal entities also advance funds for operation and maintenance and provide funds under the Contributed Funds Act.

Of the Bureau's special funds, the Reclamation Fund consists of repayments and other revenues from water and power users, receipts from the sale, lease, and rental of Federal lands, and certain oil and mineral revenues. It can finance program activities authorized under "Reclamation Law" that directly benefit the 17 Western States. The Central Valley Project Restoration Fund consists of revenues from project beneficiaries. The Colorado River Dam Fund generates revenue from the sale of Boulder Canyon power.

This account receives funding (user fees and repayment receipts) from the Friant Division long-term water contractors and other Federal and non-Federal sources to implement the provisions described in the Settlement (Settlement) for the National Resources Defense Council et. al. v. Rodgers lawsuit. The Settlement's two primary goals are: 1) to restore and maintain fish populations in "good condition" in the main stem of the San Joaquin River below Friant Dam to the confluence of the Merced River, including naturally reproducing and self-sustaining populations of salmon and other fish; and 2) to reduce or avoid adverse water supply impacts to all of the Friant Division long-term contractors that may result from the Interim Flows and Restoration Flows provided for in the Settlement.

The Utah Reclamation Mitigation and Conservation account was established under Title IV of Public Law 102-575 to reflect contributions from the State of Utah, the Federal Government (through the Secretary of the Interior and the Western Area Power Administration), and project benefi-

ciaries (the Conservancy District). The requirement for contributions from the State, the Secretary, and the Conservancy District ended in 2001. The requirement for contributions from the Western Area Power Administration ended in 2013. Funds are deposited into the account as principal and may not be expended for any purpose. Interest earned annually on the account is available for expenditure, without further appropriations, by the Utah Reclamation Mitigation and Conservation Commission which has the option to use the funds for the mitigation, conservation, and enhancement of fish and wildlife and recreational resources, or to reinvest the funds into the account as principal.

The U.S. Geological Survey (USGS) provides research and scientific information to support the mission of the Department of the Interior and its science requirements. The USGS also works in collaboration with other Federal, State, and tribal cooperators to conduct research and provide scientific data and information concerning natural hazards and natural resource issues, including the water, land, geologic, and biological resources of the

Nation. The USGS budget continues science programs that generate relevant, objective information for natural resource managers and for communities throughout the Nation and engages in partnerships with universities, research institutions, and major public and private laboratories.

*Ecosystems.*—The USGS Ecosystems mission area monitors and inventories biological resources and ecological systems; provides scientific information for the management of biological resources and their habitats; studies and predicts the consequences of environmental change and the effects of alternative management actions on plants, animals, and their habitats; and conducts high priority ecological and biological research needed by Interior for sound management decisions.

*Land Resources.*—The USGS Land Resources Mission Area delivers scientific data, techniques, analyses, and tools that advance the Nation's understanding of landscapes and the forces that shape them. The mission area operates through partnerships with governmental and non-governmental entities to provide for the research, monitoring, and remote sensing capabilities, including Landsat satellites and data systems, necessary to understand, monitor and detect changes that affect the Nation's natural and agricultural resources, economy, public safety and national security, and historical heritage. The resulting data and products provide an objective scientific foundation for the American public, natural resource managers, and policymakers to make informed decisions about the management of and investments in natural and built landscapes.

*Energy and Mineral Resources.*—The USGS Energy and Mineral Resources mission area conducts research on the location, quantity, and quality of the Nation's and the world's energy and mineral resources. The mission area provides valuable science to better understand the Nation's mineral and energy resource potential, supply, production, consumption and impacts of development. Accurate scientific information about America's energy and mineral resources is critical, as our Nation depends on energy to power our homes and businesses and minerals to manufacture products we rely on every day, from our cell phones and laptops to the cars we drive. The science provided by the mission area is also used to understand international trade issues, and on a more local scale, to understand the mineral and energy resources available in various parts of our Nation.

*Natural Hazards.*—The USGS plays a critical role in providing policymakers and the public with a clear understanding of potential threats from natural hazards, societal vulnerability to these threats, and strategies for achieving resilience to earthquakes, volcanic eruptions, landslides, floods, hurricanes, tsunamis, and wildfires. The USGS Natural Hazards mission area is working with its partners and stakeholders to define and mitigate risks, build understanding of natural hazard processes, and characterize the potential impact and consequences on human activity, health, the economy, and the environment. This mission area includes USGS activities that characterize and assess coastal and marine processes, conditions, change and vulnerability.

*Water Resources.*—The USGS is the primary Federal science agency providing information about water resources. To fulfill this responsibility, the USGS Water Resources mission area monitors and assesses the amount and characteristics of the Nation's water resources, assesses sources and behavior of contaminants in the water environment, and develops tools to improve management and understanding of water resources. This work supports Federal, State, tribal, and local government decisions in managing water resources for domestic, agricultural, commercial, industrial, recreational, and ecological uses; protecting and enhancing water resources for human health, aquatic health, and environmental quality; minimizing loss of life and property as a result of water-related natural hazards, such as floods, droughts, and land movement; and contributing to sustainable stewardship and development of the Nation's resources for the benefit of present and future generations.

*Core Science Systems.*—The USGS Core Science Systems mission area leads the bureau's mission as the civilian mapping agency for the Nation—a 138-year legacy since its establishment in 1879. The USGS conducts detailed surveys and distributes the resulting high-quality and highly-accurate

## SURVEYS, INVESTIGATIONS, AND RESEARCH—Continued

topographic, geologic, hydrographic, and biogeographic maps and data to the public. Mapping accuracy enabled by cutting-edge technologies allows for precise planning for critical mineral assessments; energy development; transportation and pipeline infrastructure projects; urban planning and development; flood prediction at regional, local, and neighborhood scales; emergency response; and hazards mitigation. The USGS Core Science Systems Mission Area is the Federal steward of this high-quality geospatial data, and provides access to the public through The National Map, the National Geologic Map Database, and the National Biogeographic Map.

**Science Support.**—The USGS Science Support program funds essential science leadership as well as critical functions such as: scientific integrity processes; sharing and communicating science findings; purchasing science equipment and field supplies; executing science agreements with partners; contracting for support scientists and researchers; safety training; hazardous waste management; succession planning and execution; and information technology, which supports the scientific process and information management of scientific data. Science Support also provides Bureau-wide executive direction and coordination, business administration and financial management.

**Facilities.**—The USGS Facilities program provides safe, functional workspace, laboratories, and facilities for the USGS to accomplish its scientific mission. The mission area provides rental payments and operation and maintenance for properties and deferred maintenance and capital improvement for owned assets.

**Reimbursable program.**—This program includes reimbursements from non-Federal sources (States, Tribes, and municipalities) for: cooperative efforts; proceeds from the sale of copies of photographs and records and the sale of personal property; reimbursements from permittees and licensees of the Federal Energy Regulatory Commission; and reimbursements from foreign countries and international organizations for technical assistance. The USGS also receives reimbursements from other Federal agencies for mission-related work performed at the request of the financing agency.

**Ecological Services.**—The Service conserves, protects, and enhances fish, wildlife, plants, and their habitat by working with private landowners, States, Tribes, non-governmental organizations, and other Federal agencies. These partnership activities help protect and recover species listed under the Endangered Species Act and work toward making the listing of additional species unnecessary. Financial assistance is provided to private landowners to restore or improve habitat for endangered species and other at-risk species. Technical assistance helps prevent or minimize potential conflicts between development projects and imperiled species.

**Habitat Conservation.**—Through technical and financial assistance, the Service promotes the protection, conservation, and restoration of the Nation's fish and wildlife resources. These conservation activities are accom-

plished through a voluntary citizen and community based stewardship program with partners on private lands. Conserving the nation's coastal trust resources is accomplished through collaboration with others on public and private lands.

**National Wildlife Refuge System.**—The Service maintains the National Wildlife Refuge System consisting of 566 refuges, waterfowl production areas in 210 counties managed by 38 wetland management districts, 50 wildlife coordination areas, and seven national monuments. The National Wildlife Refuge System administers this network of land and waters to conserve and restore fish, wildlife, plants, and their habitats, for the benefit of present and future generations of Americans.

**Conservation and Enforcement.**—The Service directs and coordinates national migratory bird programs to protect and enhance populations and habitat of more than 1,000 species of birds. Grants and partnerships are key to these programs, such as Joint Ventures that implement the North American Waterfowl Management Plan. The Service Law Enforcement program investigates wildlife crimes, regulates wildlife trade, helps Americans understand and obey wildlife protection laws, and works in partnership with international, State, and Tribal counterparts to conserve wildlife resources. The Service, through the International Affairs Program, works with domestic and international partners to promote a coordinated strategy to protect, restore, and enhance the world's diverse wildlife and their habitats, with a focus on species of international concern.

**Fish and Aquatic Conservation.**—The Fish and Aquatic Conservation Program consists of a network of 72 National Fish Hatcheries, one historic National Fish Hatchery, nine Fish Health Centers, seven Fish Technology Centers, 65 Fish and Wildlife Conservation Offices, and the Aquatic Animal Drug Approval Partnership Program. Working with partners, the program recovers, restores and maintains fish and other aquatic resources at self-sustaining levels; provides technical assistance to States, Tribes and others; and supports Federal mitigation programs for the benefit of the American public.

**Cooperative Landscape Conservation.**—Through a national network of Landscape Conservation Cooperatives (LCCs), and in cooperation with both Federal and non-Federal partners, the Service enhances its core capacity to address adaptive management problems affecting fish, wildlife, and plants. The budget does not include funding for this activity in FY 2019.

**Science Support.**—Science Support provides funding for applied science directed at high impact questions of concern to management of fish and wildlife resources. This science provides needed information to inform resource management decisions to best manage species at healthy and sustainable levels. The budget does not include funding for this activity in FY 2019.

**General Operations.**—Funding for the Service's general operations provides policy guidance, program coordination, and administrative services to all of the Fish and Wildlife Service's programs. The funds also support the National Conservation Training Center and projects through the National Fish and Wildlife Foundation to restore and enhance fish and wildlife populations.

The State and Tribal Wildlife Grants program provides funds to States, Commonwealths, the District of Columbia, and Territories primarily through a formula-based apportionment. Additionally, a competitive program uses a merit-based process to fund outcome-oriented, results-based projects. At the discretion of affected States, the competitive program may be used by regional associations of State fish and wildlife agencies. Tribes can also receive funds through a national competitive award process. These funds are provided to stabilize, restore, enhance, and protect species and their habitat that are of conservation concern. Funding for State and Tribal competitive grants is not included in the 2019 request.

Federal Land Acquisition funds are used to protect areas that have native fish or wildlife values and provide natural resource benefits over a broad geographical area. Funds in this account also cover acquisition management activities, such as title fees and land surveys. The U.S. Fish and Wildlife Service places emphasis on acquiring important fish, wildlife, and plant habitat for the conservation of listed endangered and threatened species, implementing the North American Waterfowl Management Plan, and conserving migratory birds of conservation concern. The Federal Land Acquisition program uses alternative and innovative conservation tools, including conservation easements, and implements projects that have the input and participation of the affected local communities and stakeholders. To focus resources on caring for current DOI lands, the FY 2019 Budget does not include funding for new land acquisition projects and proposes a partial cancellation of prior year balances.

The Landowner Incentive Program provided cost-shared, competitive grants to States, Commonwealths, the District of Columbia, Territories, and Tribes to create, supplement or expand upon new or ongoing landowner incentive programs. These programs provided technical and financial assistance to private landowners to help them protect and manage imperiled species and their habitat, while continuing to engage in traditional land use or working conservation practices. The program was phased out in 2008 and minimal balances remain in this account.

Funds deposited into this account include import duties on arms and ammunition and receipts in excess of U.S. Postal Service expenses from the sale of Migratory Bird Hunting and Conservation Stamps, also known as Duck Stamps. These funds are used to acquire land and water for migratory bird refuges and waterfowl production areas. In addition, any funds reverted from the States within the Federal Aid in Wildlife Restoration Fund are available for this purpose. The Federal Duck Stamp Act (P.L. 113–264) increased the price of Duck Stamps from \$15 to \$25, with the \$10 increase to be dedicated to the acquisition of conservation easements for conservation of migratory birds.

Funds deposited into this account include direct appropriations and fines, penalties, and forfeitures collected under the authority of the Migratory Bird Treaty Act (16 U.S.C. 707). The North American Wetlands Conservation Fund supports wetlands conservation projects approved by the Migratory Bird Conservation Commission. Interest on obligations held in the Federal Aid in Wildlife Restoration Fund is also available for this purpose. In addition, a portion of receipts to the Sport Fish Restoration Account is also available for coastal wetlands conservation projects.

These projects help fulfill the habitat protection, restoration, and enhancement goals of the North American Waterfowl Management Plan and the Tripartite Agreement among Mexico, Canada, and the United States. These projects may involve partnerships with public agencies and private entities, with non-federal matching contributions, for the long-term conservation of habitat for migratory birds and other fish and wildlife, including species that are listed, or are candidates to be listed, under the Endangered Species Act (16 U.S.C. 1531).

Wetlands conservation projects include obtaining a real property interest in lands or waters, including water rights; the restoration, management or enhancement of habitat; and training and development for conservation management in Mexico. Funding may be provided for assistance for wetlands conservation projects in Canada or Mexico.

The Cooperative Endangered Species Conservation Fund provides grants to States and U.S. territories for species and habitat conservation actions on non-federal lands, including habitat acquisition, conservation planning, habitat restoration, status surveys, captive propagation and reintroduction, research, and education for species that are listed or are candidates for listing, as threatened or endangered. These activities support recovery efforts and Habitat Conservation Plans in partnership with local governments and other interested parties to protect species. Appropriations to this account have been financed by both the Land and Water Conservation Fund and the Cooperative Endangered Species Conservation Fund. The latter is an unavailable receipt account that receives a transfer from the General Fund of the U.S. Treasury equal to five percent of receipts deposited to the Federal Aid in Wildlife and Sport Fish Restoration accounts plus Lacey Act receipts over \$500,000. Funds made available for grants from the two accounts are subject to annual appropriations authorized by Congress. Funding for this program is not proposed in the 2019 request.

The Refuge Revenue Sharing Act (16 U.S.C. 715s) authorizes the Service to make payments to counties in which Fish and Wildlife Service fee lands are located, from the revenues resulting from the sale of products from Service lands, less expenses for producing the revenue and activities related to revenue sharing. The 2019 budget does not propose to supplement revenues with discretionary funding.

The Federal Lands Recreation Enhancement Act (FLREA) was passed on December 8, 2004, as part of the Omnibus Appropriations bill for 2005. Approximately 164 Fish and Wildlife Service sites collect entrance fees and other receipts. All receipts are deposited into a recreation fee account of which at least 80 percent is returned to the collecting site.

The recreation fee program demonstrates the feasibility of user generated cost recovery for the operation and maintenance of recreation areas, visitor services improvements, and habitat enhancement projects on Federal lands. Fees are used primarily at the site to improve visitor access, enhance public safety and security, address maintenance needs, enhance resource protection, and cover the costs of collection. Recreation fees are often used at Service sites to fund student interns and for various youth programs focusing on hunting, fishing, wildlife observation, wildlife photography, environmental education, and environmental interpretation. The FY 2019 Budget proposes a two-year extension of FLREA as appropriations language and legislation

RECREATION ENHANCEMENT FEE PROGRAM, FWS—Continued  
to permanently authorize the recreational fee programs of the Departments of the Interior and Agriculture under FLREA.

The Federal Aid in Wildlife Restoration Act (16 U.S.C. 669 et seq.), also known as the Pittman-Robertson Wildlife Restoration Act, created a program to fund the selection, restoration, rehabilitation and improvement of wildlife habitat, hunter education and safety, and wildlife management research. Under the program, States, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Northern Mariana Islands are allocated funds from an excise tax on sporting arms and ammunition, handguns, and a tax on certain archery equipment. States are reimbursed up to 75 percent of the cost of approved wildlife and hunter education projects.

The Wildlife and Sport Fish Restoration Programs Improvement Act (P.L. 106-408) amends the Pittman-Robertson Wildlife Restoration Act and authorizes a Multistate Conservation Grant Program, as well as the Firearm and Bow Hunter Education and Safety Program that provides grants to the States.

The Energy Policy Act (P.L. 109–58) amends section 31 of the Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1356 et seq.) to require that for each of the fiscal years 2007 through 2010, \$250,000,000 in OCS revenues be distributed each year to coastal States that have submitted approved coastal impact assistance plans. The formula for distribution is based on the amount of qualified OCS revenues generated off the coastline of each producing State. In addition, 35 percent of each State's allocable share is to be distributed to coastal political subdivisions based on population, coastline, and distance to applicable OCS leases. In FY 2011, administration of this program was transferred from the Bureau of Ocean Energy Management, Regulation, and Enforcement to the Fish and Wildlife Service.

The Federal Aid in Sport Fish Restoration Act, also known as the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.), created a fishery resources, conservation, and restoration program funded by excise

taxes on fishing equipment and certain other sport fish related products and fuel.

The Wildlife and Sport Fish Restoration Programs Improvement Act (P.L. 106–408) amends the Dingell-Johnson Sport Fish Restoration Act and authorizes a Multistate Conservation Grant Program. It also provides funding for several fisheries commissions and the Sport Fishing and Boating Partnership Council.

The Sport Fish Restoration Act specifies that the net deposits made into the Sport Fish Restoration and Boating Safety Trust Fund, minus the distributions for administrative expenses for the Fish and Wildlife Service and the United States Coast Guard, special commissions, and the Boating Council, be distributed to support the following:

*The Coastal Wetlands Planning, Protection, and Restoration Act (16 U.S.C. 3951 et seq.)*.—18.673 percent of net deposits, or amounts collected in small engine fuels excise taxes as provided by 26 U.S.C. 9504(b), whichever is greater, are to be made available and distributed as follows: 70 percent to the U.S. Army Corps of Engineers for priority project and conservation planning activities in Louisiana; 15 percent to the Fish and Wildlife Service for coastal wetlands conservation grants; and 15 percent to the Fish and Wildlife Service for wetlands conservation projects per the North American Wetlands Conservation Act (16 U.S.C. 4407).

*Boating Safety Programs*.—17.315 percent of net deposits are to be made available to the United States Coast Guard for State recreational boating safety programs.

*Boating Infrastructure Improvement*.—4 percent of net deposits are to be made available to the Secretary of the Interior to make grants to 1) States, as determined through a competitive award process, for the development and maintenance of facilities for transient non-trailerable recreational vessels 26 feet or longer or 2) States, Commonwealths, the District of Columbia and Territories, as determined through a competitive award process, to carry out projects for the construction, renovation, operation, and maintenance of pumpout stations and waste reception facilities, as well as for educational programs on proper disposal of sewage. Not more than 75 percent of the 4 percent shall be available for grants under either of the award processes referenced in this paragraph.

*National Outreach and Communications Programs*.—2 percent of net deposits are to be made available to the Secretary of the Interior to develop national and State outreach plans to promote safe fishing and boating opportunities and the conservation of aquatic resources.

*Grants to States*.—58.012 percent of net deposits are provided to the States, Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and the District of Columbia for up to 75 percent of the cost of approved projects including: research into fisheries problems, surveys and inventories of fish populations, acquisition and improvement of fish habitat, and provision of access for public use and \$3 million is reserved for Multistate Conservation Activities.

The National Park Service administers 417 units and over 85 million acres of land in 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, Samoa, and the Northern Marianas. This annual appropriation funds the operation of areas and facilities administered under the National Park System through two budget activities. Funds within this appropriation are available for one year, with the exception of repair and rehabilitation funds and funds for the cooperative restoration of the Everglades, which are available for two years. The FY 2019 Budget proposes that cyclic maintenance funds also be made available for two years. In addition, this account contains reimbursable activity such as recovery of costs associated with special use permits.

The first activity, Park Management, covers the management and operation of park areas, and is divided into five subactivities that represent functional areas:

*Resource stewardship.*—Encompasses resource management operations that provide for the protection and preservation of unique natural, cultural, and historical features of units of the National Park System.

*Visitor services.*—Includes operations that provide orientation, educational, and interpretive programs to enhance the visitor's park experience. It also provides for the efficient management of commercial services for the benefit of visitors and the protection of resources.

*Park protection.*—Provides for the protection of park resources, visitors, and staff. Funding supports law enforcement operations, including the United States Park Police, that reduce vandalism and other destruction of park resources, safety, and public health operations.

*Facility operations and maintenance.*—Encompasses the maintenance and protection of buildings, other facilities, lands, and other government investments.

*Park support.*—Covers the management, supervision, and administrative operations for park areas and partnerships.

The second activity, External Administrative Costs, funds costs which are largely determined by organizations outside the National Park Service and for which funding requirements are less flexible. The requirements for these costs are mandated in accordance with applicable laws. To promote the efficient performance of the National Park Service, these costs are most effectively managed on a centralized basis.

Centennial Challenge funds are used to complete projects with partner donations. All Federal funds must be matched on a 50/50 basis, derived from non-Federal sources in the form of cash, assets, or a pledge of donation guaranteed by an irrevocable letter of credit. Projects are administered under existing NPS partnership authorities. No funding is requested for this program in FY 2019. The National Park Service Centennial Act (P.L. 114-289) established a National Park Centennial Challenge Fund for signature projects and programs related to visitor services facilities and trail maintenance, funded through offsetting collections exceeding \$10 million from America the Beautiful Senior Pass.

The National Recreation and Preservation appropriation covers a broad range of activities relating to outdoor recreation planning, preservation of natural, cultural and historic resources, and environmental compliance. These programs provide a central point at the Federal level for recreation and preservation planning; the coordination of Federal and State policies, procedures and guidelines; and the administration of technical and financial assistance to international, Federal, State, and local governments and private organizations. This appropriation is comprised of the following seven budget activities:

**Recreation Programs.**—Provides technical assistance to State and local governments and transfers surplus Federal real property to local governments for recreation uses. The FY 2019 Budget proposes to transfer Recreation Programs from its own activity to the Natural Programs activity as a separate program component.

**Natural Programs.**—Increases river and trail opportunities through Rivers, Trails, and Conservation Assistance, State and local technical assistance and Chesapeake Bay Gateways and Water Trails grants; creates river conservation and recreational opportunities that are compatible with continuing and future operations of hydropower facilities, fulfills National Park Service responsibilities under the Federal Power Act, and protects park resources through the Hydropower Recreation Assistance Program; and manages the

National Natural Landmark program. The FY 2019 Budget does not request funding for Chesapeake Bay Gateways and Water Trails grants. The Federal Lands to Parks program is proposed for transfer to this activity from Recreation Programs in the FY 2019 Budget.

**Cultural Programs.**—Manages the National Register of Historic Places; reviews and certifies applications for Federal Tax Credits for Historic Preservation as a reimbursable activity; conducts cultural resources management planning through the National Historic Landmarks program, the Historic American Buildings Survey, the Historic American Engineering Record and the Historic American Landscapes Survey programs; and advances the application of science and technology in historic preservation and provides information distribution and skills training in the preservation and conservation of the Nation's significant historic and cultural resources through the National Center for Preservation Technology and Training. This program activity also supports the American Battlefield Protection Program Assistance Grants program, the Japanese American Confinement Site Grants program, and the Native American Graves Protection and Repatriation Grants program. The FY 2019 Budget does not request funding for these grants. Grant administration is proposed for transfer to this activity in the FY 2019 Budget.

**Environmental Compliance and Review.**—Provides review and commentary on environmental impact statements, Federal licensing, permit applications, and other actions that may impact areas of National Park Service jurisdiction.

**Grants Administration.**—Provides administrative expenses associated with the Historic Preservation Fund grant programs, the Native American Graves Protection and Repatriation Grants program, the Japanese American Confinement Sites Grants, and the American Battlefield Protection Program Assistance Grants. The FY 2019 Budget proposes to transfer Grants Administration from its own activity to the Cultural Programs activity as a separate program component.

**International Park Affairs.**—Coordinates international assistance programs and the exchange and support functions that complement the Service's domestic role.

**Heritage Partnership Programs.**—Provides financial and technical assistance to Congressionally designated national heritage areas, managed by private or State organizations to promote the conservation of natural, historic, scenic, and cultural resources. The FY 2019 Budget does not request funding for financial assistance for this program.

Last funded in FY 2004, minimal balances remain.

The Construction appropriation provides support to several National Park Service mission goals, including preserving park resources, providing for visitor enjoyment, and improving organizational effectiveness. In addition, this account contains activity related to reimbursable agreements.

The Construction appropriation is composed of five budget activities:

**Line item construction.**—This activity provides for the construction, rehabilitation, and replacement of facilities needed to accomplish the management objectives approved for each park.

**Special programs.**—This activity includes Emergency and Unscheduled Projects, Employee Housing, Dam Safety, and Equipment Replacement.

**Construction planning.**—This activity includes the project planning function to prepare working drawings, specification documents, and contracts needed to construct or rehabilitate National Park Service facilities.

**Construction program management and operations.**—This activity provides centralized design and engineering management services, as well as contracting services for park construction projects.

**Management planning.**—Under this activity, funding is used to prepare and update Unit Management Plans. The plans guide National Park Service actions for the protection, use, development, and management of each park unit. Funding also is used to conduct studies of alternatives for the protection of areas that may have potential for addition to the National Park System and for environmental impact planning and compliance.

The appropriation is composed of the following budget activities:

**Acquisition Management.**—Provides for the administration of land acquisitions throughout the National Park System, ensuring compliance with existing guidelines and laws and provides for the administration of American Battlefield Protection Program Acquisition Grants.

**Federal land acquisition.**—Provides for the acquisition of land and interests in land to preserve and protect, for public use and enjoyment, the historic, scenic, natural, and recreational values of congressionally authorized areas within the National Park System. Funds are also used for matching grants for the purchase of Revolutionary War, the War of 1812, and Civil War Battlefield lands by non-Federal entities. To focus resources on current DOI lands, the FY 2019 Budget does not request funding for land acquisition projects and proposes a partial cancellation of prior year balances.

**State conservation grants administration.**—Provides for the administration of matching grants to States and through States to local governments, for the acquisition and development of public outdoor recreation areas and facilities. Appropriated funding for this program is not requested for FY 2019 in anticipation of estimated increases in GOMESA lease revenue.

**State conservation grants.**—Provides matching grants to States and local units of government for the acquisition and development of land and facilities that provide the public access to new opportunities to engage in outdoor recreation. The program includes both traditional formula and competitive grant programs for States. Appropriated funding for this program is not requested for FY 2019 in anticipation of estimated increases in GOMESA lease revenue.

**Outer Continental Shelf Oil Lease Revenues.**—The Gulf of Mexico Energy Security Act of 2006 (P.L. 109–432) allows a portion of the revenue

collected from certain oil and gas leases in the Gulf of Mexico Outer Continental Shelf (OCS) to be deposited to the Land and Water Conservation Fund and distributed to States in accordance with the Land and Water Conservation Act of 1965. The National Park Service portion of the revenue is 12.5 percent of total qualified OCS revenues. These new OCS receipts became available for expenditure as mandatory funding beginning in 2009. The Consolidated Appropriations Act, 2016 (P.L. 114–113) permits the use of up to three percent of the amounts authorized to be disbursed for costs of administration.

**Recreation Fee Program.**—The National Park Service and other land management agencies operate a fee program that allows parks and other units to collect admission and user fees in accordance with the Federal Lands Recreation Enhancement Act (FLREA). FLREA was passed on December 8, 2004, as part of the Omnibus Appropriations Act, 2005, which authorized this program through 2014. Section 131 of the Continuing Appropriations Act, 2018 and Supplemental Appropriations for Disaster Relief Requirements Act, 2017 (P.L. 115–56) extended FLREA through FY 2019. In the FY 2019 Budget, the Administration proposes appropriations language to extend the authorization for two years and a legislative proposal to permanently reauthorize the Department of the Interior's and the Department of Agriculture's recreation fee programs.

Net proceeds are used for high-priority visitor service and facility maintenance projects throughout the National Park System. Up to 80 percent may be retained for use by the collecting park and the remainder retained for discretionary, Service-wide use by the National Park Service Director. Proceeds from the sale of the America the Beautiful passes, which allow access to all public lands that charge fees for a year, are distributed among the Federal land management agencies which offer them for sale, including the National Park Service, the Bureau of Land Management, the U.S. Fish and Wildlife Service, the Bureau of Reclamation and the U.S. Forest Service, as determined by the Secretaries of the Department of the Interior and the Department of Agriculture in accordance with P.L. 108–447. The National Park Service Centennial Act (P.L. 114–289) established in the National Park Foundation, a Second Century Endowment for NPS projects and activities, funded through offsetting collections from the first \$10 million collected in each fiscal year, generated from the America the Beautiful Senior Pass.

**Deed-restricted parks fee program.**—Park units where admission fees may not be collected by reason of deed restrictions retain any other recreation fees collected and use them for certain park operation purposes in accordance with P.L. 105–327. This law applies to Great Smoky Mountains National Park, Lincoln Home National Historic Site, and Abraham Lincoln Birthplace National Historic Site.

**Transportation systems fund.**—Fees charged for public use of transportation services at parks are retained and used by each collecting park for

costs associated with the transportation systems in accordance with section 501 of P.L. 105–391.

*Payment for tax losses on land acquired for Grand Teton National Park.*—Revenues received from fees collected from visitors are used to compensate the State of Wyoming for tax losses on Grand Teton National Park lands (16 U.S.C. 406d–3).

The Historic Preservation Fund appropriation includes grant programs to facilitate the preservation of the Nation's historic and cultural resources. This appropriation provides grants-in-aid to States, Territories, Indian Tribes, Historically Black Colleges and Universities, and the Save America's Treasures program. Grants-in-aid to States and local governments require a 40 percent funding match; grants to Tribes do not require matching funds. In addition to the traditional grants-in-aid described above, the account includes competitive grant programs. This includes grants for the survey and nomination of properties associated with communities currently under-represented in the National Register and as National Historic Landmarks, and grants to preserve the sites and stories of the Civil Rights Movement. Funding for grants-in-aid to Historically Black Colleges and Universities, Competitive Grants, and Save America's Treasures is not requested in the FY 2019 Budget.

*Park concessions franchise fees.*—Franchise fees for concessioner activities in the National Park System are deposited in this account and used for certain park operations activities in accordance with section 407 of P.L. 105-391. By law, 20 percent of franchise fees collected are used to support activities throughout the National Park System and 80 percent are retained and used by each collecting park unit for visitor services and for purposes of funding high-priority and urgently necessary resource management programs and operations. The National Park Service

Centennial Act, P.L. 114-289, establishes a new concessions contracting authority within NPS, which is described under the Visitor Experience Improvements Fund account.

*Concessions improvement accounts.*—National Park Service agreements with private concessioners providing visitor services within national parks can require concessioners to deposit a portion of gross receipts or a fixed sum of money in a separate bank account. A concessioner may expend funds from such an account with the approval of the park superintendent for improvements to facilities that directly support concession visitor services but would not otherwise be funded through the appropriations process. Concessioners do not accrue possessory interests from improvements funded through these accounts.

*Park buildings lease and maintenance fund.*—Rental payments for leases to use buildings and associated property in the National Park System are deposited in this account and used for infrastructure needs at park units in accordance with section 802 of P.L. 105-391.

*Operation and maintenance of quarters.*—Revenues from the rental of Government-owned quarters to park employees are deposited in this account and used to operate and maintain the quarters.

*Glacier Bay National Park resource protection.*—Of the revenues received from fees paid by tour boat operators or other permittees for entering Glacier Bay National Park, 60 percent are used for certain activities to protect resources of the Park from harm by permittees in accordance with section 703 of Division I of P.L. 104-333 (110 Stat. 4185).

*Filming and photography special use fees.*—The National Park Service is authorized to retain fees collected from issuing permits to use park lands and facilities for commercial filming, still photography, and similar activities. Activities authorized for funding include acquisition of emergency response equipment to prevent harm to aquatic park resources from permittees and studies to quantify the impact of permittees' activities on wildlife and other natural resources of the park.

*Contributions to US Park Police annuity benefits.*—Necessary costs of benefit payments to annuitants under the pension program for United States Park Police officers hired prior to January 1, 1984, established under P.L. 85-157, are paid from the General Fund of the Treasury to the extent the payments exceed deductions from salaries of active duty employees in the program. Permanent funding for such payments was provided in the Department of the Interior and Related Agencies Appropriations Act, 2002. Before 2002, such payments were funded from appropriations made annually to the National Park Service.

This appropriation funds a program to consolidate fractional interests in Indian lands and assist land owners with estate planning. Funds are used to purchase small interests in parcels of lands from willing individual Indian landowners and convey those interests to the tribe on whose reservation the land is located. Consolidation of these interests is expected to reduce the Government's costs for managing Indian lands and promote economic opportunity on these lands. This program is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106-462), the American Indian Probate Reform Act of 2004 (P.L. 108-374), and other authorities. No funding is requested in 2019 in this account. Implementation of the Individual Indian Money Account Litigation Settlement (P.L. 111-291, Title I) to address fractionation of Indian lands is in a separate account. In

ADMINISTRATIVE PROVISIONS

*The Bureau of Indian Affairs may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts, and grants, either directly or in cooperation with States and other organizations.*

*Notwithstanding Public Law 87-279 (25 U.S.C. 15), the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.*

*Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs for central office oversight and Executive Direction and Administrative Services (except executive direction and administrative services funding for Tribal Priority Allocations, regional offices, and facilities operations and maintenance) shall be available for contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).*

*In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.*

*Notwithstanding any other provision of law, no funds available to the Bureau of Indian Education, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.*

*No funds available to the Bureau of Indian Education shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau of Indian Education school system as of October 1, 1995, except that the Secretary of the Interior may waive this prohibition to support expansion of up to one additional grade when the Secretary determines such waiver is needed to support accomplishment of the mission of the Bureau of Indian Education. Appropriations made available in this or any prior Act for schools funded by the Bureau shall be available, in accordance with the Bureau's funding formula, only to the schools in the Bureau school system as of September 1, 1996, and to any school or school program that was reinstated in fiscal year 2012. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1141 of the Education Amendments of 1978 (25 U.S.C. 2021)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter school's oper-*

ation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code.

Notwithstanding any other provision of law, including section 113 of title I of appendix C of Public Law 106–113, if in fiscal year 2003 or 2004 a grantee received indirect and administrative costs pursuant to a distribution formula based on section 5(f) of Public Law 101–301, the Secretary shall continue to distribute indirect and administrative cost funds to such grantee using the section 5(f) distribution formula.

Funds available under this Act may not be used to establish satellite locations of schools in the Bureau school system as of September 1, 1996, except that the Secretary may waive this prohibition in order for an Indian tribe to provide language and cultural immersion educational programs for non-public schools located within the jurisdictional area of the tribal government which exclusively serve tribal members, do not include grades beyond those currently served at the existing Bureau-funded school, provide an educational environment with educator presence and academic facilities comparable to the Bureau-funded school, comply with all applicable Tribal, Federal, or State health and safety standards, and the Americans with Disabilities Act, and demonstrate the benefits of establishing operations at a satellite location in lieu of incurring extraordinary costs, such as for transportation or other impacts to students such as those caused by busing students extended distances: Provided, That no funds available under this Act may be used to fund operations, maintenance, rehabilitation, construction or other facilities-related costs for such assets that are not owned by the Bureau: Provided further, That the term "satellite school" means a school location physically separated from the existing Bureau school by more than 50 miles but that forms part of the existing school in all other respects.

This appropriation supports the functions of the Office of the Secretary of the Interior, including executive-level leadership, policy, guidance, and coordination of the responsibilities carried out by its bureaus and offices. In addition, the appropriation supports programmatic functions carried out by the Office of the Secretary including, mineral revenue modeling, the Take Pride in America program, the Department's quasi-judicial and appellate responsibilities, and the Appraisal and Valuation Services Office. *Public Lands Infrastructure Fund.*—Interior manages an infrastructure asset portfolio with a replacement value exceeding \$300 billion, which includes buildings, housing, trails, roads, water systems, and Bureau of Indian Education (BIE) schools. Many of these assets are deteriorating, with older assets becoming more expensive to repair and maintain in good condition. The Budget proposes a new Public Lands Infrastructure Fund to help pay for repairs and improvements in national parks, wildlife refuges and at BIE schools, which have over \$12 billion in deferred maintenance. The fund would be derived from 50 percent of the incremental energy leasing receipts resulting from expanded energy development on Federal lands and waters; eligible receipts would be Federal onshore and offshore energy leasing revenues that exceed the 2018 Budget's receipt projections and are not otherwise allocated for other purposes (e.g., the Reclamation Fund, Land and Water Conservation Fund, Historic Preservation Fund,

and state and local revenue sharing payments). These receipts would be derived from energy mineral leasing (e.g., oil, gas and coal) under the Mineral Leasing Act and Outer Continental Shelf Lands Act, as well as solar, wind and geothermal development on public lands and offshore areas. Deposits to the fund would continue for 10 years and would be capped at a total of \$18 billion. Interior would use its capital asset management systems to prioritize projects, monitor implementation and measure results. The Budget estimates \$6.8 billion in expenditures from the fund over 10 years. This investment would significantly improve the Nation's most visible and visited public facilities.

Under the Mineral Leasing Act, States receive fifty-percent of Federal revenues generated from mineral production occurring on Federal lands within that State's boundaries. Alaska is the exception, receiving a 90 percent share of receipts from Federal mineral leasing in that State (exclusive of the National Petroleum Reserve-Alaska). To partially cover the costs of administering the Federal mineral leasing program, the Bipartisan Budget Act permanently amended the Mineral Leasing Act (MLA) to deduct two

Flood control payments to States are shared according to the Flood Control Act of 1936 (33 U.S.C. 701 et seq.) which provides that 75 percent of revenue collected be shared with the State in which it was collected. These funds are to be expended as the State legislature may prescribe for the benefit of the public schools and roads in the county from which the revenue was collected, or for defraying other expenses of county government. These expenses include public obligations of levee and drainage districts for flood control and drainage improvements. Payments are administered by Interior's Office of Natural Resources Revenue.

As of May 23, 1908 (16 U.S.C. 499), 25 percent of the revenues collected from onshore mineral leasing and production on national forest lands have been paid to the State in which the national forest resides. A State's payment is based on national forest acreage. Where a national forest is situated in several States, an individual State payment is proportionate to its area within that particular national forest. These payments are administered by Interior's Office of Natural Resources Revenue.

The Energy Policy Act of 2005 (P.L. 109-58) amended section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019 et seq.) to provide that for the revenues collected from geothermal leasing, 50 percent of the revenues are to be paid to the State and 25 percent are to be paid to the county in which the leased lands or geothermal resources are located. These payments are administered by Interior's Office of Natural Resources Revenue. The Administration proposes legislation which would change the allocation to eliminate the 25 percent payments to counties.

*Repeal geothermal payments to counties.*—The Budget proposes legislation to repeal Section 224(b) of the Energy Policy Act of 2005, and permanently discontinue the 25 percent geothermal lease revenue sharing payments to counties. The legislation proposes to restore the traditional 50/50 Federal-State revenue sharing arrangement. This proposal is estimated to generate savings of \$40 million over ten years to the U.S. Treasury.

Title IV of the Department of the Interior and Related Agencies Appropriation Act, 1998 (P.L. 105-83) established the Environmental Improvement and Restoration Fund account. As required by law, 50 percent of the principal and 50 percent of the interest from the Alaska Escrow account are deposited into the Environmental Improvement and Restoration Fund. The law requires that the corpus of the Fund be invested. Twenty percent of the interest earned by the Fund is permanently appropriated to the Department of Commerce, and the unappropriated balance of interest remains in the Fund. At this time, no budget authority is requested.

TRUST TERRITORY OF THE PACIFIC ISLANDS

Until October 1, 1994, the United States exercised jurisdiction over the Trust Territory of the Pacific Islands according to the terms of the 1947 Trusteeship Agreement between the United States and the Security Council of the United Nations. These responsibilities were carried out by the Department of the Interior.

The Department of the Interior is seeking no additional appropriations for the Trust Territory of the Pacific Islands. Compacts of Free Association have been implemented with the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Remaining funds in the Trust Territory of the Pacific Islands account are being used to improve basic economic information and financial management capabilities in the insular areas; address compact impact related issues; and also for brown tree snake control.

COMPACT OF FREE ASSOCIATION

For grants and necessary expenses, \$3,109,000, to remain available until expended, as provided for in sections 221(a)(2) and 233 of the Compact of Free Association for the Republic of Palau; and section 221(a)(2) of the Compacts of Free Association for the Government of the Republic of the Marshall Islands and the Federated States of Micronesia, as authorized by Public Law 99-658 and Public Law 108-188.

Note.—A full-year 2018 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2018 (Division D of P.L. 115-56, as amended). The amounts included for 2018 reflect the annualized level provided by the continuing resolution.

The peoples of the Republic of the Marshall Islands, the Federated States of Micronesia and the Republic of Palau approved Compacts of Free Association negotiated by the United States and their governments. The Compact of Free Association Act of 1985 (P.L. 99-239) constituted the necessary authorizing legislation to make annual payments to the Republic of the Marshall Islands and the Federated States of Micronesia. Payments began

COMPACT OF FREE ASSOCIATION—Continued

in 1987 and continued through 2003 when the original economic assistance package expired. The Compact of Free Association Amendments Act of 2003, P.L. 108–188, continues financial assistance to the Federated States of Micronesia and the Republic of the Marshall Islands through 2023. The Compact of Free Association for the Republic of Palau was enacted on November 14, 1986 as P.L. 99–658, and was implemented on October 1, 1994. While the financial assistance provisions under the Compact of Free Association with the Republic of Palau were set to expire on September 30, 2009, subsequent appropriations in 2010 through 2018 have continued financial assistance to Palau at 2009 levels. The FY 2018 National Defense Authorization Act authorized the strategic agreement signed between the United States and Palau governments in 2010.

Under the 1994 U.S.-Palau Compact of Free Association and the related 2010 Compact Review Agreement (CRA), the United States agreed to provide economic assistance to the Government of Palau. The Compact provides significant strategic value to the United States in achieving national security objectives through the exclusive U.S. access to Palau's land, water and air space. The FY 2019 Budget request for the Department of Defense includes \$111.0 million to bring the 2010 CRA into force and satisfy the outstanding commitment to Palau. This funding would be transferred to the Department of the Interior.

The mission of the Office of Inspector General is to promote excellence, accountability and integrity in the programs, operations and management of the Department of the Interior. The Office focuses on providing the Secretary and Congress timely and relevant information regarding the Department's most serious management and program challenges, with a special concentration on high-risk areas vulnerable to fraud, waste, and mismanagement. The Office is responsible for independently and objectively identifying risks and vulnerabilities that directly impact, or could impact, the Department's ability to accomplish its mission. The Office is required to keep the Secretary and Congress fully and currently informed about problems and deficiencies relating to the administration of departmental programs and operations. Effective implementation of this mandate addresses the public's demand for greater accountability and integrity in the administration of government programs and operations and the demand for programs that work better, cost less, and get the results Americans care about most.

The Individual Indian Money Account Litigation Settlement (P.L. 111-291) established this Fund to provide Indian land owners with an additional incentive to sell their fractionated interests, given that the market value associated with highly fractionated interests will be quite low in many cases. Not more than \$60 million may be transferred from the Trust Land Consolidation Fund to this Fund for higher education scholarships for American Indians and Alaska Natives to be administered as described

in the settlement agreement. The FY 2019 Budget proposes to shift this account to the Office of the Special Trustee from the Office of the Secretary.

The Individual Indian Money Account Litigation Settlement (P.L. 111-291) established a new trust land consolidation Fund for the buy-back and consolidation of fractionated interests in parcels of land from individual Indian landowners. The Fund also covers administrative costs to undertake the process of acquiring fractionated interests and associated trust reform activities not to exceed 15 percent of the Fund. The acquisition of fractionated interests is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106-462), and the American Indian Probate Reform Act of 2004 (P.L. 108-374). The Settlement provides additional authority for the acquisition of interests held by persons who cannot be located after engaging in extensive efforts to notify them and locate them for a five-year period. The Settlement was finalized on November 24, 2012 and in accordance with the terms of the legislation, these funds remain available for ten years from the date of the Settlement. The FY 2019 Budget proposes to shift this account to the Office of the Special Trustee from the Office of the Secretary.

The Indian Gaming Regulatory Act established the National Indian Gaming Commission as an independent federal regulatory agency within the Department of the Interior. The purpose of the IGRA and the NIGC is to support and promote tribal economic development, self-sufficiency and

strong tribal governments through the operation of gaming on Indian lands. The Commission collaborates with tribes to monitor and regulate gaming activities conducted on Indian Lands to ensure that gaming operations are conducted with integrity and that tribes are the primary beneficiaries of gaming revenues. IGRA authorizes the Commission to assess and collect fees on tribal gaming revenues to cover agency operating costs.

P.L. 94-565 (31 U.S.C. 6901-07), as amended, authorizes Payments in Lieu of Taxes ("PILT payments") to counties and other units of local government for lands within their boundaries administered by the Bureau of Land Management, the U.S. Forest Service, the National Park Service, the Fish and Wildlife Service, and certain other agencies. The PILT payment formula is based on a number of factors, including the amount of Federal land within an eligible unit of local government, its population, and certain other Federal payments the local government may receive.

Since the inception of the PILT program in 1977 through FY 2007, PILT funding was subject to annual appropriations. The Emergency Economic Stabilization Act of 2008 provided a five-year (FYs 2008-2012) mandatory funding stream for PILT at the full authorization levels calculated using the existing PILT formula. The Moving Ahead for Progress in the 21st Century Act (P.L. 112-141) extended the mandatory authorization through 2013, and the Agricultural Act of 2014 (P.L. 113-79) extended the mandatory authorization through 2014. The Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 and the Consolidated and Further Continuing Appropriations Act (P.L. 113-235) extended PILT payment authority through 2015 with a combination of discretionary and mandatory funds. The Consolidated Appropriations Act of 2016 (P.L. 114-113) provided discretionary PILT funding within the Office of the Secretary, Departmental Operations account to extend payment authority through 2016. The Consolidated Appropriations Act, 2017 (P.L. 115-31) provided discretionary PILT funding within Department-wide Programs. The FY 2019 Budget continues to propose discretionary funding for PILT payments within Department-wide Programs.

The Comprehensive Environmental Response, Compensation and Liability Act, as amended (42 U.S.C. Section 9601 *et seq.*) requires responsible parties, including Federal landowners, to investigate and clean up releases of hazardous substances. The Central Hazardous Materials Fund is used to fund remedial investigations and cleanup of hazardous waste sites for which the Department of the Interior is liable. The program also has authority to collect and retain amounts recovered from responsible parties within this account.

The FY 2019 Budget funds program management staff costs from annual discretionary appropriations and funds remedial investigations and cleanups using amounts recovered from responsible parties.

Under the Natural Resource Damage Assessment and Restoration Fund (Restoration Fund), natural resource damage assessments are performed to provide the basis for claims against responsible parties for the restoration of injured natural resources. Funds are appropriated to conduct damage assessments, provide restoration support, prepare for response to potential inland oil spills, and for program management. In addition, funds will be received for the restoration of damaged resources and other activities and for natural resource damage assessments from responsible parties through cooperative assessment agreements, negotiated settlements, or other legal actions by the Department of the Interior. Responsible parties may also provide in-kind services to restore injured natural resources.

Restoration activities include: 1) the replacement and enhancement of affected resources; 2) acquisition of equivalent resources and services; and, 3) long-term environmental monitoring and research programs directed to the prevention, containment, and amelioration of hazardous substances and oil spill sites.

The Restoration Fund operates as a Department-wide program, incorporating the interdisciplinary expertise of its various bureaus and offices. Natural resource damage assessments and the restoration of injured natural resources are authorized by the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 *et seq.*), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 *et seq.*), the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), and the Act of July 27, 1990 (16 U.S.C. 19jj *et seq.*). Since 1992, amounts received by the United States and its State and Tribal co-trustee partners from responsible parties for restoration or reimbursement in settlement of natural resource damages may be deposited in the Fund and shall accrue interest.

**EXXON VALDEZ RESTORATION PROGRAM**

The FY 2019 Budget reflects the receipts, transfers, and mandatory spending by the Department of the Interior associated with the civil and

criminal settlements resulting from the 1989 Exxon Valdez oil spill in the Prince William Sound and surrounding areas. Funding from the settlements, including interest, is provided to Federal and State of Alaska natural resource trustee agencies to restore the natural resources and services damaged by the spill. The Exxon Valdez Oil Spill Trustee Council consists of three State and three Federal trustees who oversee restoration of the injured ecosystem through the use of civil settlement funds. The criminal settlement funds are managed separately by the Federal and Alaska State governments, but are coordinated with the Council.

**Preparedness.**—Funds the non-emergency and predictable aspects of the Department's wildland fire program, including the initial attack suppression action on wildfires. Preparedness includes readiness, operational planning, oversight, procurement, training, supervision, and deployment of wildland

fire suppression personnel and equipment prior to wildland fire occurrence, and rural fire readiness, in which assistance is provided to local cooperators to enhance their capacity to protect remote communities and natural resources. It also includes activities related to program monitoring and evaluation, and integration of fire into land-use planning.

**Suppression Operations.**—Funds the emergency and unpredictable aspects of the Department's wildland fire management program. Suppression operations include the total spectrum of management actions taken on wildland fires in a safe, cost-effective manner, considering public benefits and values to be protected consistent with resource objectives and land management plans. Emergency actions taken during and immediately following a wildfire to stabilize the soil and structures to prevent erosion, floods, landslides, and further resource damage are included in this activity. Generally, emergency stabilization actions may be performed within one year of containment of a fire, however, exceptions to this time limit are allowed under certain circumstances. In FY 2010 through 2017, funding for the ten-year average of inflation-adjusted suppression obligations was split between the FLAME Wildfire Suppression Reserve Fund and this appropriation. The FY 2019 Budget request proposes to fund 100 percent of the ten-year average within the Wildland Fire Management account and discontinue funding requests in the FLAME Wildfire Suppression Reserve Fund. The FLAME account will be closed out as current balances in the account are drawn down. The Budget also proposes to amend the Balanced Budget and Emergency Deficit Control Act to establish a separate annual cap adjustment for wildfire suppression operations, similar to how unanticipated funding needs for other natural disasters are addressed. This cap adjustment will help ensure that adequate resources are available to the Departments of the Interior and Agriculture to fight wildland fires, protect communities, and safeguard human life during the most severe wildland fire seasons. (The Cap Adjustment Budget request is in a new account, the Wildfire Suppression Operations Fund, at the end of the Federal Funds section in the Other Independent Agencies chapter.) The DOI and Forest Service wildland fire management programs will continue to strengthen oversight and accountability of suppression spending and use risk management principles to guide decision-making at the strategic, program, and operational levels.

**Fuels Management.**—The FY 2019 Budget proposes to establish the Fuels Management program as a budget activity, elevating it from its current position as a subactivity under Other Operations. The Fuels Management program conducts treatments aimed at mitigating risk to communities and their values, including areas in the wildland urban interface. This activity may also conduct treatments that improve the integrity and resilience of our forests and rangelands. The Fuels Management activity will contribute community adaption to fire and improve the ability to safely and appropriately respond to wildfire. Funding for the Fuels Management activity covers the planning, operational aspects, and monitoring of fuels treatments. The program will utilize such treatment methods as prescribed fire, mechanical, chemical, and biological treatments or a combination of methods.

**Other Operations.**—Funds all other aspects of the wildland fire management program, which includes Fire Facilities Construction and Maintenance, Burned Area Rehabilitation, and Joint Fire Science. The Fire Facilities Construction and Maintenance program funds construction and maintenance of facilities to house firefighters and equipment used in wildland firefighting and fuels management activities. The FY 2019 Budget proposes to discontinue funding for the Fire Facilities Construction and Maintenance program. In the future, funding for these facilities will appear in the Department's fire-related bureaus' construction and deferred maintenance budgets. The Burned Area Rehabilitation program begins the restoration process for lands and resources damaged by wildland fires that would not return to fire adapted conditions without intervention. Soil stabilization and the introduction of native and other desirable plant species are employed for up to three years, or up to five years under certain circumstances, following containment of a fire to return severely-burned areas to appropriate fire regimes and resource conditions. The Joint Fire Science subactivity funds

WILDLAND FIRE MANAGEMENT—Continued

the Department's share of the Joint Fire Science program, an interagency partnership that sponsors and delivers applied research to assist field managers with fuels treatment, post-fire rehabilitation, smoke management and many other related topics. The Budget proposes to discontinue funding for the Joint Fire Science program.

In 2010 through 2017, amounts in the FLAME Fund included the portion of the ten-year average of suppression obligations, adjusted for inflation, intended to support the most severe, complex, and threatening fires. The Secretary is authorized to permit transfers from this account to cover these extreme fire events. The Secretary may also transfer funds in the event DOI has exhausted its suppression resources due to an active fire season. In FY 2019, the Budget proposes to discontinue funding requests in the FLAME Fund. The Budget proposes to fund the Department's full ten-year suppression average in the Wildland Fire Management account. The FLAME account will be closed out as current balances are drawn down. The Budget also proposes to amend the Balanced Budget and Emergency Deficit Control Act to establish a separate annual cap adjustment for wildfire suppression operations, similar to how unanticipated funding needs for other natural disasters are addressed. The Working Capital Fund finances services and activities that can be performed more effectively and efficiently in a centralized manner, including business services provided by the Interior Business Center (IBC). Activities financed through the fund include information technology and security, systems hosting and help desk services, Departmental news and information, aircraft services, central reproduction, supplies and health services, and safety and health initiatives. Departmental administrative systems hosted within the Fund include the Federal Personnel and Payroll System and the Financial and Business Management System (FBMS). The IBC provides financial management, acquisition, and human resources services as well as payroll services to other agencies as one of the Government-wide shared service providers selected by OPM. Through the National Indian Program Training Center, a component of DOI University, the Working Capital Fund provides training courses and other services related to Indian culture, law and programs to Federal government employees. The appropriated portion of the Working Capital Fund includes funding for FBMS operations and maintenance, and activities related to improving the Department's cybersecurity capabilities.

Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology (IT). Under the control of the Department of Justice (DOJ) Chief Information Officer (CIO), this centralized fund ensures that investments in information sharing technology are well-planned and aligned with the Department's overall IT strategy and enterprise architecture. The current major initiatives/projects are described below.

**Cybersecurity.**—Enhancing cybersecurity remains a top priority for the Department and its leadership as DOJ supports a wide range of missions that include national security, law enforcement, prosecution, and incarceration. For each of these critical missions, the systems that support them must be secured to protect the confidentiality of sensitive information, the availability of data and workflows crucial to mission execution, and the integrity of data guiding critical decision-making.

**IT Transformation.**—IT Transformation is a long-term, multiyear commitment that implements shared IT infrastructure for the Department and shifts investments to the most efficient computing platforms, including shared services and next generation storage, hosting, networking, and facilities. This directly supports the Federal CIO's 25 Point Plan to Reform Federal IT Management and the Portfolio Stat process, and aligns the Department's IT operations with the Federal Data Center Consolidation and Shared First initiatives. Work on these initiatives began in 2012, and con-

sists of the following projects: a) e-mail consolidation; b) data center consolidation; c) mobility and remote access; and d) desktops. In 2019, DOJ will continue to leverage Schedule A hiring authority with a goal of bringing on board private sector IT subject matter experts to progress IT transformation already underway within the Department's Office of the CIO (OCIO). These experts, with varied skill sets from data architects, application hosting, and business intelligence, will assist OCIO and component customers in moving forward on respective IT initiatives in support of the DOJ mission. Additionally, the OCIO will leverage U.S. Digital Service expertise in its effort to drive innovation in key IT management areas, such as with Digital Acquisition Innovation Labs. OCIO will also continue to leverage its authority under the Federal Information Technology Acquisition Reform Act (FITARA), through the Department's IT Investment Review Council (DIRC) and Investment Review Board (DIRB), and through the TechStat process, to ensure that all Department IT projects and initiatives are meeting expected milestones and remain within project scope and budget.

**Policy, Planning and Oversight.**—JIST funds the Office of the CIO and the Policy & Planning Staff (PPS), which supports CIO management in complying with the Clinger-Cohen Act, the FITARA, and other applicable laws, rules, and regulations for federal information resource management. Within OCIO, PPS develops, implements, and oversees an integrated approach for effectively and efficiently planning and managing DOJ's information technology resources, including the creation of operational plans for JIST and monitoring the execution of funds against those plans. PPS is responsible for IT investment management including portfolio, program, and project management. The investment management team manages the Department's IT investment and budget planning processes; develops and maintains the Department's general IT program policy and guidance documents; and coordinates the activities of the DIRB DIRC. In addition, PPS performs reviews to examine planned IT acquisitions and procurements to ensure alignment with the Department's IT strategies, policies, and its enterprise road map.

The Executive Office for Immigration Review (EOIR) was created on January 9, 1983 through an internal Department of Justice (DOJ) reorganization that combined the Board of Immigration Appeals (BIA) with the Immigration Judge function. In addition to establishing EOIR as a separate agency within DOJ, this reorganization made the Immigration Courts independent of the agency charged with enforcement of Federal immigration laws. Under delegated authority from the Attorney General, EOIR conducts immigration court proceedings, appellate reviews, and administrative hearings. The Office of the Chief Administrative Hearing Officer was added in 1987. EOIR is headed by a Director, appointed by the Attorney General, who oversees 59 Immigration Courts nationwide, the BIA, and the headquarters organization located in Falls Church.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. By statute, the OIG also reports to the Attorney General, the Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules, and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances, the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decision makers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and the Congress, and of vital importance to the Department.

The Office of the General Counsel provides legal advice to OIG management and staff. It also drafts memoranda on issues of law; prepares administrative subpoenas; represents the OIG in personnel, contractual, ethical, and legal matters; and responds to Freedom of Information Act requests.

The Management and Planning function provides advice to OIG senior leadership on administrative and fiscal policy, and assists OIG components in the areas of budget formulation and execution, security, personnel, training, travel, procurement, property management, information technology, computer network communications, telecommunications, records management, quality assurance, internal controls, and general support.

The Parole Commission has oversight responsibility for the supervision of District of Columbia parolees and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105–33).

The following Department legal activities are financed from this appropriation:

**Supreme Court proceedings and appellate matters.**—The Office of the Solicitor General conducts substantially all litigation on behalf of the United States and its agencies in the Supreme Court of the United States, approves decisions to appeal and seek further review in cases involving the United States in the lower Federal courts, and supervises the handling of litigation in the Federal appellate courts.

**General tax matters.**—The mission of the Tax Division is to enforce the nation's tax laws fully, fairly, and consistently, through both criminal and civil litigation, in order to promote voluntary compliance with the tax laws, maintain public confidence in the integrity of the tax system, and promote the sound development of the law.

**Criminal matters.**—The Criminal Division develops, enforces, and supervises the application of all Federal criminal laws, except those specifically assigned to other divisions. The mission of the Criminal Division is to identify and respond to critical and emerging national and international criminal threats, and to lead the enforcement, regulatory, and intelligence communities in a coordinated nationwide response to reduce those threats.

**Claims, customs, and general civil matters.**—The Civil Division represents the Federal Government in civil litigation to defend Federal statutes, regulations, and policies, and to avoid payment of unjustified monetary claims. It also investigates and pursues perpetrators of financial, economic, health care, and other forms of fraud to recover billions of dollars owed to the Federal Government. Examples of non-monetary litigation include the defense of thousands of challenges to immigration enforcement decisions and to Federal activities involving counterterrorism, as well as enforcement of consumer protection laws.

**Environment and natural resource matters.**—The Environment and Natural Resources Division enforces the Nation's civil and criminal environmental laws and defends environmental challenges to Government action. Additionally, the Division represents the United States in virtually all matters concerning the use and development of the Nation's natural resources and public lands, wildlife protection, Indian rights and claims, worker safety, animal welfare, and the acquisition of Federal property.

**Legal opinions.**—The Office of Legal Counsel provides written opinions and oral advice in response to requests from the Counsel to the President, the various agencies of the executive branch, and offices within the Department, including the offices of the Attorney General and Deputy Attorney General.

**Civil rights matters.**—This program enforces the Nation's Federal civil rights laws. Through the enforcement of a wide range of anti-discrimination laws, the Division gives meaning to our Nation's promise of equal opportunity. The Division works to uphold and defend the civil and constitutional rights of all individuals, particularly some of the most vulnerable members

of our society. The Division enforces Federal statutes that prohibit discrimination and provide a remedy for constitutional violations.

**INTERPOL Washington.**—This program is the United States National Central Bureau and designated representative to INTERPOL on behalf of the Attorney General. Its mission includes, but is not limited to, facilitating international police cooperation; transmitting criminal justice, humanitarian, and other law enforcement related information between U.S. law enforcement authorities and their foreign counterparts; and coordinating and integrating information for investigations of an international nature.

**Office of The Pardon Attorney.**—The Office of the Pardon Attorney (OPA) receives and evaluates clemency petitions for federal crimes and prepares letters of advice for the President for each application with approval from the Deputy Attorney General. In addition, OPA responds to inquiries concerning executive clemency petitions and the clemency process from applicants, their legal representatives, members of the public, and Members of Congress; prepares all necessary documents to effect the President's decision to grant or deny clemency; and provides advisory services to White House Counsel concerning executive clemency procedures.

**Reimbursable programs.**—This reflects reimbursable funding for the following:

**Civil Division.**—For litigating cases under the National Childhood Vaccine Injury Act, and for litigating a number of extraordinarily large cases on behalf of the United States;

**Criminal Division.**—For activities related to healthcare fraud and drug prosecutions, international training programs, and asset forfeiture related activities;

**Environment and Natural Resources Division.**—From numerous client agencies for personnel, automated litigation support, and litigation consultant services for a variety of environmental, natural resource, land acquisition, and Native American cases, including from the Environmental Protection Agency for Superfund enforcement litigation; and,

**Civil Rights Division.**—For activities related to the Division's Complaint Adjudication Office and Health Care Fraud activities.

The Antitrust Division administers and enforces antitrust and related statutes. This program primarily involves the investigation of suspected violations of the antitrust laws, the conduct of civil and criminal proceedings in the Federal courts, and the maintenance of competitive conditions.

The Department of Justice Antitrust Division and the Federal Trade Commission (FTC) are responsible for reviewing corporate mergers to ensure they do not promote anticompetitive practices. Revenue collected from pre-merger filing fees, known as Hart-Scott-Rodino fees, are collected by the FTC and split evenly between the two agencies. In 2019, the Antitrust Division will continue to collect filing fees for pre-merger notifications and will retain these fees for expenditure in support of its programs.

The Federal Government is represented by a United States Marshal in each of the 94 judicial districts. The primary mission of the United States Marshals Service (USMS) is to protect, defend, and enforce the American justice system by securing Federal court facilities and ensuring the safety of judges and other court personnel; apprehending fugitives and non-compliant sex offenders; exercising custody of Federal prisoners, and providing for their security and transportation from arrest to incarceration; ensuring the safety of protected government witnesses and their families; executing Federal warrants and court orders; managing seized assets acquired through illegal means; and providing custody, management, and disposal of forfeited assets. The USMS is the principal support force in the

Federal judicial system and an integral part of the Federal law enforcement community.

Other Federal funds are derived from the Administrative Office of the U.S. Courts for the Judicial Facility Security Program, the Assets Forfeiture Fund for seized assets management and disposal, the Fees and Expenses of Witnesses appropriation for protected witnesses' security and relocation, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, and the Department of Education and the Centers for Disease Control for security services. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

The Federal Prisoner Detention (FPD) account is responsible for the costs associated with the care of Federal detainees in the custody of the United States Marshals Service (USMS). The USMS must ensure the safe, secure, and humane confinement of persons in its custody while allowing unimpeded prisoner transportation operations. The FPD account provides for the care of Federal detainees in private, State, and local facilities, which includes housing, subsistence, transportation, medical care, and medical guard service.

For 2019, FPD requests funding for housing, medical, and transportation costs associated with the projected USMS detention population. The Federal Government utilizes various methods to house detainees. Detention bed space for Federal detainees is acquired to maximize efficiency and effectiveness for the Government through: 1) Federally-owned and managed detention facilities, where the Government has paid for construction and operation of the facility (funded in the Federal Bureau of Prisons' (BOP) account); 2) Intergovernmental Agreements with State and local jurisdic-

tions, whose excess prison and jail bed capacity is utilized and paid via a daily rate; and 3) Private performance-based contract facilities, where a daily rate is paid. Over three-quarters of the USMS's Federally detained population will likely be housed in State, local, and private facilities.

The USMS continues to look for efficiencies and cost reductions through process and infrastructure improvements. The costs associated with these efforts are funded from the FPD account. Improvements to date include implementation of eDesignate, which was developed to provide a more efficient workflow between the U.S. Courts, the USMS, and the BOP; establishment of Regional Transfer Centers and Ground Transfer Centers to accelerate the movement of prisoners to a designated BOP facility; and increased use of detention alternatives by providing funding to the Federal Judiciary to support alternatives to pretrial detention, such as electronic monitoring, halfway house placement, and drug testing and treatment. The USMS will continue to identify issues and develop solutions to drive further efficiencies.

This appropriation is used to pay fees and expenses of witnesses who appear on behalf of the Government in litigation in which the United States is a party. The United States Attorneys, the United States Marshals Service, and the Department's six litigating divisions are served by this appropriation.

**Fees and expenses of witnesses.**—Pays the fees and expenses associated with the presentation of testimony on behalf of the United States for fact witnesses who testify as to events or facts about which they have personal knowledge, and for expert witnesses who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

**Protection of witnesses.**—Pays subsistence and other costs to ensure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

**Victim compensation fund.**—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

**Private counsel.**—Pays private counsel retained to represent Government employees who are sued, charged, or subpoenaed for actions taken while performing their official duties (private counsel expenditures may be authorized for congressional testimony as well as for litigation in instances where Government counsel is precluded from representing the employee or private counsel is otherwise appropriate).

**Foreign Counsel.**—Allows the Civil Division, which is authorized to oversee litigation in foreign courts, to pay legal expenses of foreign counsel, retained and supervised by the Department of Justice, who represent the United States in cases filed in foreign courts.

**Alternative Dispute Resolution.**—Pays the costs of providing Alternative Dispute Resolution (ADR) services in instances wherein the Department has taken the initiative to use such services and wherein the courts have directed the parties to attempt a settlement using mediation or some other ADR process.

A permanent appropriation is available to fund independent and special counsel activities (28 U.S.C. 591 note). In recent years, special counsels have been appointed to investigate allegations that senior Executive Branch officials violated Federal law. This permanent appropriation is used to fund such investigations. Additionally, the Budget proposes legislation to transfer primary jurisdiction over federal tobacco and alcohol anti-smuggling laws from the Department of Justice and the Bureau of Alcohol, Tobacco, Firearms and Explosives to the Department of the Treasury and the Alcohol and Tobacco Trade Bureau.

Title II of the James Zadroga 9/11 Health and Compensation Act of 2010 (P.L. 111-347) reopened the September 11th Victim Compensation Fund (VCF), extending eligibility for compensation associated with physical harm stemming from debris removal and extending the deadline for claims associated with harms not discovered before the Fund's original deadline. The VCF was established by the Air Transportation Safety and System Stabilization Act (P.L. 107-42) as an alternative to litigation, and had terminated operations in 2004 after making compensation payments of more than \$7 billion to survivors of 2,880 persons killed in the September 11, 2001 terrorist attacks and to 2,680 individuals who were injured in the attacks and subsequent rescue efforts.

The James Zadroga 9/11 Health and Compensation Act of 2010 reopened the VCF and made \$2.775 billion available for the settlement of claim determinations issued on or before December 17, 2015. After all claims in this group were resolved, roughly all remaining funds (\$813 million) became available in the new Victims Compensation Fund. The Victims Compensation Fund is available for the settlement of claim determinations issued after December 17, 2015.

United States Trustee System Fund.—The United States Trustees supervise the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts, and litigate against fraud and abuse in the system by debtors, creditors, attorneys, bankruptcy petition preparers, and others. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee program to a 21 region, nationwide program encompassing 88 judicial districts. (Bankruptcy cases filed in Alabama and North Carolina are administered by the Administrative Office of the U.S. Courts.) The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 (Public Law 109-8) expanded the United States Trustees' existing responsibilities to include, among other things, means testing, credit counseling/debtor education, and debtor audits. User fees that are assessed offset the annual appropriation. In October 2017, the Bankruptcy Judgeship Act of 2017 (Public Law 115-72) was enacted which adjusted quarterly fees for the largest chapter 11 debtors. As a result, the United States Trustee Program's FY 2019 appropriation is anticipated to be fully offset by bankruptcy fees collected and on deposit in the United States Trustee System Fund.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund (AFF) as a repository for forfeited cash and the proceeds of sales of forfeited property under any law enforced and administered by the Department of Justice in accordance with 28 U.S.C. 524(c). Authorities of the AFF have been amended by various public laws enacted since 1984. Under current law, authority to use the AFF for certain investigative expenses shall be specified in annual appropriations acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise, or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the assets forfeiture program are paid from the permanent, indefinite portion of the AFF. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner and Alien Transportation System (JPATS) is responsible for transporting the majority of Federal prisoners and detainees in the custody of the United States Marshals Service or the Bureau of Prisons. JPATS transports both sentenced and pretrial prisoners and detainees via coordinated air and ground systems without sacrificing the safety of the public, Federal employees, or those in custody. JPATS also transports prisoners and detainees on a reimbursable space-available basis for the Department of Defense and other participating executive departments as well as State and local agencies. Customers are billed based on the number of flight hours and the number of seats used to move their prisoners.

The Interagency Crime and Drug Enforcement (ICDE) account primarily funds the Organized Crime Drug Enforcement Task Forces (OCDETF) Program. OCDETF combines the resources and expertise of its 11 Federal law enforcement agency members—in cooperation with the Department of Justice's Criminal Division, United States Attorneys' Offices, and State and local law enforcement—to identify, disrupt, and dismantle the major domestic and transnational criminal organizations (TCO) that engage in the drug trafficking, violence, and money laundering activities that threaten the public safety and economic and national security of the United States. The OCDETF Program performs the following activities:

*Investigation.*—This activity includes resources for the direct investigative, intelligence, and support activities of OCDETF's multi-agency task forces, focusing on the disruption and dismantlement of major TCOs. This activity also includes resources for the OCDETF Fusion Center (OFC). The OFC is a multi-agency intelligence center which analyzes fused law enforcement financial and human intelligence information, and produces actionable intelligence for use by OCDETF member agencies to disrupt and dismantle major criminal organizations and their supporting financial structures. In addition, the OFC creates strategic intelligence products to enhance TCO threat analyses and support the national strategic efforts against transnational organized crime. Organizations participating under the Investigations function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, U.S. Secret Service, U.S. Postal Inspection Service, and Homeland

Security Investigations. OCDEF also maintains 12 co-located Strike Forces. The ICDE account also supports transnational organized crime investigations through the International Organized Crime Intelligence and Operations Center (IOC-2). IOC-2 is a multi-agency intelligence center with a mission to significantly disrupt and dismantle those international criminal organizations posing the greatest threat to the United States. Multiple Federal agencies participate in IOC-2 activities and related investigations. For 2019, ICDE seeks 28 positions, including 19 agents and \$4.6 million to enhance efforts to disrupt and dismantle TCOs.

**Prosecution.**—This activity includes resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are intended to dismantle in their entirety those major transnational criminal organizations engaged in the highest levels of drug trafficking, violence, and money laundering by targeting the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys and the Department of Justice's Criminal Division.

The mission of the Federal Bureau of Investigation (FBI) is to protect the American people and uphold the Constitution of the United States. The FBI's mission priorities are to:

- Protect the U.S. from terrorist attacks;
- Protect the U.S. against foreign intelligence operations and espionage;
- Protect the U.S. against cyber-based attacks and high-technology crimes;
- Combat public corruption at all levels;
- Protect civil rights;
- Combat domestic and transnational criminal organizations and enterprises;
- Combat major white-collar crime; and,
- Combat significant violent crime.

The foundation of the FBI's budget strategy is supported by the FBI's mission, vision, and strategic objectives. At the heart of the FBI's strategy is the vision statement: Ahead of the threat through leadership, agility, and integration. The FBI aims to be ahead of the threat in two different ways. First, the FBI's goal is to continuously evolve to anticipate and mitigate existing threats. Second, the FBI needs to be able to recognize and address threats that it has not yet seen.

The FBI is headed by a Director, who is appointed by the President and confirmed by the Senate. FBI Headquarters, located in Washington, DC, provides centralized operational, policy, and administrative support to FBI investigations. The FBI operates 56 field offices in major U.S. cities and 385 resident agencies (RAs) throughout the country. RAs are satellite offices that allow the FBI to maintain a presence in and serve local communities. The FBI also operates over 60 Legal Attaché offices and over 20 sub-offices in 75 foreign countries around the world. Additionally, there are several specialized facilities and analytical centers within the FBI that are located across the country, such as the Criminal Justice Information Services Division in Clarksburg, WV; the Terrorist Explosive Device Analytical Center and Hazardous Devices School in Huntsville, AL; and the FBI Academy and Laboratory at Quantico, VA.

A number of FBI activities are carried out on a reimbursable basis. For example, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs, and by other Federal agencies for certain intelligence and investigative services such as pre-employment background inquiries and fingerprint and name checks. The FBI is also authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2019, the FBI is requesting a total of \$8.872 billion. The request also includes a \$148 million cancellation of excess Criminal Justice Information Services surcharge balances.

The Drug Enforcement Administration's (DEA) mission is to enforce the controlled substances laws and regulations of the United States. DEA's major focus is the disruption and dismantlement of Priority Target Organizations (PTOs)—domestic and international drug trafficking and money laundering organizations having a significant impact on drug availability in the United States. DEA emphasizes PTOs with links to organizations on the Attorney General's Consolidated Priority Organization Target list, which represents the "Most Wanted" drug trafficking and money laundering organizations believed to be primarily responsible for the United States' illicit drug supply, including heroin. DEA also considers it a high priority to target the financial infrastructure of major drug trafficking organizations, and members of the financial community who facilitate the laundering of their proceeds. From the beginning of 2005 through 2016, DEA denied drug traffickers \$37.5 billion in revenue through the seizure of both assets and drugs, including \$4.1 billion in 2016. In addition to keeping drugs and drug-related violence out of the United States, DEA plays a vital role in the areas of national and border security.

DEA has 222 domestic offices organized in 22 divisions throughout the United States. Internationally, DEA has 91 offices in 70 countries and is responsible for coordinating and pursuing U.S. drug investigations abroad. Federal, State, local, and international partnerships continue to play an important role in DEA's enforcement efforts. For nearly 43 years, DEA has led a task force program that today includes approximately 2,500 task force officers participating in over 200 task forces. DEA's Special Operations Division and the El Paso Intelligence Center are vital resources for Federal, State, and local law enforcement. Additionally, through the Office of National Security Intelligence, DEA ensures that national security information obtained in the course of conducting its drug law enforcement mission is expeditiously shared with the Intelligence Community.

DEA's activities are divided into three decision units:

**Domestic Enforcement.**—Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug trafficking syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This decision unit contains most of DEA's resources, domestic enforcement groups, State and local task forces, other Federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. DEA's objectives for Domestic Enforcement include:

- Identifying and targeting the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;
- Systematically disrupting or dismantling targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,
- Working with international offices to dismantle domestic organizations directly affiliated with Transnational Criminal Organizations.

**International Enforcement.**—DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. DEA's objectives for International Enforcement include:

- Identifying and targeting the most significant international drug and chemical trafficking organizations;
- Disrupting and dismantling the networks, financial infrastructures, operations, and resource bases of targeted international drug and chemical trafficking organizations; and
- Preventing drug trafficking organizations from funding terrorist organizations and activities.

**State and Local Assistance.**—DEA provides clandestine laboratory training, and meets the hazardous waste cleanup needs of the U.S. law enforcement community. DEA supports State and local law enforcement with assistance and training so that State and local agencies can better address the methamphetamine threat in their communities and reduce the impact that methamphetamine has on the quality of life for American citizens. As a result, DEA's nationwide contracts, container program, and established training programs allow DEA to provide State and local clandestine lab cleanup and training assistance in a cost-effective manner.

For 2019, the Budget proposes to transfer the High Intensity Drug Trafficking Areas program from the Office of National Drug Control Policy to DEA to improve coordination of drug enforcement efforts among Federal, State, and local law enforcement agencies in the U.S.

The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988, as amended, to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking. The HIDTA program provides resources to Federal, State, local, and tribal agencies in each HIDTA region to carry out activities that address the specific drug threats of that region. A central feature of the HIDTA program is the discretion granted to HIDTA Executive Boards to design and carry out activities that reflect the specific drug trafficking threats found in each HIDTA region. This discretion ensures that each HIDTA Executive Board can tailor its strategy and initiatives closely to local conditions and can respond quickly to changes in those conditions. Among the types of activities funded by the HIDTA program are: drug enforcement task forces comprised of multiple Federal, State, local, and tribal agencies designed to dismantle and disrupt drug trafficking organizations; multi-agency intelligence centers that provide drug intelligence to HIDTA initiatives and participating agencies; initiatives to establish or improve interoperability of communications and information systems between and among law enforcement agencies; and investments in technology infrastructure.

For 2019, the Budget proposes to transfer the HIDTA program from the Office of National Drug Control Policy to the Drug Enforcement Administration to improve coordination with the Department of Justice's other drug enforcement efforts.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration (DEA) under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. By carrying out the mandates of the Controlled Substances Act (CSA), DEA ensures that adequate supplies of controlled drugs are available to meet legitimate medical, scientific, industrial, and export needs, while preventing, detecting, and eliminating diversion of these substances to illicit traffic. The CSA requires physicians, pharmacists, and chemical companies to register with the DEA in order to distribute or manufacture controlled substances or listed chemicals. The registrant community, physicians, prescribers, and pharmacists, can be seen as the first line of defense against the opioid epidemic now facing the United States. The engagement and education of these community members can help in reducing the overprescribing of opioids and the prevention of abuse and illicit use. Investigations conducted by the Diversion Control Program fall into two distinct categories: the diversion of legitimately manufactured pharmaceutical controlled substances and the diversion of controlled chemicals (List I and II) used in the illicit manufacture of controlled substances. DEA's objectives for diversion control include:

- Identifying and targeting those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cybercrime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;

- Supporting the registrant population with improved technology, including e-commerce and customer support, while maintaining cooperation, support, and assistance from the regulated industry;

- Educating the public on the dangers of prescription drug abuse and proactive enforcement measures to combat emerging drug trends; and,

- Ensuring an adequate and uninterrupted supply of pharmaceutical controlled substances and listed chemicals to meet legitimate medical, commercial, and scientific needs.

Federal Prison Industries, Inc. (FPI), was created by the Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train Federal inmates through a diversified work program providing products and services to other Federal agencies. These operations are conducted in a self sustaining manner so as to maximize meaningful inmate employment opportunities and minimize the effects of competition on private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

FPI operates as a revolving fund and does not receive an annual appropriation. The majority of revenues are derived from the sale of products and services to other Federal Departments, agencies, and bureaus. Operating expenses such as the cost of raw materials and supplies, inmate wages, staff salaries, and capital expenditures are applied against these revenues resulting in operating income or loss, which is reapplied toward operating costs for future production. In this regard, FPI makes capital investments in buildings and improvements, machinery, and equipment as necessary in the conduct of its industrial operation.

In order to increase inmate work opportunities, FPI continues to explore opportunities with commercial customers. In the Consolidated and Further Continuing Appropriations Act, 2012 (P.L. 112-55), FPI received two new authorities to increase inmate employment. The first enables FPI to recapture work that would otherwise be performed outside of the United States, also known as repatriation. The second authorized FPI to participate in the Prison Industries Enhancement Certification Program, which allows FPI to partner with commercial businesses under a strict set of conditions to manufacture and sell prison-made goods in interstate commerce.

The 2019 Budget requests \$77 million for the Office of Justice Programs' (OJP) Research, Evaluation, and Statistics appropriation. This appropriation includes programs that provide grants, contracts, and cooperative agreements for research, development, and evaluation; develop and disseminate quality statistical and scientific information; and nationwide support for law enforcement agencies.

Through leadership, funding, and technical support, OJP plays a significant role in the research and evaluation of new technologies to assist law enforcement, corrections personnel, and courts in protecting the public, and guides the development of new techniques and technologies in the areas of crime prevention, forensic science, and violence and victimization research. The research and statistical data compiled by OJP staff are used at all levels of Government to guide decision making and planning efforts related to law enforcement, courts, corrections, and other criminal justice issues. Grants, technical assistance, and national leadership provided by OJP have supported efforts to provide and improve assistance to the Nation's Federal, State, local, and tribal law enforcement and criminal justice agencies.

*Research, Development, and Evaluation Program.*—The National Institute of Justice (NIJ) serves as the research and development agency of the Department of Justice, as authorized by 34 U.S.C. 10121-10123. The mission

RESEARCH, EVALUATION AND STATISTICS—Continued

of NIJ is to advance scientific research, development, and evaluation to enhance the administration of justice and public safety by providing objective, independent, evidence-based knowledge, and tools to meet the challenges of crime and justice, particularly at the State and local levels. NIJ research, development, and evaluation efforts support practitioners and policy makers at all levels of Government.

Planned activities include but are not limited to: 1) Social science research addressing, among other topics: human trafficking; evaluation of anti-gang programs; policing; crime and justice; elder abuse; and demonstration field experiments in reentry and probation; 2) Provision of criminal justice-focused technology assistance to units of State, local and tribal government; 3) Criminal justice research infrastructure investments including funding for the National Criminal Justice Reference Service and the National Archive of Criminal Justice Data; 4) Development of equipment performance standards and conduct of compliance testing to help ensure the safety and effectiveness of the equipment used by criminal justice agencies, such as body armor, restraints, holsters, and video systems; and 5) Development of new tools and technologies for law enforcement, corrections, and forensic applications, including those aimed at improving officer safety, knowledge management, and community supervision. The 2019 Budget proposes \$36 million for the Research, Development, and Evaluation Program.

**Criminal Justice Statistics Program.**—The Bureau of Justice Statistics (BJS) serves as the principal statistical Agency within the Department of Justice, as authorized by 34 U.S.C. 10131–10135, and assists State, local, and tribal Governments in enhancing their statistical capabilities. It disseminates high quality information and statistics to inform policy makers, researchers, criminal justice practitioners, and the general public. The Criminal Justice Statistics Program encompasses a wide range of criminal justice topics, including: 1) victimization; 2) law enforcement; 3) prosecution; 4) courts and sentencing; 5) corrections; 6) recidivism and reentry; 7) tribal justice statistics; 8) justice expenditures and employment; 9) international justice systems; and 10) drugs, alcohol, and crime. The 2019 Budget proposes \$41 million for the Criminal Justice Statistics Program.

**3% Research, Evaluation and Statistics Set Aside.**—The 2019 Budget requests a set-aside of up to three percent for research, evaluation, and statistics. The set-aside amount from OJP discretionary programs supports the base programs for NIJ and BJS.

**Management and Administration.**—The 2019 Budget proposes a total Management and Administration funding level of \$235.5 million for OJP. This funding level supports management and administration for OJP, including those activities formerly conducted by the Office of Community Oriented Policing Services.

The 2019 Budget requests \$983 million for the Office of Justice Programs' (OJP) State and Local Law Enforcement Assistance appropriation. Of this amount, \$233 million is derived by transfer from the Crime Victims Fund. The grant and payment programs supported by this account help American communities address high-priority criminal justice concerns such as violent crime, criminal gang activity, illegal drugs, and law enforcement officer safety. These programs, coupled with training and technical assistance activities, assist State, local, and tribal law enforcement, courts, criminal justice agencies, and faith-based and community organizations in preventing and addressing violent crime, protecting the public, and ensuring that those convicted of crimes are held accountable for their actions. OJP State and Local Law Enforcement Assistance funding will be used to support programs such as:

*Adam Walsh Act Implementation Grant Program.*—This program helps State, local, and tribal jurisdictions to develop and enhance sex offender registration and notification systems that are in compliance with the Sex Offender Registration and Notification Act through discretionary grants and technical assistance. The 2019 Budget proposes \$20 million for this program.

*Byrne Justice Assistance Grants (JAG).*—The Byrne Justice Assistance Grants program awards grants to State, local, and tribal governments to support a broad range of activities that prevent and control crime, including: law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment programs; and planning, evaluation, and technology improvement programs. The 2019 Budget proposes \$332.5 million for this program. Several well-known OJP programs, including the Bulletproof Vest Partnership Program; the VALOR Initiative, a program that promotes officer safety; and the Public Safety Partnership (formerly NCRA Network or VRN) program, are funded as carveouts under the Byrne JAG program. In FY 2019, jurisdictions will be required to dedicate a small percentage of their awards on National Incident Based Reporting System (NIBRS) compliance. NIBRS is an incident-based system used by law enforcement agencies for collecting and reporting data on crimes. DOJ plans to transition the FBI's Uniform Crime Reporting program to NIBRS only data collection by 2021.

*Victims of Trafficking.*—This program supports comprehensive and specialized services for human trafficking victims as well multidisciplinary taskforces to identify, investigate, and prosecute these types of cases. The 2019 Budget proposes \$45 million for this program.

*Residential Substance Abuse Treatment.*—This program helps States and units of local governments develop, implement, and improve residential substance abuse treatment programs in correctional facilities, and establish and maintain community-based aftercare services for probationers and parolees. Ultimately, the program's goal is to help offenders become drug-free and learn the skills needed to sustain themselves upon return to the community. The 2019 Budget proposes \$12 million for this program.

*National Criminal History Improvement Program.*—This program provides grants, training, and technical assistance that help States and Territories improve the quality, timeliness, and immediate accessibility of criminal history and related records. These records play a vital role in supporting the National Instant Criminal Background Check System (NICS) and helping Federal, State, local, and tribal law enforcement

investigate crime and promote public safety. The 2019 Budget proposes \$51 million for this program.

*Prison Rape Prevention and Prosecution Program.*—This program supports efforts to implement the National Prison Rape Elimination Act Standards and provides grants, training, and technical assistance to both grantees and the corrections field at large. This program also supports the development of a National set of measures by the Bureau of Justice Statistics describing the circumstances surrounding incidents of sexual assault in correctional institutions. The data collections provide facility-level estimates of sexual assault for a 12-month period. The 2019 Budget proposes \$15.5 million for this program.

*Drug Court Program.*—This program provides grants, training, and technical assistance to State, local, and tribal governments to support the development, expansion, and enhancement of effective drug courts. The 2019 Budget proposes \$43 million for this program.

*Justice and Mental Health Collaboration Program.*—This program provides grants, training, and technical and strategic planning assistance to help State, local, and tribal governments develop multi-faceted strategies that bring together criminal justice, social services, and public health agencies, as well as community organizations, to develop system-wide responses to the needs of mentally ill individuals involved in the criminal justice system. The 2019 Budget proposes \$10 million for this program.

*Veterans Treatment Court Program.*—This program provides grants, training, and technical assistance to State, local, and tribal governments to support the creation and development of veterans treatment courts to serve veterans struggling with addiction, serious mental illness, and/or co-occurring disorders. The 2019 Budget proposes \$6 million for this program.

*Prescription Drug Monitoring Program.*—The purpose of the Harold Rogers Prescription Drug Monitoring Program is to enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data. The 2019 Budget proposes \$12 million for this program.

*National Sex Offender Public Website.*—This program supports the maintenance and continued development of the Dru Sjodin National Sex Offender Public Website, which links the State, Territory, and tribal sex offender registries. The 2019 Budget proposes \$1 million for this program.

*Second Chance Act Program.*—This program provides grants to establish and expand various adult and juvenile offender reentry programs and funds reentry-related research. The 2019 Budget proposes \$48 million for this program. Of this total, \$6 million is for the Innovations in Supervision (formerly Smart Probation) Program to help States, localities, and Tribes develop comprehensive, innovative probation and parole supervision programs and \$5 million is for the Children of Incarcerated Parents Demonstration Grant Program. In addition, up to \$7.5 million may be used for performance-based awards for Pay-for-Success projects.

*National Instant Background Check System (NICS) Act Records Improvement Program (NARIP).*—This program provides grants to assist State and tribal governments in updating NICS with the criminal history and mental health records of individuals who are precluded from purchasing or possessing guns. The 2019 Budget proposes \$10 million for this program.

*Economic, High-technology, White Collar, and Internet Crime Prevention Program.*—This program provides grants, training, and technical assistance to support efforts to combat economic, high-technology, and Internet crimes, including intellectual property crimes of counterfeiting and piracy. The 2019 Budget proposes \$11 million for this program, including \$2.5 million for intellectual property enforcement.

*Paul Coverdell Forensic Science Improvement Grants.*—This program provides grants to States and units of local government to improve the

quality and timeliness of forensic science or medical examiner services. The 2019 Budget proposes \$10 million for this program.

*DNA-Related and Forensic Programs and Initiatives.*—This program supports a comprehensive strategy to maximize the use of forensic DNA technology in the criminal justice system. The program provides capacity building grants, training, and technical assistance to State and local governments, and supports innovative research on DNA analysis and use of forensic evidence. The 2019 Budget proposes \$105 million for this program.

*Children Exposed to Violence.*—This program supports research and provides demonstration grants and training and technical assistance, in partnership with the Department of Health and Human Services, to encourage the development of comprehensive intervention and treatment programs to assist children who are victims of, or witnesses to, violence. The 2019 Budget proposes \$8 million for this program.

*Court Appointed Special Advocate Program.*—This program ensures that abused and neglected children receive high quality, timely representation in dependency court hearings. The 2019 Budget proposes \$9 million for this program.

*Community Teams to Address the Sexual Assault Kit (SAK) Backlog.*—This program addresses a common gap in response to rape and sexual assault at the State, local, and tribal levels by promoting the timely resolution of cases associated with sexual assault kits (SAKs) that have never been submitted for forensic DNA testing or are backlogged at crime labs. Grants awarded through this program support community efforts to identify critical needs in the areas of sexual assault prevention, investigation, prosecution, and victims services, and then implement strategies to address these needs. The 2019 Budget proposes \$45 million for this program.

*Comprehensive Opioid Abuse Program (COAP).*—This program promotes a coordinated response to the growing problem of abuse and misuse of prescription opioids and heroin. COAP provides a variety of grants, training, and technical assistance to help State, local, and tribal law enforcement, first responders, and criminal justice and substance abuse agencies prevent, investigate, and respond to opioid abuse in their communities. The 2019 Budget proposes \$20 million for this program.

*Violent Gang and Gun Crime Reduction/Project Safe Neighborhoods (PSN).*—This program will create safer neighborhoods through sustained reductions in gang violence and gun crime. It is based on partnerships of Federal, State, and local agencies led by the U.S. Attorney in each Federal judicial district. This request will reinvigorate DOJ's PSN initiative by increasing support for activities at the local level. Grants will support local law enforcement agencies, outreach- and prevention service providers, and researchers for activities implementing local PSN anti-violence strategies. The 2019 Budget proposes \$70 million for this program.

*Community Oriented Policing Services (COPS) Hiring Grants.*—The 2019 Budget merges the COPS Office into OJP. The COPS hiring program provides funding to State, local and tribal law enforcement agencies to hire additional sworn law enforcement officers to be deployed in community policing activities. The 2019 Budget proposes \$99 million for this program. Within this amount, \$10 million will support the public safety needs of law enforcement and advance community policing in Native American communities, of which up to \$3 million will support the purchase of systems, systems support, and technical assistance to facilitate tribal access to law enforcement information sharing systems; \$5 million will support the collaborative reform initiative, which supports organizational transformation around specific issues; \$5 million will be used to fund training and technical assistance that supports the integration of community policing strategies throughout the law enforcement community to effectively address emerging law enforcement and community issues; \$5 million will be used for Strategies for Policing Innovation (formerly called Smart Policing) ef-

The Community Oriented Policing Services (COPS) Office administers grants and provides expertise and other assistance in advancing public safety through the implementation of community policing strategies in jurisdictions of all sizes across the country. Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime. In FY 2019, these community policing activities will be merged into the Office of Justice Programs (OJP), which provides leadership to federal, state, local and tribal systems, by disseminating state-of-the-art knowledge and practices across America by providing grants for the implementation of crime fighting strategies. Because most of the responsibility for crime control and prevention falls to law enforcement in states, cities, and neighborhoods, OJP has developed partnerships with state and local law enforcement. The transfer of community policing activities to OJP will allow the Department to centralize and strengthen the partnerships it has with its colleagues in State and Local law enforcement and to promote community policing not only through its hiring programs but also through the advancement of strategies for policing innovations and other innovative crime-fighting techniques.

The FY 2019 Budget also proposes to move the Drug Enforcement Administration's (DEA) Methamphetamine Lab Cleanup Program to the DEA Salaries and Expenses account to centralize DEA's funding streams dedicated to assisting State and local law enforcement in their communities.

The Budget requests \$485,500,000 for programs administered by the Office on Violence Against Women (OVW) to prevent and respond to violence against women and related victims. These resources are derived by transfer from the Crime Victims Fund. OVW provides national leadership against domestic violence, dating violence, sexual assault, and stalking, and supports a multifaceted approach to responding to these crimes. Funding will support the Prevention and Prosecution of Violence Against Women and Related Victim Services Program. For FY 2019, funding requested for this account will support the following initiatives:

**STOP Violence Against Women Formula Grant Program.**—The STOP Program is designed to encourage the development and strengthening of effective law enforcement and prosecution strategies to combat violent crimes against women and the development and strengthening of victim services in cases involving violent crimes against women. The 2019 Budget proposes \$215,000,000 for this program.

**Transitional Housing Assistance Program.**—Transitional Housing grants support programs that provide assistance to victims of domestic violence, dating violence, sexual assault, and stalking who are in need of transitional housing, short-term housing assistance, and related support services. The 2019 Budget proposes \$33,000,000 for this program.

**Research and Statistics on Violence Against Women (National Institute of Justice and the Bureau of Justice Statistics).**—This program supports research and statistics on violence against women. The 2019 Budget proposes \$5,000,000 for this program.

**Grants to Encourage Arrest Policies.**—This discretionary grant program is designed to encourage state, local, and tribal governments and state, local, and tribal courts to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law requiring the

coordinated involvement of the entire criminal justice system. The 2019 Budget proposes \$51,000,000 for this program.

**Homicide Reduction Initiative.**—This initiative is designed to use promising and evidence-based practices to address the urgent problem of domestic violence-related homicides by identifying high-risk offenders and providing an enhanced coordinated response to assist victims. For 2019, up to \$4,000,000 will be made available from the Grants to Encourage Arrest Policies Program.

**Domestic Violence Firearms Lethality Reduction.**—This initiative will identify and implement promising practices to improve the response of law enforcement, prosecutors, courts, and victim service providers in addressing the safety of victims in cases involving firearms. Demonstration projects will be funded in approximately 5 jurisdictions. For 2019, up to \$4,000,000 will be made available from the Grants to Encourage Arrest Program.

**Sexual Assault Services Program.**—This program provides funding for states and territories, tribes, state sexual assault coalitions, tribal coalitions, and culturally specific organizations. Overall, the purpose of this program is to provide intervention, advocacy, accompaniment, support services, and related assistance for adult, youth, and child victims of sexual assault, family and household members of victims, and those collaterally affected by sexual assault. The 2019 Budget proposes \$35,000,000 for this program.

**Rural Domestic Violence Program.**—This program enhances the safety of child, youth and adult victims of domestic violence, dating violence, sexual assault, and stalking by supporting projects uniquely designed to address and prevent these crimes in rural jurisdictions. The 2019 Budget proposes \$35,000,000 for this program.

**Grants to Reduce Violence Crimes Against Women on Campus.**—The Campus Program develops and strengthens victim services in cases involving violent crimes against women on campuses, and aims to strengthen security and investigative strategies to prevent and prosecute violent crimes against women on campuses. The 2019 Budget proposes \$20,000,000 for this program, of which \$8,000,000 is for a demonstration initiative to improve campus responses to sexual assault, dating violence, and stalking, which will include the use of campus climate surveys and will not be subject to the restrictions of section 304(a)(2).

**Legal Assistance for Victims Grant Program.**—The Legal Assistance Program increases the availability of civil and criminal legal assistance in order to provide effective aid to victims who are seeking relief in legal matters arising as a consequence of abuse or violence. The 2019 Budget proposes \$45,000,000 for this program.

**Enhanced Training and Services to End Violence Against and Abuse of Women Later in Life.**—This program provides or enhances training and services to address elder abuse, neglect, and exploitation, including domestic violence, dating violence, sexual assault, or stalking, involving victims who are 50 years of age or older. The 2019 Budget proposes \$5,000,000 for this program.

**Education and Training to End Violence Against and Abuse of Women with Disabilities Grant Program.**—The Disabilities Grant Program builds the capacity of jurisdictions to address domestic violence, dating violence, stalking and sexual assault against individuals with disabilities through the creation of multi-disciplinary teams. The 2019 Budget proposes \$6,000,000 for this program.

**Consolidation of Youth-Oriented Programming.**—This consolidated grant program consolidates the purpose areas of four programs under one competitive program. The four programs included in the consolidation include: Services to Advocate for and Respond to Youth, Grants to Assist Children and Youth Exposed to Violence, Engaging Men and Youth in Preventing Domestic Violence, and Supporting Teens through Education. This consolidation allows OVW to leverage resources for maximum impact in communities by funding comprehensive projects that include both youth service and prevention components. The 2019 Budget proposes \$11,000,000 for this program.

**Indian Country-Sexual Assault Clearinghouse.**—This funding will support the establishment and maintenance of a national clearinghouse on the sexual assault of American Indian and Alaska Native women. This project will offer a one-stop shop for tribes to request free on-site training and technical assistance. The 2019 Budget proposes \$500,000 for this program.

**National Resource Center on Workplace Response.**—The Violence Against Women Act of 2005 provided for an award to establish and operate a national resource center on workplace responses to assist victims of domestic and sexual violence. The center will provide information and assistance to employers and labor organizations to better equip them to respond to victims. The 2019 Budget proposes \$500,000 for this program.

**Grants to Support Families in the Justice System.**—This funding will provide comprehensive support to victims of domestic violence and child sexual abuse and their families in family law matters in the civil justice system, including safe visitation and exchange services, improved court responses, and legal assistance to victims, protective parents, and their children. This program represents a consolidation of the Safe Havens and Court Training and Improvements program. The 2019 Budget proposes \$16,000,000 for this program.

**Tribal Special Domestic Violence Criminal Jurisdiction.**—This grant program for tribal governments was first authorized in the Violence Against Women Reauthorization Act of 2013 (VAWA 2013). VAWA 2013 included an historic provision that recognizes the inherent power of "participating tribes" to exercise "special domestic violence criminal jurisdiction" over both Indians and non-Indians who assault Indian spouses, intimate partners, or dating partners, or who violate protection orders, in Indian country. To support tribes that chose to participate, the Act authorizes funding to strengthen tribal criminal justice systems, provide indigent defense counsel, develop appropriate jury pools, and assist victims. The 2019 Budget proposes \$4,000,000 for this program.

**Rape Survivor Child Custody Act Program.**—Directs the Attorney General to make grants to states that have in place a law that allows the mother of any child that was conceived through rape to seek court-ordered termination of the parental rights of her rapist with regard to that child, which the court shall grant upon clear and convincing evidence of rape. The 2019 Budget proposes \$2,500,000 for this program.

For 2019, funding requested for this account also will support Analysis and Research on Violence Against Indian Women, a program that is administered by the Office of Justice Programs and supports comprehensive research on violence against Native American women. The 2019 Budget proposes \$1,000,000 for this program.

**Management and Administration.**—Within total grants funding, \$19.8 million will be provided for management and administration costs.

The 2019 Budget requests \$229.5 million for the Office of Justice Programs' (OJP) Juvenile Justice Programs. Of this amount, \$169 million is derived by transfer from the Crime Victims Fund. This appropriation account includes programs that support state, local, and tribal community efforts to prevent juvenile delinquency and crime and promote interventions that reduce recidivism among youth involved in the justice system. These programs also help states and communities improve their juvenile justice systems in ways that protect public safety, hold accountable youth involved in the justice system, and provide treatment and rehabilitative services that help youth become productive members of society.

The 2019 request includes support for programs such as:

**Part B: Formula Grants.**—This program supports state, local, and tribal efforts to develop and implement comprehensive juvenile justice plans; monitor and evaluate the effectiveness of their juvenile justice programs; and provide training and technical assistance to improve the performance of juvenile justice programs. The 2019 Budget proposes \$58 million for this program.

**Youth Mentoring.**—This program helps faith- and community-based, nonprofit, and for-profit organizations expand and enhance existing mentoring strategies and programs. It also helps these organizations develop and implement new mentoring strategies and programs designed for youth involved in the justice, reentry, and foster care systems. The 2019 Budget proposes \$58 million for this program.

**Delinquency Prevention Program.**—This program provides resources through state advisory groups to units of local government for a broad range of delinquency prevention programs and activities to benefit youth who are at risk of having contact with the juvenile justice system. The 2019 Budget proposes \$17 million for this program.

**Missing and Exploited Children Program.**—This program supports efforts to prevent the abduction and exploitation of children, including funding for the National Center for Missing and Exploited Children, as well as for the Internet Crimes Against Children and AMBER Alert Programs. The 2019 Budget proposes \$72 million for this program.

**Victims of Child Abuse Act.**—The Improving Investigation and Prosecution of Child Abuse Program supports training and technical assistance to professionals involved in investigating, prosecuting, and treating child abuse. This program also supports the development of Children's Advocacy Centers and other multi-disciplinary teams that prevent the inadvertent re-victimization of an abused child by justice and social service systems in their efforts to protect the child. The 2019 Budget proposes \$20 million for this program.

**Child Abuse Training Programs for Judicial Personnel and Practitioners Program.**—This program supports training and technical assistance to improve the judicial system's handling of child abuse, neglect, and related cases, as authorized under the Victims of Child Abuse Act, 34 U.S.C. Section 20332. The 2019 Budget proposes \$2 million for this program.

**Improving Juvenile Indigent Defense Program.**—This program provides funding and other resources to develop effective, well-resourced model juvenile indigent defender offices; and develop and implement standards of practice and policy for the effective management of such offices. The 2019 Budget proposes \$2.5 million for this program.

The 2019 Budget is requesting \$131.3 million for the Office of Justice Programs' Public Safety Officers' Benefits (PSOB) Program, of which \$115 million is a permanent indefinite (mandatory) appropriation for death benefits and \$16.3 million is a discretionary appropriation for disability and education benefits. This appropriation account supports programs that provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a partnership between the Department of Justice, national public safety organizations, and public safety agencies at the state, local, and tribal levels. The PSOB program oversees three types of benefits:

**Death Benefits.**—This program provides a one-time financial benefit to survivors of public safety officers whose deaths resulted from injuries sustained in the line of duty.

**Disability Benefits.**—This program offers a one-time financial benefit to public safety officers permanently disabled by catastrophic injuries sustained in the line of duty.

**Education Benefits.**—This program provides financial support for higher education expenses to the eligible spouses and children of public safety officers killed or permanently disabled in the line of duty.

Programs supported by the Crime Victims Fund (CVF) provide compensation to victims of crime and survivors; support appropriate victims' services programs and victimization prevention strategies; and build capacity to improve response to crime victims' needs and increase offender accountability. The Fund was established to address the need for victim services programs, and to assist State, local, and tribal governments in providing appropriate services to their communities. The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Federal crimes. The 2019 Budget proposes to provide \$2.953 billion from collections and balances for crime victim compensation, services, and related needs. Of this amount, the Budget proposes to use \$25 million for Vision 21, which provides supplemental victims services and other victim-related programs and initiatives in areas like: research, legal services, capacity building, national and international victim assistance; \$10 million to support oversight of Crime Victims Fund awards by the Department's Office of the Inspector General; and a set-aside of up to five percent for grants and other assistance to Indian tribes to improve services

for victims of crime. Further, of the amounts available for obligation in 2019, \$485.5 million is for transfer to the Office on Violence Against Women and \$402 million is for transfer to the Office of Justice Programs. Up to three percent of funds available from the fund for obligation may be made available to the National Institute of Justice and the Bureau of Justice Statistics for research, evaluation, or statistical purposes related to crime victims and related programs. The budget includes a cancellation of CVF balances of \$2,503 million.

Enacted in 2014, the Workforce Innovation and Opportunity Act (WIOA) is the primary authorization for this appropriation account. The Act is intended to provide job seekers and workers with the labor market information, job search assistance, and training they need to get and keep good jobs, and to provide employers with skilled workers. Funds appropriated for this account generally are available on a July to June program year basis, and include substantial advance appropriation amounts. This account includes:

*Adult employment and training activities.*—Grants to provide financial assistance to States and territories to design and operate training and employment assistance programs for adults, including low-income individuals and public assistance recipients.

*Youth activities.*—Grants to support a wide range of activities and services to prepare low-income youth for academic and employment success, including summer and year-round jobs. The program links academic and occupational learning with youth development activities.

*Dislocated worker employment and training activities.*—Grants to provide reemployment services and retraining assistance to individuals dislocated from their employment.

*Reintegration of Ex-Offenders.*—Supports activities authorized under the Second Chance Act to help individuals exiting prison make a successful transition to community life and long-term employment through mentoring, job training, and other services. Using the authority of section 169 of the WIOA, the Department also provides competitive grants for a range of young ex-offenders and school dropouts, particularly those in high-poverty, high-crime areas with similar services. The Administration intends to devote funds to test and replicate evidence-based strategies for young ex-offenders. The Department of Labor will continue to coordinate closely with the Department of Justice and other relevant Agencies in carrying out the Ex-Offender program.

*Apprenticeship.*—Activities that support and expand apprenticeship programs at the state and local levels through a range of activities, such as state-specific outreach strategies, partnerships, economic development strategies, and expanded access to apprenticeship opportunities for under-represented populations through pre-apprenticeships and career pathways.

*YouthBuild.*—Grants that impart education and occupational skills to program participants by providing them with academic training and occupational skills training, providing a clear path into a chosen career field.

*Technical Assistance.*—Technical assistance activities to support WIOA implementation, including maintenance of the Eligible Training Provider scorecard.

Established in 1964 as part of the Economic Opportunity Act and authorized by the Workforce Innovation and Opportunity Act of 2014 (P.L. 113–128, Title 1, Subtitle C, section 141), Job Corps is the nation's largest federally-funded, primarily residential, training program for at-risk youth. Job Corps provides economically disadvantaged youth with academic, career technical and marketable skills to enter the workforce, enroll in post-secondary education, or enlist in the military. Job Corps participants must be economically disadvantaged youth, between the ages of 16–24, and meet one or more of the following criteria: basic skills deficient; a school dropout; homeless, a runaway, or a foster child; a parent; or in need of additional education, vocational training, or intensive counseling and related assistance in order to participate successfully in regular schoolwork or to secure and hold employment.

Large and small businesses, nonprofit organizations, Native American organizations and Alaskan Native corporations manage and operate the majority of the Job Corps centers through contractual agreements with the Department of Labor, while the remaining centers are operated through an interagency agreement with the U.S. Department of Agriculture.

In accordance with the Administration's vision of a smaller, more effective Job Corps program, the FY 2019 Budget proposes to refocus the resources of Job Corps on centers that have had more success in training and preparing youth for future careers. The FY 2019 Budget proposes to end USDA's involvement in the Job Corps program, given that workforce development is not a core part of the agency's mission. The Budget also signals the Administration's intent to close chronically low performing contractor-operated centers and centers with severely dilapidated facilities. The Budget prioritizes enrollment for students age 20 and older, for whom the program has been proven to be more effective.

Community Service Employment for Older Americans (CSEOA), authorized by Title V of the Older Americans Act as amended in 2006 (P.L. 109-365), is a federally-sponsored community service employment and training program for unemployed low-income individuals, ages 55 and older. The program is proposed for elimination because it fails to meet its major statutory goals of fostering economic self-sufficiency and moving low-income seniors into unsubsidized employment.

*Unemployment compensation.*—State administration amounts provide administrative grants to State agencies that pay unemployment compensation to eligible workers and collect State unemployment taxes from employers. These agencies also pay unemployment benefits to former Federal personnel and ex-servicemembers as well as trade readjustment allowances to eligible individuals. State administration amounts also provide administrative grants to State agencies to improve the integrity and financial stability of the unemployment compensation program through a comprehensive performance management system, UI Performs. The purpose is to effect continuous improvement in State performance and implement activities designed to reduce errors and prevent fraud, waste, and abuse in the payment of unemployment compensation benefits and the collection of unemployment taxes. National activities relating to the Federal-State unemployment insurance programs are conducted through contracts or agreements with the State agencies or non-State entities. A workload contingency reserve is included in State administration to meet increases in the costs of administering the program resulting from increases in the number of unemployment claims filed and paid. The appropriation automatically provides additional funds whenever unemployment claims workloads increase above levels specified in the appropriations language.

*Employment service.*—The public employment service is a nationwide system providing no-fee employment services to job-seekers and employers. State employment service activities are financed by grants provided by formula to States. Funding allotments are provided annually on a Program Year basis beginning July 1 and ending June 30 of the following year.

Employment service activities serving national needs are conducted through specific reimbursable agreements between the States and the Federal Government under the Wagner-Peyser Act, as amended, and other legislation. States also receive funding under this activity for administration of the Work Opportunity Tax Credit, as well as for amortization payments for those States that had independent retirement plans prior to 1980 in their State employment service agencies.

Years are program years running from July 1 of the year indicated through June 30 of the following year.

*Foreign Labor Certification.*—This activity provides for the administration and operation of the foreign labor certification programs within the Employment and Training Administration. Under these programs, U.S. employers that can demonstrate a shortage of qualified, available U.S. workers and that there would be no adverse impact on similarly situated U.S. workers may seek the Secretary of Labor's certification as a first step in the multi-agency process required to hire a foreign worker to fill critical permanent or temporary vacancies. Major programs include the permanent, H-2A temporary agricultural, H-2B temporary non-agricultural, and H-1B temporary highly skilled worker visas. The account is divided into Federal and State activities.

*Federal Administration.*—Federal Administration provides leadership, policy, budget, program operations including staffing (Federal and contractors), information technology, three national processing center facilities, and operational direction to Federal activities supporting the effective and efficient administration of foreign labor certification programs.

*State grants.*—Provides grants to State workforce agencies in 54 States and U.S. territories funding employment-related activities required for the administration of Federal foreign labor certification programs. Includes

State Workforce Agency posting and circulation of job orders and other assistance to employers in the recruitment of U.S. workers, processing of employer requests for prevailing wage determinations for the permanent and temporary programs, State safety inspection of housing provided by employers to workers, and State development of prevailing wage and prevailing practice surveys used to set wages and standards in a defined geographic area.

*American Job Centers.*—These funds are used to support the joint Federal-State efforts to improve the comprehensive American Job Center system authorized under WIOA. This system provides workers and employers with quick and easy access to a wide array of enhanced career development and labor market information services.

*National Agricultural Workers Survey fee.*—The Department of Labor conducts the National Agricultural Workers Survey (NAWS), which collects information annually about the demographic, employment, and health characteristics of the U.S. crop labor force. The information is obtained directly from farm workers through face-to-face interviews.

The Budget proposes authorizing legislation to establish and retain fees to cover the costs of operating the foreign labor certification programs,

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE  
OPERATIONS—Continued

which ensure that employers proposing to bring in immigrant workers have checked to ensure that American workers cannot meet their needs and that immigrant workers are being compensated appropriately and not disadvantaging American workers. The ability to charge fees for these programs would give the Department of Labor a more reliable, workload-based source of funding for this function (as the Department of Homeland Security has), and would ultimately eliminate the need for discretionary appropriations. The proposal includes the following: 1) charge employer fees for its prevailing wage determinations; 2) charge employer fees for its permanent labor certification program; 3) charge employer fees for H-2B non-agricultural workers; and 4) retain and adjust the H-2A agricultural worker application fees currently deposited into the General Fund. The fee levels, including possible expedited processing fees, would be set via regulation to ensure that the amounts are subject to review. Given DOL OIG's important role in investigating fraud and abuse, the proposal also includes a mechanism to provide funding for OIG's work to oversee foreign labor certification programs.

This account provides for general fund financing of extended unemployment benefit programs under certain statutes. It is also the mechanism used to make general fund reimbursements for some or all of the benefits and administrative costs incurred for temporary Federal programs. These funds are transferred from the Payments to the Unemployment Trust Fund account to a receipt account in the Unemployment Trust Fund (UTF) so that resources may be transferred to the Employment Security Administration Account in the UTF for administrative costs or to the Extended Unemployment Compensation Account in the UTF for benefit costs.

The Middle Class Tax Relief and Job Creation Act of 2012 codified and expanded the definition of Short Time Compensation (STC), also known as work sharing. As an incentive for states to enact state STC programs and promote the use of STC, the Act provided for 100 percent reimbursement of STC benefit costs paid under state law for up to 156 weeks, or three years. Grant funding was also available to states whose permanent STC laws meet the new Federal definition.

This account provides mandatory general revenue funding for a temporary program established under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) and subsequently extended. This program paid a supplement of \$25 on every week of unemployment compensation. It was last extended in Public Law 111-157 and paid benefits through its December 7, 2010, with a phaseout period. As a result of adjudications, benefits continue to be paid but are minimal.

ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS

For repayable advances to the Unemployment Trust Fund as authorized by sections 905(d) and 1203 of the Social Security Act, and to the Black Lung Disability Trust Fund as authorized by section 9501(c)(1) of the Internal Revenue Code of 1986; and for nonrepayable advances to the revolving fund established by section 901(e) of the Social Security Act, to the Unemployment Trust Fund as authorized by 5 U.S.C. 8509, and to the "Federal Unemployment Benefits and Allowances" account, such sums as may be necessary, which shall be available for obligation through September 30, 2020.

This appropriation makes available funding for repayable advances (loans) to two accounts in the Unemployment Trust Fund (UTF): the Extended Unemployment Compensation Account (EUCA) which pays the Federal share of extended unemployment benefits, and the Federal Unemployment Account (FUA) which makes loans to States to fund unemployment benefits. In addition, the account has provided repayable advances to the Black Lung Disability Trust Fund (BLDTF) when its balances proved insufficient to make payments from that account. The BLDTF now has authority to borrow directly from the Treasury under the trust fund debt restructuring provisions of Public Law 110–343. Repayable advances are shown as borrowing authority within the UTF or the BLDTF, and they do not appear as budget authority or outlays in the Advances to the Unemployment Trust Fund and Other Funds account.

This appropriation also makes available funding as needed for nonrepayable advances to the Federal Employees Compensation Account (FECA) to pay the costs of unemployment compensation for former Federal employees and ex-servicemembers, and to the Federal Unemployment and Benefits and Allowances (FUBA) account to pay the costs of benefits and services under the Trade Adjustment Assistance for Workers (TAA) program. These advances are shown as budget authority and outlays in the Advances account. The 2014 appropriations language included new authority for nonrepayable advances to the revolving fund for the Employment Security Administration Account (ESAA) in the Unemployment Trust Fund. In turn, this revolving fund may provide repayable, interest-bearing advances to the ESAA account if it runs short of funds, and the borrowing authority will enable ESAA to cover its obligations despite seasonal variations in the account's receipts.

Advances were needed for the FUA and EUCA accounts in fiscal year 2014, and the Department estimates that no advances will be necessary in 2018 and 2019. Detail on the nonrepayable advances is provided above; detail on the repayable advances is shown separately in the UTF account.

To address the potential need for significant, and somewhat unpredictable advances to various accounts, the Congress appropriates such sums as necessary for advances to all of the potential recipient accounts. The fiscal year 2019 request continues this authority.

PROGRAM ADMINISTRATION

For expenses of administering employment and training programs, \$104,623,000, together with not to exceed \$49,642,000 which may be expended from the Employment Security Administration Account in the Unemployment Trust Fund.

Note.—A full-year 2018 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2018 (Division D of P.L. 115–56, as amended). The amounts included for 2018 reflect the annualized level provided by the continuing resolution.

ADVANCES TO THE EMPLOYMENT SECURITY ADMINISTRATION ACCOUNT OF THE  
UNEMPLOYMENT TRUST FUND

This account is a revolving fund that is available to make advances to the Employment Security Administration Account (ESAA) in the Unemployment Trust Fund under the provisions of section 901(e) of the Social Security Act. These repayable, interest-bearing advances permit financing of the Federal and State administrative costs of employment security programs when the balance in ESAA is insufficient. The borrowing authority also enables ESAA to cover its obligations despite seasonal variations in the account's receipts.

The financial transactions of the Federal-State and railroad unemployment insurance systems are made through the Unemployment Trust Fund (UTF). The UTF has one account for the railroad unemployment insurance system but for the Federal-State unemployment insurance system there are 57 separate accounts: one for each of the 50 states, three jurisdictions (District of Columbia, Puerto Rico, Virgin Islands) and four federal accounts. The state and jurisdiction accounts receive funds from a state unemployment insurance payroll tax which is used to pay benefits. The Federal Unemployment Tax Act (FUTA) payroll tax provides funds for two of the Federal accounts - the Employment Security Administration Account (ESAA) and the Extended Unemployment Compensation Account (EUCA) while the remaining two, the Federal Unemployment Account (FUA) and the Federal Employee Compensation Account (FECA) are revolving accounts.

Except for FECA balances, funds on deposit in the UTF accounts are invested in Government securities until needed for payment of benefits or administrative expenses. FUTA is deposited in the ESAA which retains 80 percent of the deposit and pays the costs of Federal and State administration of the unemployment insurance system, veterans' employment services, surveys of wages and employment, foreign labor certifications and about 97 percent of the costs of the Employment Service. The other 20 percent of FUTA is transferred to EUCA which pays for certain extended benefit (EB) payments. During periods of high State unemployment, there is a stand-by program of EB, financed one-half by State unemployment taxes and one-half by the FUTA payroll tax.

The UTF also provides repayable advances (loans) to the States and jurisdictions from FUA when the balances in their individual accounts are insufficient to pay benefits. Federal accounts in the UTF may receive repayable advances from the general fund when they have insufficient balances to make advances to States, pay the Federal share of extended unemployment benefits, or pay for State and Federal administrative costs.

The Federal Employees Compensation Account (FECA) in the UTF provides funds to States for unemployment compensation benefits paid to eligible former Federal civilian personnel, Postal Service employees, and ex-servicemembers. In turn, the various Federal agencies reimburse FECA for benefits paid to their former employees. FECA is not funded out of Federal unemployment taxes. Any additional resources necessary to assure that the FECA account can make the required payments to States are provided from the Advances to the Unemployment Trust Fund and Other Funds appropriation.

Both the benefit payments and administrative expenses of the separate unemployment insurance program for railroad employees are paid from the UTF, and receipts from a tax on railroad payrolls are deposited into the program's account in the UTF to meet expenses.

**Minimum Solvency Standard.**—Since the end of the most recent recession, many states continue to struggle to maintain adequate Unemployment Insurance (UI) Trust Fund balances. The Budget includes a proposal to add a minimum solvency standard in the UI program to help address the challenge states face in maintaining sufficient balances in their Unemployment Trust Fund accounts. This proposal would strengthen states' incentive to adequately fund their UI systems by making states that fail to maintain an Average High-Cost Multiple (AHCM) of 0.5 for two consecutive January

firsts subject to FUTA tax credit reductions under the same schedule that states which go below a zero trust fund balance face currently.

**UI Program Integrity Package.**—The Budget includes a package of program integrity proposals similar to those included in the proposed Unemployment Compensation Program Integrity Act, which the Department previously sent to Congress in response to the UI program's three consecutive years of high improper payment rates. Specifically, the package includes the following proposals:

**Require states to use SIDES.**—This proposal will require state UI agencies to use the State Information Data Exchange System (SIDES) to exchange information with employers concerning reasons for a claimant's separation from employment.

**Require states to cross-match against the NDNH.**—This proposal will require state UI agencies to use the National Directory for New Hires in their claims to better identify individuals continuing to claim unemployment compensation after returning to work, one of the leading root causes of UI improper payments.

**Allow the Secretary of Labor to establish UI corrective actions.**—This proposal will allow the Secretary of Labor to require states to implement corrective action measures for poor state performance in the UI program, helping to reduce improper payments in states with the highest improper payment rates. Currently, the Secretary has very limited options to require state UI agencies to take actions to respond to poor performance and high improper payment rates.

**Require states to cross-match with SSA's prisoner database.**—Under current law, state UI agencies' use of cross-matches is permissible and the Social Security Administration's (SSA) Prisoner Update Processing System (PUPS) is currently only used by some states for UI verification. Requiring states to cross-match claims against the PUPS or other repositories of prisoner information will help identify those individuals ineligible for benefits due to incarceration and reduce improper payments.

**Allow states to retain 5 percent of UI overpayments for program integrity use.**—This proposal will allow States to retain 5 percent of overpayment recoveries to fund program integrity activities in each state's UI program. This provides an incentive to states to increase detection and recovery of improper payments and provides necessary resources to carry out staff-intensive work to validate crossmatch hits as required by law.

**Require states to use penalty and interest collections solely for UI administration.**—This proposal will require states to deposit all penalty and interest payments collected through the UI program into the state's Unemployment Trust Fund account and require the funds be used for improving state administration of the UI program and reemployment services for UI claimants. States with high improper payment rates would be required to use a portion of the funds for program integrity activities. Currently, states have discretion to use these funds for non-UI purposes.

**Reemployment Services and Eligibility Assessments (RESEA).**—The Budget includes a proposal to make the RESEA program a permanent program that states are required to operate in conjunction with their UI program. It will provide mandatory funding to states to provide RESEAs for the one-half of UI claimants profiled as most likely to exhaust benefits and for transitioning veterans receiving Unemployment Compensation for Ex-servicemembers (UCX) benefits. Funding for this proposal will begin in 2020; discretionary funding for these activities is provided in 2019.

**Offset Overlapping UI and Disability Insurance Benefits.**—The Budget includes a proposal to reduce an individual's entitlement to a Disability Insurance benefit in any month in which the individual also receives an unemployment compensation benefit.

**Paid Parental Leave.**—The Budget includes a proposal to establish a Federal-state paid parental leave benefit program within the unemployment insurance (UI) program that would begin in 2021. The program will provide six weeks of benefits for mothers, fathers, and adoptive parents. The benefit

is provided to help families recover from childbirth and to bond with their new children.

**EMPLOYEE BENEFITS SECURITY ADMINISTRATION**

*Federal Funds*

**SALARIES AND EXPENSES**

For necessary expenses for the Employee Benefits Security Administration, \$189,500,000, of which up to \$3,000,000 shall be made available through September 30, 2020, for the procurement of expert witnesses for enforcement litigation.

Note.—A full-year 2018 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Continuing Appropriations Act, 2018 (Division D of P.L. 115-56, as amended). The amounts included for 2018 reflect the annualized level provided by the continuing resolution.

The Pension Benefit Guaranty Corporation (PBGC) is a Federal corporation established under the Employee Retirement Income Security Act of 1974, as amended. It guarantees payment of basic pension benefits earned by about 40,000,000 American workers and retirees in two separate insurance programs. The Single-Employer Program protects about 30,000,000 workers and retirees in over 22,500 pension plans. The Multiemployer Program protects over 10,000,000 workers and retirees in about 1,400 pension plans. The Corporation receives no funds from general tax revenues. Operations are financed by insurance premiums paid by plans or the companies that sponsor them, investment income, and, in the Single-Employer Program, assets from terminated plans and recoveries of plan underfunding in sponsor bankruptcies. PBGC is requesting \$445,363,000 in spending authority for administrative purposes in fiscal year 2019.

*Protecting Multiemployer Participants.*—The Budget will include proposed changes to PBGC's Multiemployer Program premiums that would raise about \$16,000,000,000 over the budget window.

The Budget proposes that these revenues would be raised by creating a variable-rate premium (VRP) and an exit premium in the Multiemployer Program. A multiemployer VRP would require plans to pay additional premiums based on their level of underfunding, up to a cap, as is done in the Single-Employer Program. An exit premium, equal to ten times the variable-rate premium cap, would be assessed on employers that withdraw from a multiemployer plan to compensate the Multiemployer program for the additional risk imposed on it when employers exit. PBGC would have limited authority to design waivers for some or all of the variable rate premiums assessed to terminated plans or ongoing plans that are in critical status, if there is a substantial risk that the payment of premiums will accelerate plan insolvency resulting in earlier financial assistance to the plan. Aggregate waivers for a year would be limited to 20% of anticipated total multiemployer variable rate premiums for all plans. This level of premiums is expected to be sufficient to fund the Multiemployer Program for the next 20 years.

The Budget also calls for the repeal of provisions accelerating fiscal year 2026 premiums into fiscal year 2025 and repeals the requirement for certain multiemployer premium revenues to be held in non-interest bearing investments.

*Plan Preservation Efforts.*—PBGC works to preserve plans and keep pension promises in the hands of the employers who make them. When companies undertake major transactions that might threaten their ability to pay pensions, PBGC negotiates protections for their pension plans. Last year, PBGC worked with dozens of companies, both in bankruptcy and otherwise, to preserve their plans that were at risk. In 2017, PBGC:

—Helped to protect more than 26,700 people by taking action in bankruptcy cases to encourage companies to keep their plans when they emerged from bankruptcy; and

—Paid \$141 million in financial assistance to 72 insolvent multiemployer plans.

*Stepping in to Insure Pensions When Plans Fail.*—When plans do fail, PBGC steps in to ensure that basic benefits continue to be paid. Over the years, PBGC has become responsible for almost 1,500,000 people in over 4,800 failed plans. In 2017, PBGC:

- Paid \$5,700,000,000 to almost 840,000 retirees from 4,845 failed single-employer plans;
- Assumed responsibility for 23,000 people in 82 trustee single-employer plans; and
- Started paying benefits to nearly 14,000 retirees in single-employer plans.

*Single-employer benefit payments.*—The single-employer program protects about 30,000,000 workers and retirees in over 22,500 pension plans. Under this program, a company may voluntarily seek to terminate its plan, or PBGC may voluntarily seek to terminate its plan, or PBGC may seek termination. The PBGC must seek termination when a plan cannot pay current benefits. A plan that cannot pay all benefits may be ended by a "distress" termination, but only if the employer meets tests proving severe financial distress, such as proving that continuing the plan would force the company to go out of business. If a terminated plan cannot pay at least the PBGC-guaranteed level of benefits, PBGC uses its funds to ensure that guaranteed benefits are paid. A sponsor may terminate a plan in a "standard" termination only if plan assets are sufficient to pay all benefits. In a standard termination, the sponsor closes out the plan by purchasing annuities from an insurance company or by paying benefits in a lump sum.

*Multiemployer financial assistance.*—The multiemployer insurance program protects over 10,000,000 workers and retirees in about 1,400 pension plans. Multiemployer pension plans are maintained under collective bargaining agreements involving unrelated employers, generally in the same industry. If a PBGC-insured multiemployer plan is unable to pay guaranteed benefits when due, the PBGC will provide the plan with financial assistance (a loan to the plan) to continue paying guaranteed benefits.

*Investment management fees*—PBGC contracts with professional financial services corporations to manage Trust Fund assets in accordance with an investment strategy approved by PBGC's Board of Directors. Investment management fees are driven by the amount of assets under management. They are a direct, programmatic expense required to maintain the Trust Fund which supports single-employer benefit payments.

*Consolidated Administrative Budget.*—PBGC's administrative budget comprises all expenditures and operations that support:

- Benefit payments to pension plan participants;
- Financial assistance to distressed multiemployer pension plans; and
- Stewardship and accountability.

These operations include premium collections, pre-trusteeship work, efforts to preserve pension plans, recovery of assets from former plan sponsors, and pension insurance program protection activities. This area also covers the expenditures that support activities related to trusteeship; plan asset management (excluding investment management fees) and trust accounting; as well as benefit payments and administration services. Finally, this area includes the administrative functions covering procurement, financial management, human resources, facilities management, communications, legal support, and information technology infrastructure. These funds support the operations of the Participant and Plan Sponsor Advocate. They also support the required functions and efforts of the Office of the Inspector General, including training and participation in Council of the Inspector Generals on Integrity and Efficiency (CIGIE) activities.

The Budget proposes to create a new variable rate premium (VRP) and an exit premium in the Multiemployer Program, estimated to raise an additional \$16 billion in premium revenue over the budget window. This level of additional Multiemployer premium revenue is expected to be sufficient to fund the Multiemployer Program for the next 20 years.

*Federal Employees' Compensation Act benefits.*—The Federal Employees' Compensation Act program provides monetary and medical benefits to Federal workers who sustain work-related injury or disease. Not all benefits are paid by the program, since the first 45 days of disability are usually covered by keeping injured workers in pay status with their employing agencies (the continuation-of-pay period). A workers' compensation case is created following the receipt of an injury report or claim for occupational disease. In 2019, the FECA Program projects to create 109,200 cases for Federal workers or their survivors; 17,000 Federal employees are projected to submit initial wage-loss claims; and 39,400 are projected to receive long-term wage replacement benefits for job-related injuries, diseases, or deaths. Most of the costs of this account are charged back to the beneficiaries' employing agencies.

*Longshore and Harbor Workers' Compensation Act benefits.*—Under the Longshore and Harbor Workers' Compensation Act, as amended, the Federal Government pays from direct appropriations one-half of the increased benefits provided by the amendments for persons on the rolls prior to 1972. The remainder is provided from the Special Workers' Compensation Fund which is financed by private employers, and is assessed at the beginning of each calendar year for their proportionate share of these payments.

The 2019 Budget incorporates longstanding Government Accountability Office, Congressional Budget Office, and Labor Inspector General recommendations to improve and update the Federal Employees' Compensation Act (FECA). The last major amendments to FECA were made in 1974. The Administration proposes changes that generate cost savings by simplifying FECA benefit rates, introducing controls to prevent fraud and limit improper payments, and modernizing benefit administration. The proposal would reform the FECA program prospectively to simplify benefits to provide a single compensation rate at 66 2/3 percent of the injured workers' pay; reduce benefit levels at full Social Security Administration retirement age; prevent retroactive election of FECA benefits after claimants have declined them in favor of federal retirement; apply a consistent waiting period for compensation for all covered employees; increase benefits for funeral expenses and severe disfigurement; suspend payments to indicted medical providers; and make other changes to improve program integrity.

SPECIAL BENEFITS—Continued

and reduce improper payments. These reforms would produce 10-year government-wide savings of more than \$885 million, and approximately \$117 million in net savings.

*Energy Employees Compensation Act benefits.*—The Department of Labor is delegated responsibility to adjudicate and administer claims for benefits under the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA). In July 2001, the program began accepting claims from employees or survivors of employees of the Department of Energy (DOE) and of private companies under contract with DOE who suffer from a radiation-related cancer, beryllium-related disease, or chronic silicosis as a result of their work in producing or testing nuclear weapons. The Act authorizes a lump-sum payment of \$150,000 and reimbursement of medical expenses. This program is EEOICPA Part B.

The Ronald Reagan National Defense Authorization Act of 2005 (P.L. 108-767) amended EEOICPA, giving DOL responsibility for a new program (Part E) to pay workers' compensation benefits to DOE contractors and their families for illness and death arising from toxic exposures in DOE's nuclear weapons complex. This law also provides compensation for uranium workers covered under section 5 of the Radiation Exposure Compensation Act. Benefit payments under Part E began in 2005.

*Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA) administration.*—Under Executive Order 13179 the Secretary of Labor is assigned primary responsibility for administering the EEOICPA program, while other responsibilities have been delegated to the Departments of Health and Human Services (HHS), Energy (DOE), and Justice (DOJ). The Office of Workers' Compensation Programs (OWCP) in the Department of Labor (DOL) is responsible for claims adjudication, and award and payment of compensation and medical benefits. DOL's Office of the Solicitor provides legal support and represents the Department in claimant appeals of OWCP decisions. HHS is responsible for developing individual dose reconstructions to estimate occupational radiation exposure,

and developing regulations to guide DOL's determination of whether an individual's cancer was caused by radiation exposure at a DOE or atomic weapons facility. DOE is responsible for providing exposure histories at employment facilities covered under the Act, and other employment information. DOJ assists claimants who have been awarded compensation under the Radiation Exposure Compensation Act to file for additional compensation, including medical benefits, under EEOICPA.

The Ronald Reagan National Defense Authorization Act of 2005 (P.L. 108–767) amended EEOICPA, giving DOL responsibility for a new program (Part E; the program described above is Part B) to pay workers' compensation benefits to DOE contractors and their families for illness and death arising from toxic exposures in DOE's nuclear weapons complex. This law also provides compensation for uranium workers covered by the Radiation Exposure Compensation Act.

The Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act of 2015 (P.L. 113–291) amended EEOICPA to include Section 3687, creating the Advisory Board on Toxic Substances and Worker Health to advise the Secretary of Labor (as delegated by Executive Order 13699) with respect to technical aspects of the EEOICPA program. The Advisory Board is charged with advising the Secretary on four statutorily-specific technical issues related to EEOICPA: DOL's site exposure matrices; medical guidance for claims examiners; evidentiary requirements for claims under subtitle B related to lung disease; and the work of industrial hygienists and staff physicians and consulting physicians to ensure quality, objectivity, and consistency.

Title IV of the Federal Mine Safety and Health Act authorizes monthly benefits to coal miners disabled due to coal workers' pneumoconiosis (black lung), and to their widows and certain other dependents. Part B of the Act assigned the processing and paying of claims filed between December 30, 1969 (when the program originated) and June 30, 1973 to the Social Security Administration (SSA). P.L. 107–275 transferred Part B claims processing and payment operations from SSA to the Department of Labor's Office of Workers' Compensation Programs. This change was implemented on October 1, 2003.

This fund was established to provide for the accumulation of funds to meet the Panama Canal Commission's obligations to defray costs of workers' compensation which will accrue pursuant to the Federal Employees' Compensation Act (FECA). On December 31, 1999, the Commission was dissolved as set forth in the Panama Canal Treaty of 1977; however, the liability of the Commission for payments beyond that date did not end with its termination. The establishment of this fund, into which funds were deposited on a regular basis by the Commission, was in conjunction with the transfer of the administration of the FECA program from the Commission to the Department of Labor, effective January 1, 1989.

The trust fund consists of all monies collected from the coal mine industry under the provisions of the Black Lung Benefits Revenue Act of 1981, as amended by the Consolidated Omnibus Budget Reconciliation Act of 1985, in the form of an excise tax on mined coal. These monies are expended to pay compensation, medical, and survivor benefits to eligible miners and their survivors, where mine employment terminated prior to 1970 or where no mine operator can be assigned liability. In addition, the fund pays all administrative costs incurred in the operation of Part C of the Black Lung program. The fund is administered jointly by the Secretaries of Labor, Treasury, and Health and Human Services. The Emergency Economic

Stabilization Act of 2008, enacted on October 3, 2008, authorized restructuring of the Black Lung Disability Trust Fund (BLDTF) debt by (1) extending the current coal excise tax rates of \$1.10 per ton on underground-mined coal and \$0.55 per ton on surface-mined coal until December 31, 2018; (2) providing a one-time appropriation for the BLDTF to repay the market value of parts of the outstanding repayable advances and accrued interest; and (3) refinancing the remainder of the outstanding debt through the issuance of zero-coupon bonds, to be retired using the BLDTF's annual operating surplus until all of its remaining obligations have been paid.

Note.— Beginning on January 1, 2019, the coal excise tax rates on underground-mined coal will be \$.50 per ton or 2% of the sales price (whichever is lower) and \$.25 per ton or 2% of the sales price (whichever is lower) on surface-mined coal.

The trust fund consists of amounts received from employers for the death of an employee where no person is entitled to compensation for such death, for fines and penalty payments, and—pursuant to an annual assessment of the industry—for the general expenses of the fund under the Longshore and Harbor Workers' Compensation Act (LHWCA), as amended.

The trust fund is available for payments of additional compensation for second injuries. When a second injury is combined with a previous disability and results in increased permanent partial disability, permanent total disability, or death, the employer's liability for benefits is limited to a specified period of compensation payments, after which the fund provides continuing compensation benefits. In addition, the fund pays one-half of

SPECIAL WORKERS' COMPENSATION EXPENSES—Continued

the increased benefits provided under the LHWCA for persons on the rolls prior to 1972. Maintenance payments are made to disabled employees undergoing vocational rehabilitation to enable them to return to remunerative occupations, and the costs of necessary rehabilitation services not otherwise available to disabled workers are defrayed. Payments are made in cases where other circumstances preclude payment by an employer and to provide medical, surgical, and other treatment in disability cases where there has been a default by the insolvency of an uninsured employer.

The Wage and Hour Division enforces the minimum wage, overtime, child labor, and other employment standards under the Fair Labor Standards Act (FLSA), the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), the Family and Medical Leave Act (FMLA), certain provisions of the Immigration and Nationality Act (INA), the wage garnishment provisions in Title III of the Consumer Credit Protection Act (CCPA), and the Employee Polygraph Protection Act (EPPA). Collectively, these labor standards cover most private, state, and local government employment. They protect over 135,000,000 workers in more than 7,300,000 establishments throughout the United States and its territories.

The Office of Labor-Management Standards (OLMS) receives and discloses reports of unions, union officers and employees, employers, labor consultants and others in accordance with the Labor Management Reporting and Disclosure Act (LMRDA), including union financial reports and employer and consultant activity reports; audits union financial records and investigates possible embezzlements of union funds; conducts union officer election investigations; supervises reruns of union officer elections pursuant to voluntary settlements or after court determinations that elections were not conducted in accordance with the LMRDA; and administers the statutory program to certify employee protection provisions under various Federally-sponsored transportation programs. In 2019, OLMS plans continued efforts to advance transparency and financial integrity protections, primarily through audits, investigations and compliance assistance efforts. OLMS will also ensure that Federally sponsored transportation grants are processed in a timely manner providing requisite protection to employees against adverse impacts as a result of federal assistance.

**Safety and Health Standards.**—This activity provides for the protection of workers' safety and health through development, promulgation, review, and evaluation of occupational safety and health standards and guidance, as specified under the Occupational Safety and Health Act of 1970 (OSH Act). Before any standard is proposed or promulgated, a determination is made that: (1) a significant risk of serious injury or health impairment exists; (2) the standard will reduce this risk; (3) the standard is economically and technologically feasible; and (4) the standard is cost effective when compared with alternative regulatory proposals providing equal levels of protection. This activity also ensures, through the SBREFA process, that small business concerns are taken into account in the process of developing standards.

**Federal Enforcement.**—This activity provides for the protection of employees through the enforcement of workplace standards promulgated under the OSH Act, through the physical inspection of worksites, and by providing guidance on how to comply with the requirements of OSHA standards. OSHA's enforcement strategy ranges from a selective targeting

of inspections and related compliance activities to a focus on specific high-hazard industries and worksites. Enforcement programs are targeted to the investigation of imminent danger situations and employee complaints, investigation of fatal and catastrophic accidents, programmed inspections of firms with injury and illness rates that are above the national average, and special emphasis inspections for serious safety and health hazards.

**Whistleblower Programs.**—This activity provides for the enforcement of twenty-two whistleblower protection statutes, including Section 11(c) of the OSH Act, which prohibits any person from discharging or in any manner retaliating against any employee because the employee has exercised rights under the Act, including complaining to OSHA and seeking an OSHA inspection, participating in an OSHA inspection, and participating or testifying in any proceeding related to an OSHA inspection. In addition to the OSH Act, this activity includes administration of twenty-one other whistleblower protection statutes that protect employees who report violations of various airline, commercial motor carrier, consumer product, environmental, financial reform, food safety, health care reform, nuclear, pipeline, public transportation agency, railroad, maritime, automotive manufacturing, and securities laws.

**State Programs.**—This activity supports states in assuming responsibility for administering occupational safety and health programs under State Plans approved by the Secretary. Under section 23 of the OSH Act, grants matching up to 50 percent of total program costs are made to States that meet the Act's criteria for establishing and implementing State programs that are at least as effective as the Federal OSHA program. State programs, like Federal OSHA, provide a mix of enforcement, outreach, training, and compliance assistance activities.

**Technical Support.**—This activity provides support for OSHA's emergency response activities, including responses to oil spills, hurricanes, tornados, and other natural or man-made disasters. This activity provides specialized technical expertise and advice in support of a wide range of program areas, including construction, standards setting, variance determinations, compliance assistance, and enforcement. Areas of expertise include laboratory accreditation, industrial hygiene, occupational health nursing, occupational medicine, chemical analysis, equipment calibration, safety engineering, environmental impact statements, technical and scientific databases, computer-based outreach products, and emergency preparedness.

**Federal Compliance Assistance.**—This activity supports a range of training, outreach, and cooperative programs that provide compliance assistance for employers and employees in protecting workers' safety and health, with particular emphasis on high-hazard industries, small business, and other hard-to-reach workers. OSHA works with employers and employees through cooperative programs such as the Voluntary Protection Programs that recognize employers with exemplary safety and health programs, and Alliances and Strategic Partnerships that commit organizations to collaborative efforts with OSHA. This activity also provides assistance to federal agencies in implementing and improving their job safety and health programs. Occupational safety and health training is provided at the OSHA Training Institute and affiliated Education Centers throughout the country. Compliance and technical assistance materials are prepared and disseminated to the public through various means, including the Internet.

**State Compliance Assistance: Consultation Grants.**—This activity supports 90 percent federally funded cooperative agreements with designated State agencies to provide free on-site consultation to small and medium-sized employers upon request. State agencies tailor workplans to specific needs in each State while maximizing their impact on injury and illness rates in smaller establishments in high-hazard industries. These projects offer a variety of services, including safety and health program assessment and assistance, hazard identification and control, and training of employers and their employees.

**Safety and Health Statistics.**—This activity supports information technology infrastructure, management of information, OSHA's webpage and web-based compliance assistance services, and the statistical basis for OSHA's programs and field operations. These are provided through an in-

SALARIES AND EXPENSES—Continued

tegrated data network and statistical analysis and review. OSHA administers and maintains the recordkeeping system that serves as the foundation for the BLS survey on occupational injuries and illnesses and provides guidance on recordkeeping requirements to both the public and private sectors.

*Executive direction and administration.*—This activity supports executive direction, planning and evaluation, management support, legislative liaison, interagency affairs, federal agency liaison, administrative services, and budgeting and financial control.

*Enforcement.*—The enforcement strategy in 2019 will be an integrated approach toward the prevention of mining accidents, injuries, and occupational illnesses. This includes inspection of mines and other activities as mandated by the Federal Mine Safety and Health Act of 1977 (Mine Act), as amended by the Mine Improvement and New Emergency Response Act of 2006 (MINER Act), special emphasis initiatives that focus on persistent safety and health hazards, promulgation of federal mine safety and health standards, investigation of serious accidents, and on-site education and training. The desired outcome of these enforcement efforts is to prevent death, disease, and injury from mining and promote safe and healthful workplaces for the Nation's miners.

*Standards.*—This activity develops standards and regulations for the mining industry that protect the safety and health of miners.

*Office of Assessments.*—This activity assesses and collects civil monetary penalties for violations of safety and health standards and manages MSHA's accountability, special enforcement, and investigation functions.

*Educational Policy and Development.*—This activity develops and coordinates MSHA's mine safety and health education and training policies, and provides classroom instruction at the National Mine Health and Safety Academy for MSHA personnel, other governmental personnel, and the mining industry.

*Technical Support.*—This activity applies engineering and scientific expertise through field and laboratory forensic investigations to resolve technical problems associated with implementing the Mine Act and the MINER Act. Technical Support administers a fee program to approve equipment, materials, and explosives for use in mines and performs field and laboratory audits of equipment previously approved by MSHA. It also collects and analyzes data relative to the cause, frequency, and circumstances of mine accidents.

*Program Evaluation and Information Resources (PEIR).*—This activity provides program evaluation and information technology resource management services for the agency.

*Program Administration.*—This activity performs general administrative functions and is responsible for meeting performance requirements and developing MSHA's performance plan and Annual Performance Report.

*Jobs for Veterans State grants.*—The Jobs for Veterans Act (JVA) of 2002 provides the foundation for this budget activity. The JVA requires the Veterans' Employment and Training Service (VETS) to act on behalf of the Secretary in the promulgation of policies and regulations that ensure maximum employment and training opportunities for veterans and priority of service for veterans (38 U.S.C. 4215) within the State workforce delivery system for employment and training programs funded in whole or in part by the U.S. Department of Labor. Under the JVA, grants are allocated to States according to the statutory formula to support Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representatives (LVERs).

Disabled Veterans' Outreach Program specialists (38 U.S.C. 4103A) provide intensive services to meet the employment needs of eligible veterans. DVOP specialists place maximum emphasis on assisting veterans with significant barriers to employment, or other populations defined by the Secretary or through appropriations language.

Local Veterans' Employment Representatives (38 U.S.C. 4104) conduct outreach to employers, employer associations, and business groups to promote the advantages of hiring veterans. LVERs also facilitate employment, training, and placement services provided to veterans under the applicable State employment service delivery system, including American Job Centers by educating all workforce partner staff on current employment initiatives and programs for veterans. In addition, each LVER provides reports to the manager of the State employment service delivery system and to the State Director for Veterans Employment and Training (38 U.S.C. 4103) regarding the State's compliance with Federal law and regulations with respect to special services and priorities for eligible veterans.

VETERANS EMPLOYMENT AND TRAINING—Continued

**Transition Assistance Program (TAP).**—This program provides employment workshops for separating service members and their spouses in the continental U.S. and at major overseas installations to prepare these individuals for entry into the civilian workforce and job market. Its primary goal is to expedite and facilitate the transition from military to civilian employment. VETS coordinates with the Departments of Defense, Veterans Affairs, and Homeland Security to provide transition services to military service members separating from active duty. TAP is implemented worldwide and provides labor-market and employment-related information and other services to separating service members and their spouses. TAP now includes an optional two-day Career Technical Training Track (CTTT) workshop, for transitioning service members interested in technical careers. This program is conducted consistent with the existing TAP Interagency Memorandum of Understanding.

**Federal management.**—VETS' Federal management budget activity supports the Federal administration of 38 U.S.C. §§ 41, 42, and 43. This allows VETS to carry out programs such as the Jobs for Veterans State Grants and develop policies to provide employment and training opportunities designed to meet the needs of veterans (38 U.S.C. 4102–4115). It also enables VETS to discharge its responsibilities to administer, interpret, and help enforce the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA), 38 U.S.C. §§ 4301–4335, in which it provides technical assistance and investigates complaints received from veterans and service members who believe their employment and reemployment rights were violated. In addition, this budget activity enables VETS to investigate complaints received from preference eligibles who believe their veterans' preference rights in Federal hiring pursuant to the Veterans' Employment Opportunities Act of 1998 (VEOA), 5 U.S.C. § 3330a, were violated. VETS' Federal Contractor Program (VETS-4212) is also supported under this activity, pursuant to 38 U.S.C. § 4212. These responsibilities involve administering a system whereby Federal contractors submit reports setting forth their affirmative action efforts to hire and retain eligible veterans in their employ.

Resources under this activity are also used to evaluate the job training and employment assistance services provided to veterans under the Jobs for Veterans State Grants (38 U.S.C. 4102A(b)(5)), and the Homeless Veterans Reintegration Program (Section 738 of the Stewart B. McKinney Homeless Assistance Act (MHAA) of July 1987, as amended by Section 5 of the Homeless Veterans Comprehensive Assistance Act (HVCAA of 2001)). This budget activity supports field activities and personnel who provide technical assistance to grantees to ensure they meet negotiated and mandated performance goals and other grant provisions.

This budget activity also supports the oversight and development of policies for TAP (10 U.S.C. 1144 and 38 U.S.C. 4113). The activity funds outreach and education efforts, such as job fairs, that raise the awareness of employers about the benefits of hiring veterans. The activities of the Advisory Committee for Veterans Employment, Training, and Employer Outreach (38 U.S.C. 4110) also are supported.

**National Veterans' Employment and Training Services Institute.**—The National Veterans' Training Institute (NVTI) supplies competency-based training to Federal and State providers of services to veterans (38 U.S.C. 4109). NVTI also provides training for VETS personnel. NVTI is administered through a contract and supported by dedicated funds. NVTI ensures that these service providers receive a comprehensive foundation so they can effectively assist job-seeking veterans.

**Homeless Veterans' Reintegration Program.**—The Homeless Veterans' Reintegration Program (HVRP) (38 U.S.C. 2021) provides grants to States or other public entities, as well as to non-profits, including faith-based organizations. Grant awards enable grantees to operate employment programs to reach out to homeless veterans assist in reintegrating homeless veterans into meaningful employment within the labor force and to stimulate the development of effective service delivery systems that will address the complex problems facing homeless veterans. VETS partners with the De-

partments of Veterans Affairs and Housing and Urban Development to promote multi-agency-funded programs that integrate the different services needed by homeless veterans. HVRP grants are provided for both urban and rural areas.

*Departmental Support Systems.*—This activity represents a permanent, centralized IT investment fund for the Department of Labor managed by the Chief Information Officer. The fund supports enterprise-wide IT security enhancements that facilitate a centrally managed IT environment with increased risk mitigation parameters to protect the integrity of DOL data and network availability. These efforts are achieved through several new and ongoing projects mandated by executive and congressional directives.

*IT Infrastructure Modernization.*—This Chief Information Officer-managed activity funds the effort to transform nine major independently funded and managed IT infrastructure silos at the sub-agency level into a unified IT infrastructure. The unified infrastructure will be centrally managed and

provide all agencies with general purpose business productivity tools, a shared environment for common data sources, and the underlying IT services to support it.

The IT Modernization appropriation is eliminated in the 2019 Budget. Using resources from the reforms to the Working Capital Fund statute proposed in the General Provisions, all activities previously funded in the IT Modernization appropriation will be funded through the Working Capital Fund.

Diplomatic Programs (DP), previously called Diplomatic and Consular Programs (D&CP), is financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which are to remain available until expended. DP is the Department of State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2019 request includes base funding for the State Department operations in Iraq, Afghanistan, Pakistan, and other High Threat Posts (HTP). The balance of the funding requested for operations in Iraq, Afghanistan, Pakistan, and other HTP is included in the Overseas Contingency Operations (OCO) account request for the DP account.

Funds are requested in the following categories:

*Human Resources.*—This category supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. Professional development and training is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

*Overseas Programs.*—This category provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2019 will support 275 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings and other multilateral activities in the United States and abroad. Resources in this appropriation support the conduct of international informational programs of the United States. These resources are used to define, explain and advocate U.S. policies abroad and to seek to increase knowledge and understanding among foreign audiences of U.S. society and its values. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity. This category also supports reconstruction and stabilization activities of the Conflict Stabilization Operations (CSO) Bureau.

**Diplomatic Policy and Support.**—This category supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Resources also fund the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. The information management activity in DP includes resources that are used for the creation, collection, processing, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Components of the information management activity include: telecommunications, information security, information system services, pouch, mail and publishing services for both unclassified and classified information. These activities include domestic and overseas execution of Department programs, such as budget and financial management, contracting and procurement, domestic facilities and vehicles, and rental payments to GSA.

**Security Programs.**—This category provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

The Consular and Border Security Programs account (CBSP) uses revenue from consular fees and surcharges to fund programs and activities, consistent with applicable statutory authorities. These fees and surcharges include Machine Readable Visa (MRV) fees, Western Hemisphere Travel Initiative (WHTI) surcharges, Passport Security surcharges, Immigrant Visa Security surcharges, Diversity Visa Lottery fees, and Affidavit of Support fees. In FY 2017 and prior years, these fees were credited in the Diplomatic and Consular Programs account as spending authority from offsetting collections. The Consolidated Appropriations Act of FY 2017 enacted a new standalone account to display fee-funded consular programs independent

## CONSULAR AND BORDER SECURITY PROGRAMS—Continued

of the larger Diplomatic Programs account beginning in FY 2019. This change will enable the Department to provide greater transparency and accountability in financial reporting on these fees and surcharges, facilitate budget estimates for these fees and surcharges, and more easily make the information available to users of budget information and other stakeholders.

Section 7024(i) of the general provisions provides a new permanent extension of the Western Hemisphere Travel Initiative Surcharge. Section 7050 provides legislative language expanding the authorities of the Border Crossing Card and Passport Security Surcharge. It also includes a transfer authority between the CBSP account and accounts under the heading Administration of Foreign Affairs. Finally, Section 7051 provides the ability to use the Fraud Prevention and Detection fees for the prevention and detection of all visa fraud.

These consular fees and surcharges support an array of activities that are vital to ensuring strong U.S. border security, including routine and emergency services for U.S. citizens overseas; the issuance of secure passports to U.S. citizens at 29 passport facilities and a partner network of more than 8,000 passport acceptance facilities domestically; the adjudication of visa applications; the prevention and detection of fraud involving visas and passports; and the Department's information technology programs. Together with the Department of Homeland Security, the Department of Justice, the Intelligence Community, Department of the Treasury, and the law enforcement community, the Department has built a layered visa and border security screening system that rests on training, technological advances, biometric innovations and expanded data sharing.

This appropriation provides funding for international exchange programs authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended, to support U.S. foreign, economic, and security policy objectives

and to assist in the development of friendly, sympathetic, and peaceful relations between the United States and other countries. These goals are addressed by building increased mutual understanding through international exchange and professional development activities. Programs under this appropriation include:

**Academic Programs.**—Includes the J. William Fulbright Educational Exchange Program, which provides U.S. and foreign students, teachers, scholars, and administrators the opportunity to pursue degrees, teach, and conduct research in foreign and U.S. universities. Academic Programs also include English language programming and educational advising services. English language programs help train and develop foreign teachers of English, send Americans overseas to teach English and train instructors, teach English to disadvantaged students, and provide language learning materials and resources. Educational advising programming supports outreach to foreign students across the world to assist in the process of applying to U.S. universities. Additional academic programs such as the Benjamin A. Gilman International Scholarship Program provide opportunities for American participants with financial needs to study abroad.

**Professional/Cultural Exchanges.**—Includes exchanges linking U.S. and foreign participants in multiple fields directly tied to U.S. foreign policy goals. The International Visitor Leadership Program brings thousands of foreign leaders to the United States for intensive short-term professional exchanges to meet and confer with their American counterparts, gaining first-hand knowledge about U.S. society, culture and democratic values. Citizen Exchanges Program participants partner with an extensive network of organizations and experts from across the United States to conduct professional fellowships as well as arts, sports, and high school exchange programs focused on current and future leaders.

**Youth Leadership Initiatives.**—Includes programs targeting young private, public, and civil sector leaders in Africa, Southeast Asia and the Americas.

**Program and Performance.**—Provides resources and opportunities to ECA exchange program alumni to build on participant exchange experience, developing growing and active alumni association networks. Funds also support on-going program performance measurement and independent evaluations.

**Exchanges Support.**—Includes all domestic staff, overseas Regional Language Officers and support costs managed by ECA; as well as government-wide exchanges coordination.

Under the direction of the Secretary of State, the overall mission of the Bureau of Overseas Buildings Operations (OBO) is to provide U.S. diplomatic and consular missions abroad with safe, secure, and functional facilities that support the foreign policy objectives of the United States. Specific program functions include: providing guidance to posts, the regional bureaus and other foreign affairs agencies on the renovation, construction and operations of facilities; providing expert space and facilities planning; managing and overseeing the design, construction, and renovation of mission facilities; incorporating security features into overseas and domestic facilities; and ensuring the security of facilities during construction or renovation. In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2019, the Department will manage the fifteenth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The \$2.2 billion program is consistent with the Benghazi Accountability Review Board's recommended funding level for the construction of new secure facilities overseas. Funding sources include ESCM regular base, interagency contributions, and consular fee revenues.

The 2019 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. MCS and CSCS are funded within a combined \$2.2 billion program in FY 2019.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas.

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. The 2019 permanent appropriation provides a supplemental payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions. The amount of the appropriation is determined by the annual evaluation of the Fund balance derived from current statistical actuarial data, which includes inflationary cost-of-living adjustments.

The Foreign Service National Defined Contributions Fund (FSN DCF) is an after-employment benefit plan for Locally Employed Staff (LE Staff) working for the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government (USG)-funded contributions for end-of-service benefits for LE Staff in countries where U.S. missions have determined that participation in the local social security system (LSSS) is not in the public interest of the USG. The Department determines which countries are eligible to participate in the fund. Upon separation, payments under this Plan shall be made consistent with the host country law, including any court order affecting payments to participants, unless decided otherwise by the Department.

This fund, which is available without fiscal year limitations, is authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool, operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology support, medical services, aviation services, special issuance passport services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under the authority of the Foreign Missions Act.

Using the Working Capital Fund, the International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998. ICASS restructures overseas administrative support activities to allow more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

This fund is maintained to pay accrued separation liability payments for eligible Foreign Service National (FSN), FSN Personal Service Contractors (PSC), and FSN Personal Service Agreements (PSA) employees of the Department of State in those countries in which such pay is legally authorized. The fund, as authorized by section 151 of Public Law 102-138 (22 U.S.C. 4012a), is maintained by annual government contributions from the Department's Diplomatic Programs (DP) account (including Program Direct, Public Diplomacy and Worldwide Security Protection resources), Consular Affairs (CA) Consular and Border Security Program (CBSP) fees, the International Narcotics Control and Law Enforcement (INCLE) account, and International Cooperative Administrative Support Services (ICASS) working capital fund that includes both State's DP and other agencies shares. Eligible local staff include former United States Agency for International Development (USAID) ICASS employees who were consolidated into the Department. The Department of State funds and manages its own FSNSLTF separate and apart from any separation pay that may be provided by other agencies to non-State Locally Employed Staff (LE Staff).

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics, monitoring and evaluation; and promoting research, development and innovation.

*Global Health Programs-State.*—The Global Health Programs (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2019 Budget requests \$4.375 billion in the GHP-State account. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other USG partners such as USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources and expertise in the fight against

GLOBAL HEALTH PROGRAMS—Continued

global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$925 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State request.

*Global Health Programs-USAID.*—The 2019 Budget requests \$1.928 billion in the GHP-USAID account for a comprehensive and integrated approach to improve global health outcomes. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. Funding includes activities that support the goal of ending preventable child deaths in synergy with malaria, family planning and reproductive health, and nutrition activities, addressing such issues as micronutrient deficiencies and community management of acute malnutrition. Activities will also address the threat of other infectious diseases such as tuberculosis and multi-drug resistant tuberculosis, and neglected tropical diseases in developing countries.

The Budget also proposes to authorize the use of a portion of the remaining emergency funding appropriated in 2015 for the Ebola response in West Africa (Public Law 113–325) for global health security programs. In 2019, \$72.5 million in unobligated balances and recoveries from IDA, the Global Health Programs account, and/or the Economic Support Fund account would be made available for these purposes.

**Administrative Expenses.**—These funds finance the salaries and operating expenses in Washington, D.C. and overseas for the Bureau of Population, Refugees, and Migration. (Note: Funds for the salaries and support costs of the positions dedicated to international population policy and coordination are requested under the Department of State's Diplomatic Programs appropriation.)

The MRA account will support ongoing as well as unexpected, urgent refugee and migration needs. In 2019, no funding is requested for the U.S. Emergency Refugee and Migration Assistance (ERMA) account.

International Narcotics Control and Law Enforcement (INCLE) supports bilateral, regional, and global programs that mitigate security threats posed by all forms of transnational crime including production and trafficking of narcotics, illicit trafficking in persons and wildlife, money-laundering, intellectual property crime, cyber security, and other pernicious forms of transnational crime. Programs strengthen partner countries' criminal justice systems, including their ability to cooperate effectively with U.S. law enforcement, strengthen law enforcement and judicial capabilities, counter drug flows, combat transnational crime, and address the underlying conditions, such as corruption and weak rule of law, that foster state fragility and spur irregular migration to the United States. The 2019 INCLE budget supports Presidential policy priorities, including efforts to protect the safety of the United States and its citizens by combating transnational crime and trafficking, in alignment with Executive Order 13773, Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) has the statutory goal of providing assistance to the poorest countries in the world to promote economic growth, eliminate extreme poverty, and strengthen good governance, economic freedom, and investments in people. Since its inception, MCC has signed 33 compacts and 26 threshold program agreements, totaling nearly \$12 billion. These investments help foster stability through economic growth and poverty reduction in partner countries. MCC encourages policy reforms by working with only those countries that have created the conditions for growth by ruling justly, investing in their people, and committing to economic freedom, with a particular emphasis on fighting corruption and maintaining democratic rights. Countries develop their poverty reduction proposals in broad consultation with their own civil society and MCC. MCC's evidence-based approach leads to compacts that specifically define the implementa-

In order to streamline accounts and ensure the most effective use of foreign assistance funding, the 2019 Budget incorporates funding and programs previously requested under the Economic Support Fund (ESF) and Development Assistance (DA) accounts within the new Economic Support and Development Fund (ESDF). The request prioritizes and focuses foreign assistance in regions and on programs that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world,

while also continuing to ensure efficiency, effectiveness, and accountability to the U.S. taxpayer. Programs will help countries of strategic importance meet near and long-term political, economic, development, and security needs.

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security in-

terests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. The National Defense Authorization Act for Fiscal Year 2018 extended the GSCF authority until September 30, 2019. No funding is requested in 2019.

Foreign Military Financing (FMF) direct loans finance sales of defense articles, defense services, and design and construction services to foreign

countries and international organizations. The FMF Loan Program Account was established pursuant to the Federal Credit Reform Act (FCRA) of 1990, as amended, to provide the funds necessary to support the cost of FMF direct loans. Expenditures from this account finance the subsidy cost of direct loan disbursements and are transferred to the FMF Direct Loan Financing Account to make loan disbursements for approved Foreign Military Sales or commercial sales.

FOREIGN MILITARY FINANCING DIRECT LOAN FINANCING ACCOUNT—Continued

As required by the Federal Credit Reform Act (FCRA) of 1990, the Foreign Military Financing (FMF) Direct Loan Financing Account is a non-budgetary account that records all cash flows to and from the Government resulting from FMF direct loans obligated in 1992 and beyond. Amounts in this account are a means of financing and are not included in budget totals. The account uses permanent borrowing authority from the U.S. Treasury combined with transfers of appropriated funds from the FMF Loan Program Account to make disbursements to borrowers for approved procurements.

The Foreign Military Loan Liquidating Account records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct

loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

As required by the Federal Credit Reform Act of 1990, the Military Debt Reduction Financing (MDRF) Account is a non-budgetary financing account that records all cash flows to and from the Government resulting from restructuring foreign military loans. The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

The Global Agriculture and Food Security Program (GAFSP) is a multi-donor trust fund called for by G-20 leaders in 2009 to fund projects that support the agricultural investment plans of poor countries. GAFSP, which is administered by the World Bank, leverages the expertise and implementing structures of other multilateral institutions such as IFAD, the World Bank, and the regional development banks.

As of end-April 2017, GAFSP's public sector window has awarded \$1.18 billion in grant financing to 31 low-income countries in Africa, Asia, and Latin America to help smallholder farmers and their families increase their income and strengthen their nutritional outcomes. These grants were funded from contributions from Australia, the Bill and Melinda Gates Foundation, Canada, Ireland, South Korea, Spain, the United Kingdom, and the United States. The private sector window, which provides financing to small and medium-sized agribusinesses, has approved \$243.2 million of investments

as of end-December 2017, funded from contributions from Canada, Japan, the Netherlands, the United Kingdom, and the United States.

The United States is the largest of 10 donors to GAFSP, having contributed \$653 million since GAFSP's inception. The United States contributed \$475 million towards the initial GAFSP pledge in 2009. In 2012, the U.S. pledged to contribute \$1 for every \$2 dollars in new contributions from other donors over the period of the pledge, up to a maximum of \$475 million. No new funding is required in 2019.

The International Bank for Reconstruction and Development (IBRD) is the arm of the World Bank that provides financing to creditworthy middle-income countries to promote inclusive economic growth and reduce poverty. Middle-income countries—home to over 70 percent of the world's poor—rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND  
DEVELOPMENT—Continued

agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human and social development needs that private creditors do not finance. During its 2017 fiscal year, the IBRD approved \$22.6 billion in loans and technical assistance. Latin America and the Caribbean (24 percent) and the Middle East and North Africa (22 percent) received the largest portion of the IBRD's new lending, followed by Eastern Europe and Central Asia (20 percent), East Asia and Pacific (19 percent), and Sub-Saharan Africa (5 percent). The United States is the largest shareholder in the IBRD, with a 16.3 percent share of total voting power, followed by Japan and China. The United States is the only country with veto power over amendments to the Articles of Agreement.

**Global Environment Facility**

The 2019 Budget requests \$68.3 million for the Global Environment Facility (GEF) towards the first of four installments to the seventh replenishment (GEF-7).

The GEF is one of the largest dedicated funders of projects to improve the global environment, providing grants to address issues related to conservation, including wildlife trafficking, overfishing, land degradation, chemical pollution and other environmental concerns. The GEF benefits the U.S. economy and environment by addressing many external environmental problems that affect our domestic health, safety, and prosperity; in addition, since the GEF was established, 127 U.S. companies and consultants from 29 states have received contracts to participate in 119 GEF-backed projects. GEF-7 will begin on July 1, 2018 and will conclude on June 30, 2022.

**International Finance Corporation**

The International Finance Corporation (IFC) is the private sector focused part of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2017 fiscal year, the IFC approved \$11.9 billion from its own resources, and mobilized an additional \$7.5 billion from other sources, for 342 projects. More than 24 percent of IFC commitments in 2017 were for the poorest countries (those eligible for funding from the World Bank's IDA). IFC investments in 2017 were spread across the globe, with the largest recipient regions being Latin America and the Caribbean (23 percent), Sub-Saharan Africa (20 percent), and Europe and Central Asia (18 percent). The top sectors for IFC investment in 2017 were financial markets (49 percent), infrastructure (14 percent), and agribusiness and forestry (10 percent).

Treasury requests \$1,097 million for the International Development Association (IDA) in support of IDA programs over the eighteenth replenishment (IDA-18; FY 2018-FY 2020), including towards the second of three installments to IDA-18.

IDA is the part of the World Bank that supports the growth and development of the world's 75 poorest countries. IDA works across a wide range of sectors including education, basic health, clean water and sanitation, the environment, infrastructure, and agriculture. Because countries receiving IDA financing are too poor to attract sufficient capital to support their urgent development needs, they depend on low-cost loans and grants to create jobs, build critical infrastructure, increase agricultural productivity, provide energy, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at non-concessional rates. Since its inception, IDA has provided half a trillion dollars for investments in over 100 countries. As of the beginning of IDA-18, 36 countries once eligible for IDA assistance have graduated and no longer receive concessional support from IDA. Of the \$19.5 billion approved in IDA's 2017 fiscal year, more than half—\$10.7 billion—went to countries in sub-Saharan Africa. Countries in the South Asia region received \$3.8 billion, and \$2.7 billion went to countries in the East Asia and Pacific region. Sixteen percent of IDA's resources were provided as grants to fragile states and other countries at risk of debt distress in IDA's 2017 fiscal year.

**Multilateral Debt Relief Initiative**

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the African Development Bank. Countries receive MDRI benefits after completing the reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. MDRI requires donors to compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. With a 20.1

percent burden share, the U.S. share of the cost of MDRI under IDA-18 (FY 2018-FY 2020) is \$593 million.

The Multilateral Investment Guarantee Agency (MIGA) is a member of the World Bank Group designed to encourage the flow of foreign private investment to and among developing countries by issuing guarantees against non-commercial risks and carrying out investment promotion activities. In 2017, MIGA issued a total of \$4.8 billion in guarantees for projects in developing countries. Negotiations on MIGA's first general capital increase (GCI) were completed in 1998. The United States committed to contribute a total of \$30 million in paid-in capital and nearly \$140 million in callable capital over three years.

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where 73 million people live in poverty. In 2017, the IDB approved \$11.4 billion in financing for 90 sovereign-guaranteed projects. About 34 percent of commitments targeted small and vulnerable borrowing countries, such as El Salvador, Guyana, Honduras, and Jamaica. The IDB works in

a range of sectors and commits roughly half of its funding to support infrastructure through projects in water and sanitation, transportation and energy. The other half is split between capacity building, including reform of government operations and financial markets, and social sectors, including social investment, health, and education. Given the IDB's significant response to the global financial crisis, in 2010, shareholders approved the ninth general capital increase (GCI-9) to ensure that the IDB had the resources necessary to assist countries that suddenly found themselves shut off from global capital markets. As part of the GCI-9 resolution, the IDB established a special grant facility for Haiti that will receive income transfers totaling \$2 billion from the IDB through 2020. This facility provides Haiti with critical resources to support its long-term development agenda. The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB.

## Inter-American Investment Corporation

The Inter-American Investment Corporation (IIC), a member of the Inter-American Development Bank Group established in 1984, promotes development of the private sector in Latin America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, the IIC's mandate has expanded from a focus on small- and medium-sized enterprises to include financing for private infrastructure and corporate entities. Until IIC is fully capitalized through additional contributions from some shareholders and net income transfers from the IDB, a portion of IIC's approvals will be booked on the IDB's balance sheet. In 2017, the IIC approved 223 projects totaling \$3.1 billion, booking \$1.0 billion in new approvals to its own balance sheet and \$2.1 billion on the IDB's balance sheet. Since its inception, the IIC has approved a total of \$9.1 billion in financing.

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional co-operation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market rates and "soft loans" to eligible countries at concessional rates; and 2) the Asian Development Fund (AsDF), which provides grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF provided concessional loans.

**Asian Development Bank**

AsDB provides long-term loans at market rates to 22 middle-income Asian countries that lack the resources to finance their national economies and build critical infrastructure. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2017, AsDB approved \$18.5 billion for projects and leveraged another \$7.5 billion in co-financing from official and commercial sources. Through its lending, AsDB supports the construction of critical infrastructure, the expansion of private enterprise, and sustainable economic growth. The majority of AsDB assistance is for investments in transportation, energy, finance, industry and trade, with water supply, municipal infrastructure, agriculture and natural resources, and public sector management also receiving significant funding. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios and bond issuances. In April 2009, donors approved AsDB's fifth general capital increase (GCI-V), which tripled AsDB's capital base to \$165 billion (including paid-in and callable capital).

**Asian Development Fund**

Treasury requests \$47.4 million in support of AsDF programs over the eleventh replenishment (AsDF-12; FY 2018-FY 2021), including towards the second of four installments to AsDF-12.

AsDF currently provides grants to 18 of the poorest countries in Asia and the Pacific that face moderate or high risk of debt distress, including Afghanistan and Burma. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. Water, energy, and transportation infrastructure compose 48 percent of all AsDF projects, while financial sector deepening, agriculture, and health projects make up the remainder of AsDF grants. AsDF also invests in cross-cutting activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2017, the Board approved \$551 million in grants for AsDF-eligible countries. Cumulatively, AsDF has provided over \$50 billion for projects in developing member countries. As a result of the merger of AsDF's lending assets into AsDB's Ordinary Capital Resources on January 1, 2017, AsDF now provides only grants. AsDF will increase grant support to eligible countries by 70 percent over the period covered under the eleventh replenishment. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. national security priorities.

The African Development Bank Group comprises 1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI).

**African Development Bank**

Treasury requests \$32.4 million towards the eighth of eight installments under the AfDB's Sixth General Capital Increase (GCI-6).

The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries, and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. The AfDB had \$6.3 billion in lending approvals in 2017, 62 percent of which was for public sector projects and 38 percent for private sector projects. Approximately forty percent of AfDB approvals are for infrastructure, including energy, transportation, communication, and water and sanitation. Other key sectors include finance, agriculture, and governance. The United States is the largest non-regional shareholder at the AfDB, with 6.6 percent of total shareholding, and the second-largest shareholder after Nigeria.

**African Development Fund**

Treasury requests \$171.3 million in support of AfDF programs over the fourteenth replenishment (AfDF-14; FY 2018-FY 2020), including towards the second of three installments to AfDF-14.

The AfDF is the AfDB Group's concessional lending window, providing grants and highly concessional loans to the poorest countries in Africa, of which half are fragile or conflict-affected states. In 2017, the AfDF provided \$2 billion in financing, technical assistance, and capacity-building activities

to the 38 eligible countries. Many AfDF recipient countries are African economies that are becoming new, emerging markets and growing U.S. trading partners, while other AfDF recipient countries remain trapped in fragility, conflict, and poverty; are highly vulnerable to both internal and external shocks; and are in need of special assistance to achieve basic levels of service delivery. The AfDF is one of the largest official financiers of infrastructure in Sub-Saharan Africa, committing approximately half of its funding to national and regional infrastructure projects in sectors such as energy, transport, and water and sanitation. The remainder of its funding is devoted to governance, agriculture and food security, and human capital development (e.g., health and education). The AfDF also sets aside special funding for regional projects and fragile and transitioning states; in total, approximately half of its resources are directed to fragile states.

#### Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, MDRI provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. MDRI requires donors to compensate AfDF for cancelled debt under MDRI on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. At 11.8 percent burden share, the U.S. share of the cost of MDRI under AfDF-14 (FYs 2018–2020) is \$74 million.

Created in 1990, the European Bank for Reconstruction and Development (EBRD) supports market-oriented economic reform and democratic pluralism, predominately through private-sector lending and investments. Its original field of operation in the countries of Central and Eastern Europe and the former Soviet Union was expanded in 2012 to aid in the transitions of key countries in the Middle East and North Africa. In 2017, the EBRD committed \$11.1 billion in financing to 411 projects, according to preliminary figures. In April 1996, shareholders approved a doubling of the EBRD's capital base to EUR 20 billion (approximately \$24 billion). In 2012, the United States provided \$1.25 billion in callable capital to increase the capital base to EUR 30 billion and support increased demands resulting from the 2008 financial crisis.

The North American Development Bank (NADB) finances environmental infrastructure projects that have been certified for their projected environmental and economic benefits. In the first 11 months of 2017, the NADB disbursed \$98.6 million in loans and grants for renewable energy, water and wastewater, public transportation, and urban infrastructure projects. As of November 30, 2017, NADB had approved \$2.4 billion in loans.

The FY 2019 Budget includes an authorization for the \$10 million appropriated in FY 2016. A U.S. contribution of this amount would match the 2016 contribution paid in by Mexico.

with a focus on creating opportunities for poor and vulnerable populations. Grants and loans are used for technical assistance to identify innovative markets, products and business processes, investments in human capital, and business infrastructure and development. In 2017, the MIF approved 66 projects totaling \$84 million. Since its inception in 1992, the MIF has approved over 1,800 projects, for which the MIF provided approximately \$2.1 billion.

The United States has contributed \$624 million to the MIF since 1992. Negotiations concluded on a new replenishment in March 2017. The United States will not contribute to this round of funding, but will retain influence over past and new contributions through the legacy resources remaining from past contributions. The United States achieved its key objectives in the most recent negotiations: significantly increasing contributions from Latin American and Caribbean donors, strengthening the focus on poor and vulnerable populations, and increasing the efficiency of MIF operations.

Pursuant to OTA's authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of budget, revenue, government debt, financial institutions and financial enforcement to developing and transition countries. This assistance supports U.S. foreign policy and national security objectives.

The 2019 Budget includes \$30 million to fund full-time resident technical assistance advisors, intermittent advisors, and program-related administrative costs. The appropriation will support technical assistance programs in Asia, the Middle East, Africa, Latin America, the Caribbean, and Europe. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate

its activities with the Department of State, USAID, and other relevant U.S. Government agencies as well as international financial institutions, and other bilateral donors when determining where its technical assistance program can have the greatest positive impact.

Funds for debt restructuring are periodically needed to help countries reduce the burden of unsustainable debts, thereby establishing a sounder footing for economic growth. Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Through the Paris Club and programs such as the Heavily Indebted Poor Countries (HIPC) Initiative, countries that have demonstrated a commitment to economic reforms can benefit from debt restructuring. These programs have provided authority and appropriations to reschedule and/or reduce debt repayments to the U.S. Government.

*Development Assistance Programs.*—The Development Assistance (DA) account has been used to invest in partnerships that support ending extreme poverty and promoting resilient, democratic societies around the world. In an effort to streamline accounts and ensure the most effective use of foreign assistance funding, the 2019 Budget eliminates the DA account and incorporates funding for selected programs previously requested under the Economic Support Fund (ESF) and DA accounts within the new Economic Support and Development Fund account. The 2019 Budget frees up funding for strengthening the U.S. military and pursuing critical domestic priorities by focusing foreign assistance in regions and on sectors that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world, while continuing to support key strategic partners and allies and to ensure efficiency, effectiveness, and accountability to the U.S. taxpayer.

The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of Southeastern Europe and the independent states that emerged from the dissolution of the Soviet Union, as well as related efforts to address social sector reform and combat transnational threats in these countries. From 2013 through 2015, funding for the programs formerly funded through AEECA were included in the Economic Support Fund (ESF), International Narcotics Control and Law Enforcement (INCLE), and Global Health Programs (GHP) accounts. In 2016, Congress reinstated the AEECA account for those programs funded with ESF and INCLE; however the 2018 and 2019 requests propose funding all of these programs through the Economic Support and Development Fund, INCLE, and GHP accounts.

This account provided funds for assistance programs that fostered the democratic and economic transitions of the independent states that emerged from the former Soviet Union, as well as related efforts to address social sector reform and combat transnational threats. Beginning in 2009, funds for these activities have been appropriated and requested in other assistance accounts.

INTERNATIONAL DISASTER ASSISTANCE

The International Disaster Assistance (IDA) account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance, rehabilitation, disaster risk reduction, transition to development assistance programs, as well as emergency food interventions. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, the provision of safe drinking water. Emergency food responses include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers and complementary activities that support the relief, recovery and resilience of populations affected by food crises. IDA programs target the most vulnerable populations who are affected by the shock of a disaster, including those who are internally displaced.

This request includes \$776.8 million, including \$279.6 million for the U.S. Agency for International Development (USAID) Office of U.S. Foreign Disaster Assistance and \$497.2 million for the USAID Office of Food for Peace for emergency food responses. (See the IDA account in the Overseas Contingency Operations section for information about the IDA-OCO funding request in 2019.)

The FY 2019 budget request eliminates the P.L. 480 Title II account. Providing emergency food aid through IDA has been shown to allow more appropriate and on average more cost effective assistance than Title II food aid. The IDA request will ensure that all food assistance programs are appropriate to local needs and will increase overall effectiveness.

The Budget also proposes to authorize the use of a portion of the remaining emergency funding appropriated in 2015 for the Ebola response in West Africa (Public Law 113-325) for global health security programs. In 2019, \$72.5 million unobligated balances or recoveries from IDA, the Global Health Programs account, and/or the Economic Support Fund account would be made available for these purposes.

The Transition Initiatives (TI) account addresses opportunities and challenges facing conflict-prone countries and those countries making the transition from the initial crisis stage of a complex emergency to sustainable development and democracy. Programs are focused on advancing peace and stability, including promoting the responsiveness of central governments to local needs, increasing civic participation, raising awareness of national issues through media, addressing the underlying causes of instability, and supporting conflict resolution measures. Recent country examples where TI funds were used include Nigeria, Somalia, Honduras, Syria, Burma, and Ukraine.

TI funding provides core operational funds for the Office of Transition Initiatives within the U.S. Agency for International Development Bureau for Democracy, Conflict, and Humanitarian Assistance.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from

the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

As required by the Federal Credit Reform Act of 1990, this account recorded, for the Development Credit Authority (DCA), the subsidy costs associated with direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program and legacy USAID credit programs. The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, DCA will be consolidated with other development finance functions, such as the Overseas Private Investment Corporation, into a new Development Finance Institution. All future DCA activities are presented in the Development Finance Institution program and financing accounts.

The Overseas Private Investment Corporation (OPIC) encourages the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its primary noncredit program is political risk insurance against losses due to expropriation, inconvertibility, and damage due to political violence. Balances in this account are reserves held for potential claims and are not expected to be obligated.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, OPIC will be consolidated with other development finance functions, such as USAID's Development Credit Authority, into a new Development Finance Institution. All future OPIC insurance and non-credit activities are presented in the Development Finance Institution program account.

The Overseas Private Investment Corporation (OPIC) encourages the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its credit program is investment financing through loans and guaranteed loans. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, OPIC will be consolidated with other development finance functions, such as USAID's Development Credit Authority, into a new Development Finance Institution. All future OPIC credit activities are presented in the Development Finance Institution program and financing accounts.

The Budget proposes to eliminate funding for several independent agencies, including for the U.S. Trade and Development Agency (USTDA), as part of the Administration's plans to move the Nation towards fiscal responsibility, to redefine the proper role of the Federal Government, and to prioritize rebuilding the military and making critical investments in the Nation's security. Because USTDA is primarily focused on middle income countries and not on development finance, TDA is not being consolidated into the new Development Finance Institution (DFI). The Budget requests \$12.1 million to conduct an orderly closeout of the agency beginning in fiscal year 2019, which includes funding for personnel costs, including severance payments and salaries for essential personnel during the closeout; rental payments; and other costs related to termination.

The Administration proposes to consolidate, reform, and modernize US Development Finance functions, such as USAID's Development Credit Authority (DCA) and the Overseas Private Investment Corporation (OPIC). The Development Finance Institution (DFI) encourages the participation of United States private sector capital and skills in the economic and social development of emerging market economies. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis. Additionally, the Program Account records the costs associated

with non-credit activity and holds balances for potential insurance claims that are not expected to be obligated.

The President's Budget requests \$38 million in spending authority from offsetting collections and transfer authority from USAID to support DFI activities such as loans, loan guarantees, insurance, feasibility studies, and other programming as authorized. For loans and loan guarantees, this request includes a limitation on budget authority up to \$80 million, and an annual limitation on the total committed amount up to \$8 billion. The President's Budget also requests \$94 million in administrative expenses that will fund the total cost of development, implementation, and financial management of the DFI programming, as well as the continued administration of USAID and OPIC legacy credit portfolios. Additionally, the President's Budget requests \$2 million for a robust oversight, inspection, and evaluation of DFI programming.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

In order to streamline the panoply of international affairs agencies operating today, the Budget proposes consolidating small grants functions and assistance aimed at reaching poor and remote communities that is currently carried out by the Inter-American Foundation (IAF) into the U.S. Agency for International Development (USAID) in FY 2019. To facilitate the consolidation, the Budget requests \$3 million to conduct an orderly closeout of IAF beginning in fiscal year 2019, which includes sufficient funding for severance payments for duplicative functions not merged into USAID and other miscellaneous requirements for an orderly shutdown. The Budget also requests new funding for small grantmaking and select personnel through USAID to continue these functions.

5113 IMF quota letter of credit .....	105,627	105,627	105,627

The United States participates in the International Monetary Fund (IMF) through a quota subscription, denominated in Special Drawing Rights (SDRs). Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation ratifying the reforms, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange rate) to SDR 82,994,200,000 (approximately \$117 billion using the current exchange rate). Quotas are the main metric used by the Fund to assign voting shares and to determine countries' contributions to the IMF's general resources and access to IMF financing.

The use of the U.S. quota resources by the IMF constitutes an exchange of monetary assets and does not result in net budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

Title IX of The Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (Public Law 114-113) directs that the budgetary authority and outlays of the 2016 quota increase be recorded on a present value basis with a fair value premium added to the discount rate. In addition, under the Act, the 2009 quota increase is also now executed on a present value basis.

<b>Memorandum (non-add) entries:</b>			
5116 New Arrangements to Borrow .....	39,858	39,858	39,858

The General Arrangements to Borrow (GAB) were established in 1962 by 10 industrial countries, including the United States, as a means of supplementing the IMF's quota resources to forestall or cope with an impairment of the international monetary system. GAB participants decided in early 1983 to increase their financial commitments to the GAB from approximately SDR 6.3 billion to SDR 17 billion (about \$17.9 billion at that time), with the U.S. share rising from SDR 1.9 billion to approximately SDR 4.25 billion (about \$6 billion using the current exchange rate). In December 2017, GAB participants decided unanimously that the GAB should be allowed to lapse when its current term ends on December 25, 2018. Accordingly, the GAB decision was not renewed by the IMF's Executive Board by December 25, 2017, the deadline for its renewal. The non-renewal of the GAB will have no budget implications for the United States

as amounts authorized for the GAB are also authorized to be used for the New Arrangements to Borrow (NAB), hence the sum of U.S. resources made available to the IMF under the NAB and GAB could not exceed the total U.S. NAB participation.

In January 1997, the Executive Board of the IMF approved the creation of the NAB, which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998, and was activated for the first time in December 1998 to finance an IMF arrangement for Brazil. The IMF repaid the NAB participants in March 1999. From 1999 through March 2011 the NAB was not activated.

By the end of 2016, following reduction of the NAB as part of the 2010 IMF reforms (see the account entitled "United States Quota, International Monetary Fund"), 38 countries and institutions participated in the NAB for a total of SDR 181 billion (about \$255 billion), of which the U.S. share was approximately SDR 28 billion (about \$40 billion). The IMF began a six-month NAB activation period in October 2015, and deactivated the NAB in February 2016, before the end of the six-month period.

With respect to this account, resources provided by the United States under the GAB and NAB constitute an exchange of monetary assets and do not result in any net budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the GAB and NAB are readily available to meet a U.S. balance-of-payments financing need.

Title IX of The Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (Public Law 114-113) rescinded SDR 40,871,800,000 from U.S. participation in the NAB. The Act also directs that the budget authority and outlays of the NAB rescission be recorded on a present value basis with a fair value premium added to the discount rate. In addition, under the Act, the 2009 NAB increase is also now executed on a present value basis.

The Special Defense Acquisition Fund (SDAF) helps to better support coalition and other U.S. partners participating in U.S. overseas contingency and other operations; and expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2019 request reflects \$900 million in new SDAF obligation authority, to be funded by offsetting collections. In 2019, offsetting collections will be derived from SDAF sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2019 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective in a timely manner. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.

DIPLOMATIC FACILITIES

SEC. 7003. The National Surface Transportation and Innovative Finance Bureau (the Bureau) fulfills a number of specific responsibilities, including the following: provide assistance and communicate best practices and financing and funding opportunities to entities eligible under DOT infrastructure finance programs; administer the application process for DOT infrastructure finance programs; administer the application process for the Infrastructure for Rebuilding America (INFRA) grant program; reduce uncertainty and delays related to environmental reviews and permitting, as well as project delivery and procurement risks, and costs for projects financed by the DOT infrastructure finance programs and INFRA; increase transparency and the public availability of information regarding projects financed by the DOT infrastructure finance programs and INFRA; and promote best practices in procurement for projects financed by the DOT infrastructure finance programs and the INFRA program by developing benchmarks related to procurement. To assist with establishing the Bureau, the Fixing America's Surface Transportation (FAST) Act provides the Secretary with certain authorities to redirect personnel and budgetary resources, if necessary, to support the establishment and effectiveness of the Bureau. These authorities were available for two years and expired in December 2017. The Administration is proposing extending these authorities for the term of the FAST Act, or any extension thereof to allow full implementation of the Bureau. In addition to the FAST Act-authorized consolidations, the Budget proposes to consolidate the Maritime Guaranteed Loan (Title XI) program under the Bureau as well, including open loans.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for services provided by the Federal Aviation Administration (FAA) to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service (EAS) program and rural airport improvements. In addition, the FAA Modernization and Reauthorization Act (P.L. 112-95) requires that, in any fiscal year, overflight fees collected in excess of \$50 million will be available to carry out the EAS program. The 2019 Budget proposes to reform the EAS program.

Through 1997, the Essential Air Service (EAS) program was funded from the Airport and Airway Trust Fund. Starting in 1998, the Federal Aviation Administration reauthorization funded it as a mandatory program supported by overflight fees under the EAS and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to Payments to Air Carriers have been enacted every year beginning in 2002 to meet the needs of the essential air service program. The 2019 Budget proposes to reform the EAS program by adjusting the EAS eligibility based on driving distance to nearby airports; increasing the subsidy cap from \$200 to \$250 per passenger for EAS communities located within 210 miles from a large or medium hub airport; and eliminating the waiver for this requirement; and placing limits on the waiver authority for the 10-enplanement requirement.

The 2019 Budget requests \$9,931 million for Federal Aviation Administration (FAA) operations. These funds will be used to continue to promote aviation safety and efficiency. The Budget provides funding for the Air Traffic Organization (ATO) which is responsible for managing the air traffic control system. As a performance-based organization, the ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. The Budget also funds the Aviation Safety Organization which ensures the safe operation of the airlines and certifies new aviation products. In addition, the request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for air traffic control and related services provided by the Federal Aviation Administration to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Budget estimates that \$140 million in overflight fees will be collected in 2019.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). In December 2014, the Congress sunset part of the aviation insurance program. Specifically, the Congress returned U.S. air carriers to the commercial aviation market for all of their war risk insurance coverage by ending the FAA's authority to provide war risk insurance for a premium. Pursuant to 49 U.S.C. 44305, the FAA may provide insurance without premium at the request of the Secretary of Defense, or the head of a department, agency, or instrumentality designated by the President, when the Secretary of Defense, or the designated head, agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The "non-premium" aviation insurance program is authorized through December 31, 2018.
