## Congress Increases IRS Funding to \$11.43B

The omnibus bill released by Congress on March 21 would provide \$11.43 billion in total discretionary budget authority to the IRS for fiscal 2018, an increase of \$195.6 million from fiscal 2017 enacted levels. The budget authority includes \$320 million for implementing the new tax law, as well as an increase to taxpayer services. The budget leaves enforcement funding at 2017 levels and decreases budget authority for operations support and business systems modernization.
