

## Senator Daines, you're the best last opportunity for the last best place.

The sun is setting on the Land and Water Conservation Fund, but there's still time to get this remarkable program renewed permanently. To do that, we need you, Senator Daines, to lead Congress to renew and fund LWCF *now*, before the session ends in December. Let's turn this sunset into a new day for Montana's parks, wildlife and recreation economy.
