TITLE II

OPERATION AND MAINTENANCE

The fiscal year 2020 Department of Defense operation and maintenance budget request totals \$123,944,614,000. The Committee recommendation provides \$206,691,018,000 for the operation and maintenance accounts. The table below summarizes the Committee recommendations:

(57)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE ACCOUNTS

The Committee directs the Secretary of Defense to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2020 appropriation accounts not later than 60 days after the enact-2020 appropriation accounts not later than 60 days after the enact-ment of this Act. The Secretary of Defense is prohibited from exe-cuting any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees. The Committee directs the Secretary of Defense to use the nor-

The Committee directs the Secretary of Defense to use the nor-mal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities or between sub-activity groups in the case of Op-eration and Maintenance, Defense-Wide, in excess of \$10,000,000. In addition, the Secretary shall follow prior approval reprogram-ming procedures in excess of \$10,000,000 out of the following readi-ness sub activity groups:

ness sub-activity groups:

Army: Maneuver units Modular support brigades Land forces operations support Force readiness operations support Land forces depot maintenance Base operations support Base operations support Facilities sustainment, restoration, and modernization Specialized skill training Navv: *Navy:* Mission and other flight operations Fleet air training Aircraft depot maintenance Mission and other ship operations Ship depot maintenance Facilities sustainment, restoration, and modernization Base operating support Marine Corps: Operational forces **Field** logistics Depot maintenance Facilities sustainment, restoration, and modernization Base operating support Air Force: Primary combat forces Combať enhancement forces Depot maintenance Operating forces depot maintenance Facilities sustainment, restoration, and modernization Contractor logistics support and system support Flying hour program Base support Mobilization depot maintenance Training and recruiting depot maintenance Administration and service-wide depot maintenance

Air Force Reserve: Depot maintenance

Air National Guard: Depot maintenance

Additionally, the Secretary of Defense is directed to use normal prior approval reprogramming procedures when implementing transfers in excess of \$10,000,000 into the following budget sub-activities:

Operation and Maintenance, Army:

Other personnel support/recruiting and advertising

Operation and Maintenance, Army National Guard: Other personnel support/recruiting and advertising

REPROGRAMMING GUIDANCE FOR SPECIAL OPERATIONS COMMAND

The Committee directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by sub-activity group for the fiscal year 2020 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget sub-activities and the movement of any base funds used to support overseas contingency operations. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$5,000,000 between sub-activity groups.

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the Committee report. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

OPERATION AND MAINTENANCE QUARTERLY UPDATES

Regular interaction with each of the Service's financial management offices enhances the ability of the Committee to perform its essential oversight responsibilities. Through these interactions, the Committee is able to gain a better understanding of the challenges each of the Services face with the obligation and execution of their programs and contracts. The Committee notes the successful quarterly meetings this year with each of the Services and directs the Director of each of the Service's Operations Divisions (Financial Management and Budget) to continue to provide quarterly briefings

DEFENSE LANGUAGE PROGRAM

The Committee appreciates the continued emphasis the Department of Defense places on advanced foreign language and cultural training and recognizes its necessity for mission success and readiness. The Committee fully supports the Defense Language Institute Foreign Language Center and its efforts to ensure that necessary requirements for advanced foreign language and cultural training and materials are being met. Members of the military and intelligence communities must be able to communicate and interact directly with local populations, guides, foreign allies, and contractors to fully understand and respect their cultures. The Committee encourages the Secretary of Defense to continue efforts to improve existing capabilities and to ensure that requirements for authentic advanced foreign language training and cultural materials are being fully met.

RESTORING READINESS

The Committee recommendation includes additional readiness funds for each of the Services within the operation and maintenance accounts which shall only be used to improve military readiness, including providing for increased training and depot maintenance activities. None of the funding provided may be used for recruiting, marketing, or advertising programs. The additional funding is a congressional special interest item. The Committee directs the Secretary of Defense and the Service Secretaries to submit a detailed spend plan by sub-activity group to the congressional defense committees not less than 30 days prior to the obligation of these funds.

90/10 RULE

For-profit colleges often target servicemembers and veterans with aggressive marketing and recruiting because of a loophole that allows for-profit colleges to exclude any federal aid and educational benefits received from sources other than the Department of Education from the cap on federally derived institutional revenue. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that provides an analysis of all for-profit institutions that would exceed the 90/10 federal funding limits if revenue from the Department of Veterans Affairs and Department of Defense were included in the 90/10 calculation the same way that Title IV of the Higher Education Act funds are included for the most recent academic year. The report shall also include a list of schools that receive between 85 percent or more of their revenue from Title IV of the Higher Education Act, the Department of Veterans Affairs, and the Department of Defense sources for the most recent academic year.

for the state of the states.

CHILDCARE

The Committee recommendation includes additional funds for the Services to address the ongoing challenges that the lack of available childcare presents to servicemembers and their families. The Committee is concerned that in some geographical locations, the delays in providing affordable and acceptable childcare are negatively impacting the quality of life for servicemembers and their families. Given the demanding jobs that servicemembers must execute, creating unique solutions is required.

The Committee notes that each of the Services' budget requests increases funding for the sustainment, repair, and base operation budget lines. The Services should use these additional funds to make childcare development centers a priority by addressing mold remediation and other urgent repairs.

The Committee directs the Service Secretaries to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details their plans to address the obstacles to childcare, whether it be additional childcare development centers, additional staff, or acceptable alternatives for fiscal year 2020 and the future year defense program to ensure that these challenges are expeditiously met. The report shall include associated funding requirements for each identified course of action. Further, the Committee directs that the Service Secretaries include the number of children on childcare waiting lists in their fiscal year 2021 budget justification materials.

MILITARY FOOD TRANSFORMATION

The Committee remains concerned about the growing obesity crisis in the Department of Defense and its impact on military recruitment, readiness, and retention. The Committee is concerned that the Department's current food system may be overly complex and inefficient, which may result in higher costs per meal at dining facilities, unnecessary internal competition between on-base food service providers, and poor food service planning. Emphasis should be placed on providing nutritious food options at dining facilities and modernizing the on-base food system by using best practices from universities and industry partners. The Committee directs the Secretary of Defense to submit a re-

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act on ongoing food transformation efforts. The report should include details of the Department's ongoing efforts, costs associated with each effort, and an outline for a potential demonstration pilot program at multiple military installations.

The Committee also directs the Comptroller General to audit a sample size of the Services' dining facilities to determine whether the Services are accurately measuring meal card holder utilization rates, costs per meal, and all input costs such as food, operating, capital expenditures, facility sustainment, and military labor. The audit report shall be submitted to the congressional defense committees not later than 180 days after the enactment of this Act.

VIEQUES AND CULEBRA

The Committee remains concerned with the pace and scope of environmental restoration on the island municipalities of Culebra and Vieques in Puerto Rico. The Committee encourages the Secretary of the Army and the Secretary of the Navy to work closely with the Environmental Protection Agency, the Fish and Wildlife Service, and the Puerto Rico Environmental Quality Board to maximize public participation and transparency in the decontamination process in order to achieve a thorough decontamination result on both islands.

The Committee also is concerned about public safety on the northwest peninsula of Culebra due to unexploded ordnance identified there by the Army. The Committee encourages the Secretary of the Army to exercise available authorities, including the authority clarified through the National Defense Authorization Act for Fiscal Year 2015, to decontaminate the northwest peninsula. Additionally, the Committee directs the Secretary of the Army and the Secretary of the Navy each to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act detailing all respective decontamination authorities and plans applicable to Culebra and Vieques, to include particular emphasis on the decontamination of the northwest peninsula of Culebra.

The Committee also notes that there are gaps in information about types and amounts of ordnance used on Vieques and Culebra, as well as about potential links between the ordnance used and present threats to public health. The Committee directs the Secretary of the Army and the Secretary of the Navy to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act on previously released information related to the ordnance on the two islands. The Committee also urges the Secretaries to publish the relevant documents on the internet in a single location and in a user-friendly format.

PILOT SHORTAGES

The Committee supports efforts throughout the Department of Defense to address the shortage of pilots across the Services. The Committee encourages the Secretary of Defense to work with higher education institutions, including Historically Black Colleges and Universities, Hispanic Serving Institutions, and other Minority Serving Institutions, to develop programs that will prepare more students to meet the eligibility requirements for pilot training. In addition, the Committee encourages the Secretary of the Air Force to examine university-based training for Air Force ROTC cadets and civilian aviation students as pilots and sensor operators for remotely piloted aircraft.

CIVILIAN PAY

The Committee is disappointed that the budget request did not include funding for a pay raise for civilian federal employees. Civilian federal employees most clearly represent civilian control of the military and the intelligence community, a basic principle necessary for a democratic government to thrive. The Committee sup-

ports a civilian pay increase of 3.1 percent and directs the Secretary of Defense and the Director of National Intelligence to provide an official estimated cost for a 3.1 percent increase to the House and Senate Appropriations Committees not later than July 1, 2019.

RECLAIMED REFRIGERANTS

Reclaiming refrigerant aids in the prevention of creating new refrigerants and ensures the safe disposal of chemicals. Considering the large number of Department of Defense facilities and the widespread use of refrigerants, the Committee urges the Under Secretary of Defense for Acquisition and Sustainment to give preference to the use of reclaimed refrigerants to service existing equipment in Department of Defense facilities.

MOVEMENT OF PERSONNEL EFFECTS

The Department of Defense, through the United States Transportation Command (TRANSCOM), administers approximately 500,000 military household moves and related services annually through the Defense Personal Property Program (DP3). Approximately 900 American companies meet TRANSCOM qualifications and provide moving and related services under the program.

In response to congressional inquiries about customer satisfaction issues, TRANSCOM notified the relocation industry that the program may be outsourced to a single move management entity. The Committee has concerns about such an abrupt change to this policy, and before any such transition may begin, the Committee requires a better understanding of the possible outcomes such a decision could have on the lives of military families.

The Committee directs the Comptroller General to provide the congressional defense committees, not later than 120 days after the enactment of this Act, a comprehensive study of the impact the outsourcing of management and oversight of the movement of household goods to a private entity or entities would have on servicemembers and their families, including a comprehensive costbenefit analysis and recommendations for changes to the Department's strategy for DP3. The Committee directs the Secretary of Defense not to issue a request for proposal or obligate funds for DP3 until 90 days after the Secretary of Defense certifies that the Department has received a draft of the Government Accountability Office study and provided the GAO with a written response.

UNITED STATES-REPUBLIC OF KOREA MILITARY EXERCISES

The Committee recognizes that there have been recent changes to the long-established exercises scheduled between the United States and the Republic of Korea militaries. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 180 days after the enactment of this Act that details the changes to the exercises between the two militaries and assesses the readiness issues that may have resulted or could still result from the modification of such exercises. This report may include a classified annex, if necessary.

MEALS READY-TO-EAT WAR RESERVE

The Committee recommendation fully supports the fiscal year 2020 request for the Defense Logistics Agency to maintain 2,500,000 cases of meals ready-to-eat and reaffirms support for the War Reserve stock objective of 5,000,000 cases.

REDUCING WASTE, FRAUD, AND ABUSE

The Committee is encouraged by the initial Department-wide audit efforts of the Department of Defense. However, the Committee notes that the audit revealed organizational deficiencies that could continue to hamper efforts to obtain a clean audit in the future. The Committee expects the Secretary of Defense to comply with Section 1005 of the National Defense Authorization Act for Fiscal Year 2019 and Section 1002 of the National Defense Authorization Act for Fiscal Year 2018.

ADVERTISING

The Committee understands that, as the largest advertiser in the United States, the federal government should work to ensure fair access to its advertising contracts for small disadvantaged businesses and businesses owned by minorities and women. The Committee directs the Secretary of Defense to include with the fiscal year 2021 budget submission the total level of expenditures for fiscal years 2019 and 2020 and the requested level of funding for fiscal year 2021 for all contracts for advertising services; contracts for advertising services by women or minority owned businesses; and contracts for advertising services by socially and economically disadvantaged small businesses (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

INDIAN FINANCING ACT

The Committee recommendation includes funds for activities authorized in the Indian Financing Act of 1974. The Committee directs the Secretary of Defense to obligate funds for these activities not later than 90 days after the enactment of this Act.

NATIVE PLANT MATERIALS

The Committee encourages the Secretary of Defense to give preference to the use of locally adapted native plant materials to the extent practicable while carrying out a land management activity on land under the jurisdiction of the Department of Defense.

SEXUAL ASSAULT AND JUVENILE JUSTICE

The Committee is concerned by reports of sexual assault and harassment among students at schools managed by the Department of Defense Education Activity. Local government officials do not have uniformly established jurisdiction when dealing with criminal offenses of juvenile members of the military community on domestic military installations. The Committee encourages the Secretary of Defense, in coordination with the Department of Justice, to explore opportunities to establish memorandums of understanding with state and local prosecutors to adjudicate juvenile criminal cases when the alleged offenses occur within the boundaries of a military installation.

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which details efforts to establish memorandums of understanding; successes and challenges with implementation; whether additional authorities are necessary to address this problem; actions that each Department is taking to address, respond to, and prevent sexual assault cases; and each Department's strategy related to misconduct by such juveniles.

JOINT REGIONAL SECURITY STACKS

The Committee recognizes the ongoing efforts of the Defense Information Systems Agency (DISA) to protect sensitive government data from unauthorized access and disclosure. Deployment of DISA's Joint Regional Security Stacks is expected to improve the security, effectiveness, and efficiency of the Department of Defense Information Network. The Committee encourages the Director of DISA to assess whether a center stack architecture could improve how network traffic is delivered to components of cybersecurity tools.

DIGITAL ASSET MANAGEMENT SOLUTION

The Committee supports the ongoing efforts of the Defense Information Systems Agency (DISA) to modernize the Department of Defense's internal and external digital services consistent with the goals of the Department of Defense Information Network Systems Engineering and Support project. The Committee believes that cybersecurity and cloud computing present critical near-term challenges and recognizes the need to securely leverage commercial cloud service offerings. The Committee encourages the Director of DISA to develop an industry standard, interoperable, extensible digital asset management solution to improve digital service delivery for warfighters and internal department workflows.

CLIMATE CHANGE

The Committee notes the Department's January 2019 report, "Report on Effects of a Changing Climate to the Department of Defense," found more than two-thirds of the military's operationally critical installations are threatened by climate change. The Committee is disappointed that the report failed to provide installationspecific resilience plans or cost estimates for mitigation activities as required by Section 335 of Public Law 115–91. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which contains a list of the top ten most climatevulnerable bases within each Service and provides a cost estimate to mitigate the risks at each of these bases.

OPERATION AND MAINTENANCE, ARMY

Fiscal year 2019 appropriation	\$40,145,482,000

SHIP DEPOT MAINTENANCE

The Committee is disappointed that the Chief of Naval Operations requested an additional \$814,000,000 on the Navy's fiscal year 2020 unfunded priority list for the Ship Depot Maintenance account. The fiscal year 2020 budget request for this activity is \$10,426,913,000, an increase of \$652,740,000 above the fiscal year 2019 enacted level of \$9,774,173,000.

The Committee is concerned by the maintenance delays that persistently occur under this account and finds these delays completely unacceptable. A Government Accountability Office study noted delays for different vessels range from 1,000 to almost 19,000 days. These delays increase the costs of repairs as ships and submarines wait for their respective slots at the various public and private shipyards. It is imperative the Navy improve its scheduling and budgeting for these activities to reduce the length of time that ships and submarines remain unable to deploy and to reduce the costs associated with lengthy delays in the maintenance process.

The Committee recommendation includes a transfer of \$653,000,000 from Shipbuilding and Conversion, Navy to Operation and Maintenance, Navy to address the urgent maintenance requirements for the USS *Boise*, the USS *Hartford*, and the USS *Co-lumbus*. The Committee appreciates and supports the need for new attack submarines, but believes that the Navy must also address repairs of its current fleet, with these three submarines receiving priority attention. In particular, the Committee believes the USS *Boise* must receive immediate attention and resources, given that it lost its dive certification in 2017 and has been effectively out of operation for two years.

To provide more transparency and accountability, the Committee directs the Secretary of the Navy to provide with the submission of the fiscal year 2021 budget request the names and estimated costs of the ships and submarines scheduled for maintenance that correspond to the fiscal year 2021 budget request for ship depot maintenance, for both base and overseas contingency operations funding requests.

JET NOISE

The Committee is aware of the negative effects that jet noise may have on communities near installations with airfields. The Committee directs the Secretary of the Navy to measure the level of jet noise generated by Navy aviation assets and to make that noise measurement data available to the public. The Committee also encourages the Secretary of the Navy to collaborate with the Director of the Office of Economic Adjustment to identify communities impacted by Navy aviation jet noise and to mitigate any economic impacts from noise caused by persistent and ongoing Navy aviation activities.

SHIPYARD INFRASTRUCTURE

The Committee recognizes the critical role public shipyards play in national security and notes that public shipyards require significant maintenance and upgrades. The Navy's Shipyard Infrastructure Optimization Plan included recommendations and future year projects that would help restore public shipyards to better serve the Navy's requirements. The Committee encourages the Secretary of the Navy to prioritize projects listed in the future years defense program that are necessary for national security requirements.

OPERATION AND MAINTENANCE, MARINE CORPS

Fiscal year 2019 appropriation	\$6,540,049,000
Fiscal year 2020 budget request	3,928,045,000
Committee recommendation	7,945,854,000
Change from budget request	+4,017,809,000

The Committee recommends an appropriation of \$7,945,854,000 for Operation and Maintenance, Marine Corps which will provide the following program in fiscal year 2020:

PILOT SHORTAGES AND TRAINING CAPACITY

The Committee remains concerned by continued pilot shortages in the Air Force. The scope of the crisis is even more pronounced when considering undergraduate pilot training throughput must grow thirty percent by fiscal year 2022 to meet stated Air Force "Grow the Force" objectives. While the Committee supports previous innovations of Air Force test programs, syllabus changes, and related funding increases, to begin to mitigate the crisis, existing training base capacity remains a limiting factor in fully addressing pilot training demands. The Committee recommendation includes an additional \$8,000,000 for the Air Force to address this critical pilot shortage.

DEFENSE MEDIA ACTIVITY

The Committee understands that the Air Force is reviewing its media facilities and notes the importance of having a national presence for the Air Force Network's production facilities. During the review, the Secretary of the Air Force should remain aware of each geographic region's assets, such as beneficial weather conditions and telecommunication infrastructure. The Committee encourages the Secretary of the Air Force to inform the congressional defense committees prior to implementing any changes to the current structure.

AIRCRAFT DAMAGE

The Committee recognizes the adverse impact that sunlight and hail can have on the readiness and service life of aircraft. Unprotected aircraft can sustain significant damage during hail storms and long-term damage because of extensive sun exposure, creating additional, yet preventable, maintenance costs. The Committee urges the Secretary of the Air Force to prioritize maintenance projects that may provide protection for aircraft to prevent damage caused by weather.

SECURITY ASSISTANCE PROGRAMS

The Committee recommendation provides \$623,073,000 for base programs administered by the Defense Security Cooperation Agency (DSCA) and an additional \$1,614,178,000 in title IX for overseas contingency operations. Prior to the initial obligation of funds, the Committee directs the Director of DSCA to submit a spend plan by budget activity and sub-activity to the House and Senate Appropriations Committees. For funds planned for the Security Cooperation Account, the Director shall, in coordination with the geographic combatant commanders, identify amounts planned for each combatant command and country, and a comparison to such amounts provided in the previous five fiscal years.

The Committee recommendation includes funding at levels consistent with prior years for Jordan.

The Committee recommendation provides \$250,000,000 for the Ukraine Security Assistance Initiative, the same as the fiscal year 2019 enacted level. The Committee urges the new Government of Ukraine to implement additional reforms, including measures to combat corruption. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of reforms in the security sector and efforts to reduce corruption in the security services, including through assistance programs provided in this Act.

The Committee recommendation includes funding for the Maritime Security Initiative for countries in the Indo-Pacific Command area of responsibility. The Committee notes that 10 U.S.C. 333 provides the Secretary of Defense with the authority to carry out security assistance programs in a number of areas, including for maritime and border security operations. The Committee directs the Secretary of Defense to submit a copy of the Indo-Pacific Strategic Framework and the Indo-Pacific Implementation Plan to the congressional defense committees not later than 30 days after the enactment of this Act and prior to the initial obligation of funds for security assistance programs in the Indo-Pacific Command area of responsibility.

The Committee recommendation provides funding for certain border security programs under the Counter-ISIS Train and Equip Fund instead of under the security assistance programs.

The Committee directs the Secretary of Defense to provide information and documents, as appropriate, to the appropriate judicial authorities in El Salvador investigating the December 1981 massacre in El Mozote.

INVENTORY MANAGEMENT

The Committee is concerned by the lack of accurate inventory management controls in place at the Department of Defense which often result in lost material, parts, and funding. The Committee directs the Secretary of Defense, in coordination with the Directors of the Defense Logistics Agency, the Defense Contract Management Agency, and the Defense Contract Audit Agency, to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act that describes how the Department can better track its inventory. The report should include possible ways to hold contractors liable for lost or unaccounted parts and material, especially when contractors are on contract to provide inventory management.

OFFICE OF ECONOMIC ADJUSTMENT—COMMUNITY ACTIVITIES

The Committee recommendation includes an additional \$30,400,000 for the Office of Economic Adjustment whose mission is to provide support to communities and states that support the readiness of military installations, ranges, and military supply chains. The Committee understands that the responsibilities of the Office of Economic Adjustment have been expanded and believes that these additional funds, with the addition of two full time equivalents, will enhance its ability to support both community and military missions.

DEFENSE COMMISSARY AGENCY

In 2018, the Department of Defense began to sell beer and wine in defense commissaries. However, the Committee notes that the sale of distilled spirits is still not included in the policy. Since military commissary stores are intended to be similar to commercial grocery stores and roughly half of States legally sell distilled spirits in grocery stores, the Committee believes that the Department should have explored this option to further improve customer convenience at all military commissaries. The Committee directs the Undersecretary of Defense (Personnel and Readiness) to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act not on why the decision was made, but whether the decision to restrict the sale of distilled spirits in military commissaries will be reconsidered in the near future.

DEFENSE COUNTERINTELLIGENCE AND SECURITY AGENCY

The primary responsibility for conducting background investigations for the federal government officially shifted from the Office of Personnel Management to the Department of Defense, Defense Counterintelligence and Security Agency, formerly known as the Defense Security Service, on April 24, 2019. The Committee is closely monitoring the transition and notes the increases in both budget and number of civilian personnel that are tied to the transfer. Further, the Committee remains interested in fully understanding the Department's cost recovery/service charge model, which is a key feature of the recently established background investigation working capital fund.

The Committee directs the Director of the Defense Counterintelligence and Security Agency to provide quarterly progress reports to the House and Senate Appropriations Committees that include budgetary updates on related activities funded with direct appropriations and funds received from other departments, agencies, or organizations on a reimbursable basis. The first quarterly report should be provided not later than 60 days after the enactment of this Act and should continue through the end of fiscal year 2020.

SUSTAINABLE ENERGY INITIATIVES

The Committee recognizes the advances the Department of Defense has made in increasing sustainable and renewable energy supply to its facilities. Expanding the installation of energy use reduction technologies and renewable, sustainable energy sources on defense installations provides protection against threats to the commercial grid, reduces energy costs, and provides environmental benefits to the community. The Committee encourages the Secretary of Defense to continue to expand the use of sustainable and renewable energy sources.

PFOS/PFOA EXPOSURE ASSESSMENT

The National Defense Authorization Act for Fiscal Year 2019 authorized a study and assessment of the health implications of perfluorooctane sulfonate (PFOS) and perfluorooctanoic acid (PFOA) contamination on military installations. The Committee recommendation includes \$13,000,000 for the study and assessment, which shall be limited to current or former domestic military installations known to have PFOS/PFOA contamination in drinking water, ground water, and any other sources of water and relevant exposure pathways. The Committee also directs the Assistant Secretary of Defense (Energy, Installations, and Environment) to submit a report to the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the Department's strategy to execute this funding.

The Committee remains deeply concerned about PFOS/PFOA contamination on current and former domestic military installations. As the Department conducts its exposure assessment on all installations known to have PFOS/PFOA drinking water contamination, the Committee directs the Assistant Secretary of Defense (Energy, Installations, and Environment) to publicly release the measured levels of contamination found at each installation. For all remediation activities, the Department is directed to achieve a drinking water cleanup standard no higher than the threshold of the Environmental Protection Agency (EPA) health advisory level (currently 70 parts per trillion) for federally controlled sites and surrounding communities whose water sources were contaminated as a result of Department activities.

OPERATION AND MAINTENANCE, ARMY RESERVE

Fiscal year 2019 appropriation	\$2,781,402,000
Fiscal year 2020 budget request	1,080,103,000
Committee recommendation	3,009,594,000

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

Fiscal year 2019 appropriation	\$14,662,000
Fiscal year 2020 budget request	14,771,000
Committee recommendation	$14\ 771\ 000$
Change from budget request	

The Committee recommends an appropriation of \$14,771,000 for the United States Court of Appeals for the Armed Forces.

ENVIRONMENTAL RESTORATION, ARMY

Fiscal year 2019 appropriation	
Fiscal year 2020 budget request	
Committee recommendation	
Change from budget request	+28,291,000

The Committee recommends an appropriation of \$235,809,000 for Environmental Restoration, Army.

ENVIRONMENTAL RESTORATION, NAVY

Fiscal year 2019 appropriation	\$365,883,000
Fiscal year 2020 budget request	
Committee recommendation Change from budget request	+29,951,000

The Committee recommends an appropriation of \$365,883,000 for Environmental Restoration, Navy.

ENVIRONMENTAL RESTORATION, AIR FORCE

Fiscal year 2019 appropriation	\$365.808.000
Fiscal year 2020 budget request	302,744,000
Committee recommendation	
Change from budget request	+63,064,000

The Committee recommends an appropriation of \$365,808,000 for Environmental Restoration, Air Force.

GRANULAR ACTIVATED CARBON

The Committee is concerned by actual and potential incidents of contaminated drinking water on and around military bases. The Committee understands that in more than one instance, the Services' use of firefighting foam during training exercises may have caused perfluorinated chemicals (PFCs) to enter the ground and drinking water supply. The Committee recognizes that using granular activated carbon is an effective way of removing PFCs from ground water and drinking water and encourages the Secretary of the Air Force to explore the use of granular activated carbon for the removal of PFCs that impact environmental and human health standards at all Air Force bases.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

Fiscal year 2019 appropriation	\$19,002,000
Fiscal year 2020 budget request	9,105,000
Committee recommendation	19,002,000
Change from budget request	+9,897,000

The Committee recommends an appropriation of \$19,002,000 for Environmental Restoration, Defense-Wide.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

Fiscal year 2019 appropriation	\$248,673,000
Fiscal year 2020 budget request	216,499,000
Committee recommendation	260,499,000
Change from budget request	+44,000,000

The Committee recommends an appropriation of \$260,499,000 for Environmental Restoration, Formerly Used Defense Sites.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

Fiscal year 2019 appropriation	\$117,663,000
Fiscal year 2020 budget request	108,600,000
Committee recommendation	117,663,000
Change from budget request	+9,063,000

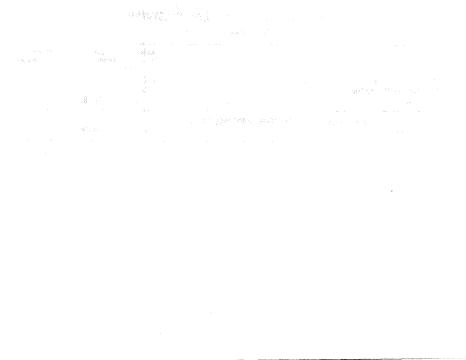

The Committee recommends an appropriation of \$117,663,000 for Overseas Humanitarian, Disaster, and Civic Aid, which will provide the following program in fiscal year 2020:
