Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- (1) Type of Information Collection: Revision of a Currently Approved Collection.
- (2) Title of the Form/Collection: Affidavit of Support under Section 213A of the Act.
- (3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: Form I-864; I864A; I-864EZ; USCIS.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract:
Primary: Individuals or households; The data collected on Form I-864 will be used by the USCIS to determine whether the sponsor has the ability to support the sponsored alien under

section 213A of the Immigration and Nationality Act. This form serves the purpose of standardizing the evaluations of the sponsor's ability to support the sponsored alien and ensures that basic information required to assess eligibility is provided by petitioners.

The Form I-864A is a contract between the sponsor and the sponsor's household members. It is only required if the sponsor used income of his or her household members to reach the required 125 percent of the Federal poverty guideline. The contract holds these household members jointly and severally liable for the support of the sponsored immigrant. The information collection required on Form I-864A is necessary for public benefit agencies to enforce the Affidavit of Support in the event the sponsor used income of his or her household members to reach the required income level and the public benefit agencies are requesting reimbursement from the sponsor.

The Form I-864EZ will be used by the USCIS in exactly the same way as Form I-864, however, the USCIS will collect less information from the sponsors as less information will be needed from those who qualify in order to make a thorough adjudication.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection I-864 is 453,345 and the estimated hour burden per response is 6.5 hours; the estimated total number of respondents for the information collection I-864A is 215,800 and the estimated hour burden per response is 2.25 hours; the estimated total number of respondents for the information collection I-864EZ is 100,000 and the estimated hour burden per response is 3 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 3,732,293 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is \$135,569,525.
