Subject: FSA Payment Vehicle Account Program Pilot for Postsecondary Schools

Dear Mr. Fox:

This letter is to acknowledge that the U.S. Department of Education Office of Federal Student Aid's (FSA) Payment Vehicle Account Program Pilot may be offered to students of Jackson State University who receive Title IV student financial aid. The availability of this option will be set forth in the FSA Mobile App which redirects students to a pilot implementer not associated with the University of California, Riverside. We appreciated adding additional language to the disclaimer noting the offering is not being operated or endorsed by the University.

While the University is aware of this program, we neither endorse nor prohibit students from participating in this or any other program offered by banks and other financial service firms. This approach is consistent with how the University deals with individual banking institutions and other financial services firms that students choose to utilize for their student account credit balances and associated financial transactions.

The University is committed to providing Title IV funds consistent with applicable federal laws and procedures. When necessary, the University will provide reasonable assistance to FSA in the investigation of fraud or misuse of Title IV funds.

We appreciate the information that has been provided and support efforts to provide cost effective solutions to students participating in postsecondary education.

Best regards,
