

March 26, 2021

Dear Fellow Californian:

This past year has tested our state—and our country—in profound ways. And while challenges remain, California is making important progress against the COVID19 pandemic, from declining cases to expanding vaccine distribution. And yet, a well-funded, politically motivated recall effort against Governor Gavin Newsom threatens to roll back our growing progress.

We are writing to ask if you will join us in publicly opposing the recall effort against Governor Newsom, and urge others to join us in opposing it as well. Faced with extraordinary challenges, Governor Newsom has made the tough decisions to guide our state through multiple crises unprecedented in our lifetimes. We hope you'll agree now is the ABSOLUTE WRONG TIME to recall the Governor, stop our progress in its tracks, and take our state backwards again.

All California leaders should be 100% focused on COVID19 recovery efforts. We oppose the effort to recall the California Governor in 2021.
